- (a) current and prospective supplies of milk in relation to current and prospective demands for milk for all purposes;
- (b) the cost factors in producing milk, which must include among other things the prices paid by farmers generally, as used in parity calculations of the United States department of agriculture, prices paid by farmers for dairy feed in particular, and farm wage rates in this state;

- (15) (a) Upon petition by 10% or 20 of the licensed producers in Montana, whichever is less, or upon petition by a licensed producer-distributor or distributor, the board shall hold a hearing to receive and consider evidence regarding the advisability and need for a statewide pooling arrangement as a method of payment of producer prices, provided that at the hearing, the board shall, among other things, specifically receive and consider evidence concerning production and marketing practices that have historically prevailed statewide. If the board finds that the evidence presented at the hearing warrants the establishment of a statewide pooling arrangement, the board shall proceed by order to establish the arrangement. - (d) An order of the board establishing a statewide pooling arrangement that has been approved in a referendum may be rescinded in the same manner as provided for approval of the order under subsection (15)(a). The order may be amended without a referendum if, prior to amending the order, the board gives written notice of its intended action and holds a public hearing.
- (16) The requirements of this section concerning notices of hearings for the establishment of milk pricing formulas apply to any hearings regarding base or quota plans or statewide pooling arrangements or abandonment of base or quota plans or statewide pooling arrangements.

- (b) To the extent that the requirements of this section are inconsistent with federal requirements, the requirements of this section do not apply to an environmental review that is being prepared jointly by a state agency pursuant to this part and a federal agency pursuant to the National Environmental Policy Act or to an environmental review that must comply with the requirements of the National Environmental Policy Act.
- (2) A project sponsor may, after providing a 30-day notice, appear before the environmental quality council at any regularly scheduled meeting to discuss issues regarding the agency's environmental review of the project. The environmental quality council shall ensure that the appropriate agency personnel are available to answer questions.
- (3) If a project sponsor experiences problems in dealing with the agency or any consultant hired by the agency regarding an environmental review, the project sponsor may submit a written request to the agency director requesting a meeting to discuss the issues. If the issues remain unresolved after the meeting with the agency director, the project sponsor may submit a written request to appear before the appropriate board, if any, to discuss the remaining issues. A written request to the appropriate board must sufficiently state the issues to allow the agency and the board to prepare for the meeting.
- (4) (a) Subject to the requirements of subsection (5), to ensure a timely completion of the environmental review process, an agency is subject to the time

limits listed in this subsection (4) unless other time limits are provided by law. All time limits are measured from the date the agency receives a complete application. An agency has:

- (i) 60 days to complete a public scoping process, if any;
- (ii) 90 days to complete an environmental review unless a detailed statement pursuant to 75-1-201(1)(b)(iv) or 75-1-205(4) is required; and

After one extension, the agency may not extend the time limit unless the agency and the project sponsor mutually agree to the extension.
- (6) If the project sponsor disagrees with the need for the extension, the project sponsor may request that the appropriate board, if any, conduct a review of the agency's decision to extend the time period. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue.
- (7) (a) Except as provided in subsection (7)(b), if an agency has not completed the environmental review by the expiration of the original or extended time period, the agency may not withhold a permit or other authority to act unless the agency makes a written finding that there is a likelihood that permit issuance or other approval to act would result in the violation of a statutory or regulatory requirement.
- (b) Subsection (7)(a) does not apply to a permit granted under Title 75, chapter 2, or under Title 82, chapter 4, parts 1 and 2.

The project sponsor may request that the appropriate board, if any, review an agency's request regarding the level of design detail information that the agency believes is necessary to conduct the environmental review. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue.
- (11) An agency shall, when appropriate, consider the cumulative impacts of a proposed project. However, related future actions may only be considered when these actions are under concurrent consideration by any agency through

Section 3. Coal severance tax bonds authorized. (1) The legislature finds that Title 17, chapter 5, part 7, provides for the issuance of coal severance tax bonds for financing specific approved renewable resource projects as part of the state renewable resource grant and loan program. Available funds from previous sales of coal severance tax bonds, plus any additional principal amount on bonds as may be necessary, pursuant to the conditions in 85-1-605, to fund emergency loans, as authorized and approved in accordance with 85-1-605(4), may also be used for the projects approved in [sections 1 through 7]. The board of examiners is authorized to issue coal severance tax bonds in an amount not to exceed \$20,058,795, of which \$13,973,636 is to be used to finance the projects approved in [sections 1 and 2], \$3,468,795 is to be used to finance additional loans in lieu of grants listed in House Bill No. 6, and up to \$2,616,364 is to be used to establish a reserve for the bonds. Proceeds of the bonds are appropriated to the department of natural resources and conservation for financing the projects identified in [sections 1 and 2] and may be used as authorized in 85-1-605(4). Loans made under 85-1-605(4) must bear interest at the rate borne by the state bonds unless the legislature in a subsequent session provides for a lower interest rate, in which case the rate must be reduced to the rate specified by the legislature.

- (2) In connection with the issuance of coal severance tax bonds, the board of examiners may pay the principal and interest on the bonds when due from the debt service account and in all other respects manage and use the funds within each special bond account for the benefit of the bonds. The board of examiners shall exercise its discretion to enhance the marketability of the bonds and to secure the most advantageous financial arrangements for the state.
- (3) Earnings on bond proceeds prior to the completion of any loan must be allocated to the debt service account to pay the debt service on the bonds during

this period. Earnings in excess of debt service, if any, must be allocated to the renewable resource grant and loan program state special revenue account.

