Acknowledgements

We would first and foremost like to recognize and acknowledge the citizens of Montana who took the time and effort to attend the preliminary public information meetings, respond to the online survey, or contact Fish, Wildlife & Parks in regards to bison. The document is far more inclusive and comprehensive based on your invaluable comments, questions, and participation. This represents an attempt to create a forum for concerns, and to begin a cooperative process of exploring options for dealing with the issues in a collaborative manner.

This document would not have been possible without the generous funding of the Greater Yellowstone Coalition's Janyne Oberdorfer Memorial Fellowship, Montana State University, and the Wildlife Conservation Society.

We would like to offer a special thank you to Harold Picton, whose book *Buffalo Natural History and Conservation* provided a strong foundation of knowledge. We would also like to offer a special thank you to C. Cormack Gates, Curtis H. Freese, Peter J. P. Gogan, and Mandy Kotzman, the editors of the International Union for Conservation of Nature's *American Bison Status Survey and Conservation Guidelines 2010*. This report provided a wealth of knowledge.

Numerous individuals and organizations provided information and insight that allowed us to gain a better understanding of the issues, or offered support in the creation of this document. Though it is not possible to individually recognize all of these individuals and organizations, we would like to acknowledge the following: Keith Aune, Eric Sanderson, and the Wildlife Conservation Society; Mark Pearson and the Greater Yellowstone Coalition; Tom Roll, Jack Fisher Jr., and Bob Garrott (Montana State University); Carrie King and Alan Zufelt (Arizona Game and Fish); Gord Vaadeland and the Sturgeon River Plains Bison Stewards; Craig Knowles; Jim Posewitz; Glenn Hockett (Gallatin Wildlife Association); Gene and Bev Allen; Kerry Guthrie and the National Park Service; Steve Merritt, George Harris, Martin Zaluski, Jeannie Rankin, and the Montana Department of Livestock; Duane Williams, Jomini Pierre, and the Montana Department of Transportation; Kent R. Hersey, Dax Mangus, Bill Bates, Justin Shannon, Steve Bates, and the Utah Division of Wildlife Resources; Marcel Huijser (Western Transport Institute); Eric Cole (USFWS); Karen Corts (Ute Indian Tribe Fish and Wildlife Department); Damon Murdo and the Montana State Historic Preservation Office; Darrell Geist, Stephany Seay, Dan Brister, and the Buffalo Field Campaign; Mike Lopez (Nez Perce Tribe); Shirley Atkinson (Nevada Department of Wildlife); and Joe Pitt (Umatilla Tribe).

We would also like to acknowledge the following individuals within Montana Fish, Wildlife & Parks: Neil Anderson, Rebecca Cooper, Emily Dixon, Mike Frisina, Lauri Hanauska-Brown, Rebecca Jakes-Dockter, Steve Knapp, Bob Lane, Adam Messer, Tom Palmer, Sunny Schreiner, and a special thank you to Margaret Morelli.
