RE: Flathead Indian Reservation – Mission Valley Hydross Model

Dear Wade;

The purpose of this letter is to document the results of our review of the Mission Valley area Hydross model developed for the Flathead Indian Reservation by HKM. On October 1, 2007 Stetson Engineers received a CD containing the baseline Hydross model for the Mission area and associated input, calibration, and GIS files. Stetson personnel worked with HKM personnel during a series of conference calls to discuss model issues. The result of this review process is that we are in agreement with the input data and assumptions that are in the model.

Sincerely,

Joe DeMaggio, P.E.  
Stetson Engineers Inc.