- (4) Loan repayments from loans financed with coal severance tax bonds are pledged, dedicated, and appropriated to the debt service account in the state treasury for the benefit of bonds approved for loans under this section.
- **Section 4. Conditions of loans.** (1) Disbursement of funds under [sections 1 through 7] for loans is subject to the following conditions that must be met by project sponsors:
- (a) approval of a scope of work and budget for the project by the department of natural resources and conservation. Reductions in a scope of work or budget may not affect priority activities or improvements.
  - (b) documented commitment of other funds required for project completion;
- (c) satisfactory completion of conditions described in the recommendations section of the project narrative in the renewable resource grant and loan program project evaluations and recommendations report for the biennium;
  - (d) execution of a loan agreement with the department; and
- (e) accomplishment of other specific requirements considered necessary by the department to accomplish the purpose of the loan as evidenced from the application to the department or from the proposal to the legislature.
- (2) Each sponsor authorized for a loan from coal severance tax bond proceeds may be required to pay to the department a pro rata share of the bond issuance costs and the administrative costs incurred by the department to complete the loan transaction.
- Section 5. Private and discount purchase of loans. Loans to political subdivisions and local government entities and bonds, warrants, and notes issued in evidence of the loans may be made, purchased by, and sold to the department of natural resources and conservation at a discount and at a private negotiated sale, notwithstanding the provisions of any other law applicable to political subdivisions or local government entities.
- **Section 6. Appropriations established.** For any entity of state government that receives a loan under [sections 1 through 7], an appropriation is established for the amount of the loan upon award of the loan by the department of natural resources and conservation.
- Section 7. Creation of state debt—appropriation of coal severance tax—bonding provisions. (1) Because [section 3] authorizes the creation of a state debt, a vote of two-thirds of the members of each house is required for enactment of [section 3].
- (2) The legislature, through the enactment of [sections 1 through 7] by a vote of three-fourths of the members of each house of the legislature, as required by Article IX, section 5, of the Montana constitution, pledges, dedicates, and appropriates from the coal severance tax bond fund all money necessary for the payment of principal and interest not otherwise provided for on the coal severance tax bonds authorized by [section 3] to be issued pursuant to Title 17, chapter 5, part 7, and pursuant to the provisions of [sections 1 through 7] and the general resolution for this bond program that has been adopted by the board of examiners under the authority provided in Title 17, chapter 5, part 7.
- Section 8. Severability. If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is

invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

The provisions of 41-5-355 relating to alternative placements apply to placements under this subsection (1)(b). The court may not place a youth adjudicated to be a delinquent youth in a state youth correctional facility for an act that would be a misdemeanor if committed by an adult unless:
  - (i) the youth committed four or more misdemeanors in the prior 12 months;
- (ii) a psychiatrist or a psychologist licensed by the state or a licensed clinical professional counselor or a licensed clinical social worker has evaluated the youth and recommends placement in a state youth correctional facility; and
- (iii) the court finds that the youth will present a danger to the public if the youth is not placed in a state youth correctional facility.

- (i) the youth has not previously been found to have committed or been adjudicated for a sexual offense, as defined in 46-23-502; and
- (ii) registration is not necessary for protection of the public and that relief from registration is in the public's best interest;
- (e) in the case of a delinquent youth who is determined by the court to be a serious juvenile offender, the judge may specify that the youth be placed in a state youth correctional facility, subject to the provisions of subsection (2), if the judge finds that the placement is necessary for the protection of the public. The court may order the department to notify the court within 5 working days before the proposed release of a youth from a youth correctional facility. Once a youth is committed to the department for placement in a state youth correctional facility, the department is responsible for determining an appropriate date of release or an alternative placement.

Restrictions imposed pursuant to this subsection (2)(d) terminate when the jurisdiction of the youth court terminates pursuant to 41-5-205 unless those restrictions are terminated sooner by an order of the court. However, if a youth's case is transferred to district court pursuant to 41-5-203, 41-5-206, 41-5-208, or 41-5-1605, any remaining part of the restriction imposed pursuant to this subsection (2)(d) is transferred to the jurisdiction of the district court and the supervision of the offender is transferred to the department.
- (3) For a youth designated under this section and 46-23-509 as a level 3 offender, the youth court if the youth is under the youth court's jurisdiction or the department if the youth is under the department's jurisdiction shall notify in writing the superintendent of the school district in which the youth is enrolled of the adjudication, any terms of probation or parole, and the facts of the offense for which the youth was adjudicated, except the name of the victim, and provide a copy of the court's disposition order to the superintendent.
- (3)(4) The court may not order a local government entity to pay for care, treatment, intervention, or placement. A court may not order a local government entity to pay for evaluation and in-state transportation of a youth, except as provided in 52-5-109.

- (5)(6) The duration of registration for a youth who is required to register as a sexual or violent offender must be as provided in 46-23-506, except that the court may, based on specific findings of fact, order a lesser duration of registration."
  - Section 3. Effective date. [This act] is effective on passage and approval.
- **Section 4. Retroactive applicability.** [This act] applies retroactively, within the meaning of 1-2-109, to a delinquent youth, as defined in 41-5-103, adjudicated for the commission of a sexual offense, as defined in 46-23-502, before [the effective date of this act] but for whom no disposition has been ordered pursuant to 41-5-1513.

[HB 128]

AN ACT REVISING AND CLARIFYING THE APPROPRIATION OF BOND PROCEEDS FOR AEROSPACE TRANSPORTATION AND TECHNOLOGY PROJECTS; APPROPRIATING BOND PROCEEDS; AMENDING SECTION 17-5-820, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 17-5-820, MCA, is amended to read:

**"17-5-820.** Authorization of bonds. (1) The board of examiners is authorized to issue and sell general obligation bonds in an amount not exceeding \$20 million in accordance with the terms and in the manner required by Title 17, chapter 5, part 8, for the purpose of financing and acquiring infrastructure improvements as enumerated in 7-15-4288 for aerospace transportation and technology projects recommended by the department of commerce in accordance with the authority granted to the board by this section. The bonds are in addition to any other authorization to the board to issue and sell general obligation bonds and subject to the conditions set forth in this section.

(2) The department of commerce may request the board of examiners to issue the bonds for one or more specified projects in one or more series, but the total amount of bonds issued may not exceed \$20 million. Bond proceeds are must be appropriated to the department of commerce, and the department of commerce is authorized to acquire or construct the infrastructure improvements, to contract with the city or county in which a project is located, to contract with an airport authority, as defined in 67-1-101, a local port authority, as described in 7-14-1101, or a regional port authority, as described in 7-14-1102, to contract with a certified regional development corporation, as defined in 90-1-116, or upon a determination that it is in the best interest of the project, to contract with the developer of an approved project for the acquisition or construction of the infrastructure improvement. The plans and specifications for the infrastructure to be financed from the proceeds of the bonds must be prepared by an engineer or architect, licensed and bonded in Montana, and the state must be named as an additional insured under any contract, performance bond, or other documents for the design of any improvements to be financed by the state. The plans and specifications must be reviewed and approved by the department of commerce after consultation with the architecture and engineering division of the department of administration. The design and acquisition or construction of the infrastructure for approved projects are not, with the exception of Title 18, chapter 2, part 4, subject to the public procurement requirements contained in Title 18. All construction contracts entered into for the construction of improvements to be financed under this section must name the state as an additional insured if the state is not otherwise party to the contract. All improvements financed with bond proceeds must be owned by the state, and the use must be governed by a development agreement between the state and the developer of the project. The agreement may provide for the lease or the use of the infrastructure at less than fair market value, taking into consideration the number of jobs to be created by the project, the salary range of the jobs, the amount of capital contributed by the developer, and the projected tax revenue to be received by the state and local governments from the project over the term of the lease or use agreement. The agreement must require the contractor to insure for liability and workers' compensation claims during construction and must provide the project developer with the right of first refusal for the purchase of any real property and improvements financed by the bonds at fair market value. Fair market value must be determined by a certified appraiser. For purposes of this section, state and local governments may not provide telecommunications or other services in competition with private providers unless private providers cannot provide the services.

- (3) It is the intent of the legislature that state individual and corporate income taxes and state property taxes generated by the aerospace transportation and technology infrastructure development projects will be at least equal to the projected amount of the debt service to be paid by the state for the bonds authorized by this section over the term of the bonds. Prior to requesting the board of examiners to issue the bonds, the department of commerce shall determine that the developer of a proposed project has the financial ability to implement the project based upon the audited financial statements of the developer. When requesting the board to issue the bonds, the department of commerce shall present to the *legislative finance committee and to the* department of administration for presentation to the board the following:
- (a) evidence satisfactory to the board that each aerospace transportation and technology infrastructure development project has committed itself to locate its project in Montana; and
- (b) a certificate signed by the director of the office of budget and program planning that the proposed project will, over the term of the bonds, generate state individual and corporate income taxes and state property taxes at least equal to the total aggregate amount of principal and interest on the bonds over the term of the bonds. In preparing the analysis for the report on the projected tax revenue from the project, the multiplier effect may be taken into account, using the number of jobs, the salary levels for the jobs, and the estimated date of hire for each position that the developer will commit to create as part of the development agreement. The development agreement must provide that if the developer has not created the total number of jobs at the estimated salaries by the date specified in the development agreement and assumed for purposes of meeting the projections, the state may terminate the lease or use of the improvements upon 30 days' notice. If the department of commerce is unable to enter into a new lease or use agreement for the improvements that is advantageous to the state, the state may sell the facility to the highest and best bidder and use the proceeds of the sale to redeem the outstanding bonds.
- (4) In determining whether to recommend to the board of examiners that improvements should be constructed by the state from the proceeds of the bonds for a project, the department of commerce may take into consideration only the following factors:
  - (a) whether the project is eligible for financing;
- (b) whether there is sufficient evidence to demonstrate the developer's ability to implement the project;
  - (c) the projected tax revenue report;
- (d) whether the project as proposed and situated can obtain the necessary zoning, building, and environmental permits required; and
  - (e) whether the project is in the public interest.
- (5) In recommending the amount of bonds to be issued for a qualified project, the department of commerce shall independently determine that the proposed estimated cost of the project is not in excess of what is required for the project and independently verify the projected costs of designing and constructing the

improvements proposed to be financed exclusive of any development fee to the developer. The authorized bond proceeds must be used for projects on a first-come, first-served basis."

**Section 2. Appropriation of bond proceeds.** There is appropriated to the department of commerce up to \$20 million of the bond proceeds authorized by 17-5-820 for the purpose of funding qualified projects as provided in 17-5-820.

**Section 3.** Effective date. [This act] is effective on passage and approval.

for which a federal tax credit was elected under sections 38 and 51(a) of the Internal Revenue Code, 26 U.S.C. 38 and 51(a), is allowed to deduct the amount of the wages and salaries paid regardless of the credit taken. The deduction must be made in the year that the wages and salaries were used to compute the credit. In the case of a partnership or small business corporation, the deduction must be made to determine the amount of income or loss of the partnership or small business corporation.

- (5) Married taxpayers filing a joint federal return who are required to include part of their social security benefits or part of their tier 1 railroad retirement benefits in federal adjusted gross income may split the federal base used in calculation of federal taxable social security benefits or federal taxable tier 1 railroad retirement benefits when they file separate Montana income tax returns. The federal base must be split equally on the Montana return.
- (6) Married taxpayers filing a joint federal return who are allowed a capital loss deduction under section 1211 of the Internal Revenue Code, 26 U.S.C. 1211, and who file separate Montana income tax returns may claim the same amount of the capital loss deduction that is allowed on the federal return. If the allowable capital loss is clearly attributable to one spouse, the loss must be shown on that spouse's return; otherwise, the loss must be split equally on each return.
- (7) In the case of passive and rental income losses, married taxpayers filing a joint federal return and who file separate Montana income tax returns are not required to recompute allowable passive losses according to the federal passive activity rules for married taxpayers filing separately under section 469 of the Internal Revenue Code, 26 U.S.C. 469. - (8) Married taxpayers filing a joint federal return in which one or both of the taxpayers are allowed a deduction for an individual retirement contribution under section 219 of the Internal Revenue Code, 26 U.S.C. 219, and who file separate Montana income tax returns may claim the same amount of the deduction that is allowed on the federal return. The deduction must be attributed to the spouse who made the contribution.

The deduction may be split equally on each return or in proportion to each taxpayer's share of federal adjusted gross income.
- (b) Married taxpayers filing a joint federal return who are allowed a deduction for qualified tuition and related expenses under section 222 of the Internal Revenue Code, 26 U.S.C. 222, and who file separate Montana income tax returns may claim the same amount of the deduction that is allowed on the federal return. If the adjusted gross income before this exclusion exceeds \$15,000, the excess reduces the exclusion by an

equal amount. This limitation affects the amount of exclusion, but not the taxpayer's eligibility for the exclusion. If eligible, married individuals shall apply the exclusion separately, but the limitation for income exceeding \$15,000 is determined with respect to the spouses on their combined adjusted gross income. For the purpose of this subsection, "permanently and totally disabled" means unable to engage in any substantial gainful activity by reason of any medically determined physical or mental impairment lasting or expected to last at least 12 months.

- (11) An individual who contributes to one or more accounts established under the Montana family education savings program may reduce adjusted gross income by the lesser of \$3,000 or the amount of the contribution. In the case of married taxpayers, each spouse is entitled to a reduction, not in excess of \$3,000, for the spouses' contributions to the accounts. Spouses may jointly elect to treat half of the total contributions made by the spouses as being made by each spouse. The reduction in adjusted gross income under this subsection applies only with respect to contributions to an account of which the account owner, as defined in 15-62-103, is the taxpayer, the taxpayer's spouse, or the taxpayer's child or stepchild if the taxpayer's child or stepchild is a Montana resident. The provisions of subsection (1)(e) do not apply with respect to withdrawals of contributions that reduced adjusted gross income.
- (12) (a) A taxpayer may exclude the amount of the loan payment received pursuant to subsection (12)(a)(iv), not to exceed \$5,000, from the taxpayer's adjusted gross income if the taxpayer:
  - (i) is a health care professional licensed in Montana as provided in Title 37;
- (ii) is serving a significant portion of a designated geographic area, special population, or facility population in a federally designated health professional shortage area, a medically underserved area or population, or a federal nursing shortage county as determined by the secretary of health and human services or by the governor;

- (iv) has received a loan payment during the tax year made on the taxpayer's behalf by a loan repayment program described in subsection (12)(b) as an incentive to practice in Montana.
- (b) For the purposes of subsection (12)(a), a loan repayment program includes a federal, state, or qualified private program. A qualified private loan repayment program includes a licensed health care facility, as defined in 50-5-101, that makes student loan payments on behalf of the person who is employed by the facility as a licensed health care professional.
- (13) By November 1 of each year, the department shall multiply the amount of pension and annuity income contained in subsection (2)(c)(i) and the federal adjusted gross income amounts in subsection (2)(c)(ii) by the inflation factor for that tax year, but using the year 2009 consumer price index, and rounding the results to the nearest \$10. The resulting amounts are effective for that tax year and must be used as the basis for the exemption determined under subsection (2)(c). (Subsection (2)(f) terminates on occurrence of contingency—sec. 3, Ch. 634, L. 1983; subsection (2)(o) terminates on occurrence of contingency—sec. 9, Ch. 262, L. 2001.)"

WHEREAS, Montana has unique geological features that include significant geothermal resources; and

WHEREAS, other states in the region are actively exploring and developing these resources for energy production purposes; and

WHEREAS, existing data and analyses of these resources is now largely outdated, and advances in technology, increased energy prices, and increased interest in low-carbon energy sources has increased interest by electric utilities and independent power producers in the state's geothermal resources.

**Section 1. Geothermal research.** (1) Subject to subsection (2), the Montana bureau of mines and geology may conduct geothermal research that:

- (a) characterizes the geothermal resource base in Montana;
- (b) tests high-temperature and high-pressure drilling technologies benefiting geothermal well construction; and

- (c) determines reservoir characterization, monitoring, and modeling necessary for commercial application in Montana.
- (2) If the research is conducted on private property, the bureau must have written agreements with:
- (a) the surface property owner and any owners of the geothermal resource for access and use of the site for research purposes; and

- (b) have an agreement in place with the surface property owner and any owners of the geothermal resource where the research site is located for future development of the geothermal resource.
- (4) If the utility with a service area nearest the research site does not intend to develop the site for commercial use, the utility with a service area next nearest the site may enter into a written agreement pursuant to subsection (2)(b). If a utility does not intend to develop the site for future commercial use, the agreement pursuant to subsection (2)(b) is not required.
- (5) In determining the utility with a service area nearest the site, all measurements must be made on the shortest vector that can be drawn from the line nearest the service area to the nearest portion of the geothermal site.
- (6) Prior to September 1 of each even-numbered year, the bureau shall update the energy and telecommunications interim committee on research conducted pursuant to this section and funding received pursuant to [section 2].

WHEREAS, consumer demand for Montana-based, sustainably grown, nutritious, and affordable food in Montana exceeds supply; and

WHEREAS, farm-derived renewable energy and biofuels hold promise to increase the profitability of family farm and ranch operations, promote domestic energy production, and lessen our dependence on foreign sources of energy; and

WHEREAS, previous investment and capacity built in the state for supporting value-added agricultural development needs to be maintained; and

WHEREAS, increasing technical assistance to Montana's food and agricultural entrepreneurs can help keep more of the state's food, agricultural, and energy dollars circulating in Montana communities.

- (4) A taxpayer who, in determining federal adjusted gross income, has reduced the taxpayer's business deductions by an amount for wages and salaries for which a federal tax credit was elected under sections 38 and 51(a) of the Internal Revenue Code, 26 U.S.C. 38 and 51(a), is allowed to deduct the amount of the wages and salaries paid regardless of the credit taken. The deduction must be made in the year that the wages and salaries were used to compute the credit. In the case of a partnership or small business corporation, the deduction must be made to determine the amount of income or loss of the partnership or small business corporation.

- (5) Married taxpayers filing a joint federal return who are required to include part of their social security benefits or part of their tier 1 railroad retirement benefits in federal adjusted gross income may split the federal base used in calculation of federal taxable social security benefits or federal taxable tier 1 railroad retirement benefits when they file separate Montana income tax returns. The federal base must be split equally on the Montana return.
- (6) Married taxpayers filing a joint federal return who are allowed a capital loss deduction under section 1211 of the Internal Revenue Code, 26 U.S.C. 1211, and who file separate Montana income tax returns may claim the same amount of the capital loss deduction that is allowed on the federal return. If the allowable capital loss is clearly attributable to one spouse, the loss must be shown on that spouse's return; otherwise, the loss must be split equally on each return.
- (7) In the case of passive and rental income losses, married taxpayers filing a joint federal return and who file separate Montana income tax returns are not required to recompute allowable passive losses according to the federal passive activity rules for married taxpayers filing separately under section 469 of the Internal Revenue Code, 26 U.S.C. 469. If the allowable passive loss is clearly attributable to one spouse, the loss must be shown on that spouse's return; otherwise, the loss must be split equally on each return.
- (8) Married taxpayers filing a joint federal return in which one or both of the taxpayers are allowed a deduction for an individual retirement contribution under section 219 of the Internal Revenue Code, 26 U.S.C. 219, and who file separate Montana income tax returns may claim the same amount of the deduction that is allowed on the federal return. The deduction must be attributed to the spouse who made the contribution.
- (9) (a) Married taxpayers filing a joint federal return who are allowed a deduction for interest paid for a qualified education loan under section 221 of the Internal Revenue Code, 26 U.S.C. 221, and who file separate Montana income tax returns may claim the same amount of the deduction that is allowed on the federal return. The deduction may be split equally on each return or in proportion to each taxpayer's share of federal adjusted gross income.
- (b) Married taxpayers filing a joint federal return who are allowed a deduction for qualified tuition and related expenses under section 222 of the Internal Revenue Code, 26 U.S.C. 222, and who file separate Montana income tax returns may claim the same amount of the deduction that is allowed on the federal return. The deduction may be split equally on each return or in proportion to each taxpayer's share of federal adjusted gross income.
- (10) A taxpayer receiving retirement disability benefits who has not attained 65 years of age by the end of the tax year and who has retired as permanently and totally disabled may exclude from adjusted gross income up to \$100 a week received as wages or payments in lieu of wages for a period during which the employee is absent from work due to the disability. If the adjusted gross income before this exclusion exceeds \$15,000, the excess reduces the exclusion by an equal amount. This limitation affects the amount of exclusion, but not the taxpayer's eligibility for the exclusion. If eligible, married individuals shall apply the exclusion separately, but the limitation for income exceeding \$15,000 is determined with respect to the spouses on their combined adjusted gross income. For the purpose of this subsection, "permanently and totally disabled" means unable to engage in any substantial gainful activity by reason of any medically determined physical or mental impairment lasting or expected to last at least 12 months.

- (11) An individual who contributes to one or more accounts established under the Montana family education savings program may reduce adjusted gross income by the lesser of \$3,000 or the amount of the contribution. In the case of married taxpayers, each spouse is entitled to a reduction, not in excess of \$3,000, for the spouses' contributions to the accounts. Spouses may jointly elect to treat half of the total contributions made by the spouses as being made by each spouse. The reduction in adjusted gross income under this subsection applies only with respect to contributions to an account of which the account owner, as defined in 15-62-103, is the taxpayer, the taxpayer's spouse, or the taxpayer's child or stepchild if the taxpayer's child or stepchild is a Montana resident. The provisions of subsection (1)(e) do not apply with respect to withdrawals of contributions that reduced adjusted gross income.
- (12) (a) A taxpayer may exclude the amount of the loan payment received pursuant to subsection (12)(a)(iv), not to exceed \$5,000, from the taxpayer's adjusted gross income if the taxpayer:
  - (i) is a health care professional licensed in Montana as provided in Title 37;
- (ii) is serving a significant portion of a designated geographic area, special population, or facility population in a federally designated health professional shortage area, a medically underserved area or population, or a federal nursing shortage county as determined by the secretary of health and human services or by the governor;
- (iii) has had a student loan incurred as a result of health-related education; and  $\,$
- (iv) has received a loan payment during the tax year made on the taxpayer's behalf by a loan repayment program described in subsection (12)(b) as an incentive to practice in Montana.
- (b) For the purposes of subsection (12)(a), a loan repayment program includes a federal, state, or qualified private program. A qualified private loan repayment program includes a licensed health care facility, as defined in 50-5-101, that makes student loan payments on behalf of the person who is employed by the facility as a licensed health care professional. (Subsection (2)(f) terminates on occurrence of contingency—sec. 3, Ch. 634, L. 1983; subsection (2)(o) terminates on occurrence of contingency—sec. 9, Ch. 262, L. 2001.)"
- **Section 3. Codification instruction.** [Section 1] is intended to be codified as an integral part of Title 15, chapter 31, part 1, and the provisions of Title 15, chapter 31, part 1, apply to [section 1].
  - **Section 4.** Effective date. [This act] is effective on passage and approval.
- Section 5. Retroactive applicability. [This act] applies retroactively, within the meaning of 1-2-109, to tax years beginning after December 31, 2008.

AN ACT REVISING THE ADMINISTRATION OF AGENCY LIQUOR STORES; INCREASING THE VOLUME SALES AMOUNT FOR DETERMINING AGENCY LIQUOR SALES COMMISSIONS TO ACCOUNT FOR INFLATION; PROVIDING FOR FUTURE INCREASES IN THE COMMISSION AMOUNT TO BE DETERMINED BY A LIQUOR-SPECIFIC INFLATIONARY ADJUSTMENT TO BE DETERMINED BY THE DEPARTMENT OF REVENUE; AND AMENDING SECTION 16-2-101, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 16-2-101, MCA, is amended to read:

- "16-2-101. Establishment and closure of agency liquor stores agency franchise agreement kinds and prices of liquor. (1) The department shall enter into agency franchise agreements to operate agency liquor stores as the department finds feasible for the wholesale and retail sale of liquor.
- (2) (a) The department may from time to time fix the posted prices at which the various classes, varieties, and brands of liquor may be sold, and the posted prices must be the same at all agency liquor stores.
- (b) (i) The department shall supply from the state liquor warehouse to agency liquor stores the various classes, varieties, and brands of liquor for resale at the state posted price to persons who hold liquor licenses and to all other persons at the retail price established by the agent.
- (ii) (A) According to the ordering and delivery schedule set by the department, an agency liquor store may place a liquor order with the department at its state liquor warehouse in the manner to be established by the department.
- (B) The agency liquor store's purchase price is the department's posted price less the agency liquor store's commission rate and less the agency liquor store's weighted average discount ratio. For purposes of this subsection (2)(b)(ii)(B), for agency liquor stores or employee-operated state liquor stores that were operating on June 30, 1994, the weighted average discount ratio is the ratio between an agency liquor store's or the employee-operated state liquor store's full case discount sales divided by the agency liquor store's or employee-operated state liquor store's gross sales, based on fiscal year 1994 reported sales, times the state discount rate for case lot sales, as provided in 16-2-201, divided by the state discount rate for full case lot sales in effect on June 30, 1994. For all other stores that are placed in service after June 30, 1994, the weighted average discount ratio is the average ratio in fiscal year 1994 for similar sized stores for 1 year of operation. The weighted average discount ratio must be computed on the store's first 12 months of operation.
- (C) All liquor purchased from the state liquor warehouse by an agency liquor store must be paid for within 60 days of the date on which the department invoices the liquor to the agency liquor store.

- (c) An agency liquor store may sell table wine at retail for off-premises consumption.
- (3) Agency liquor stores may not be located in or adjacent to grocery stores in communities with populations over 3,000.
  - (4) (a) Agency liquor stores must receive commissions payable as follows:
- (a)(i) (i)(A) a 10% commission for agencies in communities with less than 3,000 in population, unless adjusted pursuant to subsection (6); or
- (ii)(B) a commission established by competitive bidding unless adjusted pursuant to subsection (6) for agencies in communities with 3,000 or more in population; plus
- (b)(ii) for agency liquor stores operating under a renewed franchise agreement or that have been operated for at least 3 years under an original franchise agreement, a percentage based upon the total annual dollar volume of sales in the previous fiscal year, as follows:
- (i)(A) for agency liquor stores with a volume of sales of \$500,000 \$560,000 or more, 0.875% beginning July 1, 2004 2009;
- (ii)(B) for agency liquor stores with a volume of sales of less than \$500,000 \$560,000, 1.5% beginning July 1, 2004 2009; or
- (iii)(C) for a city with more than one agency liquor store, in lieu of the addition to a commission increase provided in subsection (4)(b)(i)(4)(a)(ii)(A) or (4)(b)(ii)(4)(a)(ii)(B), for each agency liquor store in the city, an addition to its commission rate equal to the increase granted the agency liquor store with the lowest commission rate.
- (b) The department shall by April 1 of each year determine the dollar values of sales volumes in subsections (4)(a)(ii)(A) and (4)(a)(ii)(B) by using an inflation factor based on the change in the cost of liquor to agency liquor stores during the prior calendar year. The department shall establish the method of determining the inflation factor by rule using a liquor-specific base such as the annual change in the cost per case of the 25 items with the highest sales volume for a calendar year or another appropriate method of measuring the change in liquor prices.
  - (5) An agency franchise agreement must:
- (a) be effective for a 10-year period and must be renewed at the existing commission rate for additional 10-year periods if the requirements of the agency franchise agreement have been satisfactorily performed;
- (b) require the agent to maintain comprehensive general liability insurance and liquor liability insurance throughout the term of the agency franchise agreement in an amount established by the department of administration. The insurance policy must:
  - (i) declare the department as an additional insured; and
- (ii) hold the state harmless and agree to defend and indemnify the state in a cause of action arising from or in connection with the agent's negligent acts or activities in the execution and performance of the agency franchise agreement.
- (c) provide that upon termination by the department for cause or upon mutual termination, the agent is liable for any outstanding liquor purchase invoices. If payment is not made within the appropriate time, the department may immediately repossess all liquor inventory, wherever located.
- (d) specify the reasonable service and space requirements that the agent will provide throughout the term of the agency franchise agreement.

- (6) (a) The commission percentage that the department pays the agent under subsection (4)(a) may be reviewed every 3 years at the request of either party. If the agent concurs, the department may adjust the commission percentage to be paid during the remaining term of the agency franchise agreement or until the next time the commission percentage is reviewed, if that is sooner than the term of the agency franchise agreement, to a commission percentage that is equal to the average commission percentage being paid agents with similar sales volumes if:
  - (i) the agent's commission percentage is less than the average; and
- (ii) all the requirements of the agency franchise agreement have been satisfactorily performed.
- (b) The adjusted commission percentage determined under subsection (6)(a) may be greater than the average commission paid agents with similar sales volume:
  - (i) if the agent demonstrates that:
- (A) the agent has experienced cost increases that are beyond the agent's control, including but not limited to increases in the federally established minimum wage or escalation in prevailing rent; and
- (B) the average commission percentage is insufficient to yield net income commensurate with net income experienced before the cost increases occurred; and
- (ii) if the department demonstrates that it is unable to indicate adjustments in the requirements specified in the agent's franchise agreement that will eliminate the impact of cost increases.
- (7) The liability insurance requirement may be reviewed every 3 years at the request of either the agent or the department. If the agent concurs, the department may adjust the requirements to be effective during the remaining term of the agency franchise agreement if the adjustments adequately protect the state from risks associated with the agent's negligent acts or activities in the execution and performance of the agency franchise agreement. The amount of liability insurance coverage may not be less than the minimum requirements of the department of administration.
- (8) (a) The department may terminate an agency franchise agreement if the agent has not satisfactorily performed the requirements of the agency franchise agreement because the agent:
- (i) charges retail prices that are less than the department's posted price for liquor, sells liquor to persons who hold liquor licenses at less than the posted price, or sells liquor at case discounts greater than the discount provided for in 16-2-201 to persons who hold liquor licenses;
  - (ii) fails to maintain sufficient liability insurance;
- (iii) has not maintained a quantity and variety of product available for sale commensurate with demand, delivery cycle, repayment schedule, mixed case shipments from the department, and the ability to purchase special orders;
- (iv) at an agency liquor store located 35 miles or more from the nearest agency liquor store, has operated the agency liquor store in a manner that makes the premises unsanitary or inaccessible for the purpose of making purchases of liquor; or
  - (v) fails to comply with the express terms of the agency franchise agreement.

- (b) The department shall give an agent 30 days' notice of its intent to terminate the agency franchise agreement for cause and specify the unmet requirements. The agent may contest the termination and request a hearing within 30 days of the date of notice. If a hearing is requested, the department shall suspend its termination order until after a final decision has been made pursuant to the Montana Administrative Procedure Act.
- (c) In the case of failure to make timely payments to the department for liquor purchased, the department may terminate the agency franchise agreement and immediately repossess any liquor purchased and in the possession of the agent. If an agency franchise agreement is terminated, the agent may contest the termination and request a hearing within 30 days of the department's repossession of the liquor. The agency liquor store shall remain closed until a final decision has been reached following a hearing held pursuant to the Montana Administrative Procedure Act.
- (9) An agency franchise agreement may be terminated upon mutual agreement by the agent and the department.
- (10) An agent may assign an agency franchise agreement to a person who, upon approval of the department, is named agent in the agency franchise agreement, with the rights, privileges, and responsibilities of the original agent for the remaining term of the agency franchise agreement. The agent shall notify the department of an intent to assign the agency franchise agreement 60 days before the intended effective date of the assignment. The department may not unreasonably withhold approval of an assignment request.
- (11) A person or entity may not hold an ownership interest in more than one agency liquor store.
- (12) The department shall maintain sufficient inventory in the state warehouse in order to meet a monthly service level of at least 97%."

The bonds are in addition to any other authorization to the board to issue and sell general obligation bonds and subject to the conditions set forth in this section
- (2) The department of commerce may request the board of examiners to issue the bonds for one or more specified projects in one or more series, but the total amount of bonds issued may not exceed \$20 million. Bond proceeds are appropriated to the department of commerce, and the department of commerce is authorized to acquire or construct the infrastructure improvements, to contract with the incorporated city or town, county, or city-county consolidated local government in which a project is located, to contract with an airport authority, as defined in 67-1-101, a local port authority, as described in 7-14-1101, or a regional port authority, as described in 7-14-1102, to contract with a certified regional development corporation, as defined in 90-1-116, or, upon a determination that it is in the best interest of the project, to contract with the developer of an approved project for the acquisition or construction of the infrastructure improvement. The plans and specifications must be reviewed and approved by the department of commerce after consultation with the architecture and engineering division of the department of administration. The design and acquisition or construction of the infrastructure for approved projects are not, with the exception of Title 18, chapter 2, part 4, subject to the public procurement requirements contained in Title 18. All construction contracts entered into for the construction of improvements to be financed under this section must name the state as an additional insured if the state is not otherwise party to the contract. All improvements financed with bond proceeds must be owned by the state, and the use must be governed by a development agreement between the state and the

developer of the project. The agreement may provide for the lease or the use of the infrastructure at less than fair market value, taking into consideration the number of jobs to be created by the project, the salary range of the jobs, the amount of capital contributed by the developer, and the projected tax revenue to be received by the state and local governments from the project over the term of the lease or use agreement. The agreement must require the contractor to insure for liability and workers' compensation claims during construction and must provide the project developer with the right of first refusal for the purchase of any real property and improvements financed by the bonds at fair market value. Fair market value must be determined by a certified appraiser. For purposes of this section, state and local governments may not provide telecommunications or other services in competition with private providers unless private providers cannot provide the services.

- (3) It is the intent of the legislature that state individual and corporate income taxes and state property taxes generated by the aerospace transportation and technology infrastructure development projects will be at least equal to the projected amount of the debt service to be paid by the state for the bonds authorized by this section over the term of the bonds. Prior to requesting the board of examiners to issue the bonds, the department of commerce shall determine that the developer of a proposed project has the financial ability to implement the project based upon the audited financial statements of the developer. When requesting the board to issue the bonds, the department of commerce shall present to the department of administration for presentation to the board the following:
- (a) evidence satisfactory to the board that *the developer of* each aerospace transportation and technology infrastructure development project has committed itself to locate its project in Montana; and
- (b) a certificate signed by the director of the office of budget and program planning that the proposed project will, over the term of the bonds, generate state individual and corporate income taxes and state property taxes at least equal to the total aggregate amount of principal and interest on the bonds over the term of the bonds. In preparing the analysis for the report on the projected tax revenue from the project, the multiplier effect may be taken into account, using the number of jobs, the salary levels for the jobs, and the estimated date of hire for each position that the developer will commit to create as part of the development agreement. The development agreement must provide that if the developer has not created the total number of jobs at the estimated salaries by the date specified in the development agreement and assumed for purposes of meeting the projections, the state may terminate the lease or use of the improvements upon 30 days' notice. If the department of commerce is unable to enter into a new lease or use agreement for the improvements that is advantageous to the state, the state may sell the facility to the highest and best bidder and use the proceeds of the sale to redeem the outstanding bonds.
- (4) In determining whether to recommend to the board of examiners that improvements should be constructed by the state from the proceeds of the bonds for a project, the department of commerce may take into consideration only the following factors:
  - (a) whether the project is eligible for financing;
- (b) whether there is sufficient evidence to demonstrate the developer's ability to implement the project;
  - (c) the projected tax revenue report;

- (d) whether the project as proposed and situated can obtain the necessary zoning, building, and environmental permits required; and
  - (e) whether the project is in the public interest.
- (5) In recommending the amount of bonds to be issued for a qualified project, the department of commerce shall independently determine that the proposed estimated cost of the project is not in excess of what is required for the project and independently verify the projected costs of designing and constructing the improvements proposed to be financed exclusive of any development fee to the developer. The authorized bond proceeds must be used for projects on a first-come, first-served basis."

WHEREAS, the Montana Subdivision and Platting Act (the Act) is designed to balance the rights of landowners with public health, safety, and general welfare; and

WHEREAS, if the Act is not clear and predictable, neither landowners nor the public health, safety, and general welfare can be effectively protected; and

WHEREAS, land use regulations should be designed to permit and promote economic growth in the state; and

WHEREAS, certain provisions of the Act have proven over time to be unclear and to promote unpredictability in the process; and

WHEREAS, it is believed that these modifications will promote clarity, efficiency, predictability, and increased public participation in the process.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 76-3-510, MCA, is amended to read:

"76-3-510. Payment for extension of capital facilities. (1) A local government may require a subdivider to pay or guarantee payment for part or all of the costs of extending capital facilities related to public health and safety,

The costs must reasonably reflect the expected impacts directly attributable to the subdivision. A local government may not require a subdivider to pay or guarantee payment for part or all of the costs of constructing or extending capital facilities related to education.

(2) All fees, costs, or other money paid by a subdivider under this section must be expended on the capital facilities for which the payments were required."

(1) (a) Within 5 working days of receipt of a subdivision application submitted in accordance with any deadlines established pursuant to 76-3-504(3) and receipt of the review fee submitted as provided in 76-3-602, the reviewing agent or agency shall determine whether the application contains all of the listed materials as required by 76-3-504(1)(a) and shall notify the subdivider or, with the subdivider's written permission, the subdivider's agent of the reviewing agent's or agency's determination.
- (b) If the reviewing agent or agency determines that elements are missing from the application, the reviewing agent or agency shall identify those elements in the notification.
- (2) (a) Within 15 working days after the reviewing agent or agency notifies the subdivider or the subdivider's agent that the application contains all of the required elements as provided in subsection (1), the reviewing agent or agency shall determine whether the application and required elements contain detailed, supporting information that is sufficient to allow for the review of the proposed subdivision under the provisions of this chapter and the local regulations adopted pursuant to this chapter and shall notify the subdivider or, with the subdivider's written permission, the subdivider's agent of the reviewing agent's or agency's determination.
- (b) If the reviewing agent or agency determines that information in the application is not sufficient to allow for review of the proposed subdivision, the reviewing agent or agency shall identify the insufficient information in its notification.
- (c) A determination that an application contains sufficient information for review as provided in this subsection (2) does not ensure that the proposed subdivision will be approved or conditionally approved by the governing body and does not limit the ability of the reviewing agent or agency or the governing body to request additional information during the review process.
- (3) The time limits provided in subsections (1) and (2) apply to each submittal of the application until:
- (a) a determination is made that the application contains the required elements and sufficient information; and
  - (b) the subdivider or the subdivider's agent is notified.
- (4) After the reviewing agent or agency has notified the subdivider or the subdivider's agent that an application contains sufficient information as provided in subsection (2), the governing body shall approve, conditionally approve, or deny the proposed subdivision within 60 working days or 80 working days if the proposed subdivision contains 50 or more lots, based on its determination of whether the application conforms to the provisions of this chapter and to the local regulations adopted pursuant to this chapter, unless:

- (a) the subdivider and the reviewing agent or agency agree to an extension or suspension of the review period, not to exceed 1 year; or
- (b) a subsequent public hearing is scheduled and held as provided in 76-3-615.
- (5) (a) If the governing body fails to comply with the time limits under subsection (4), the governing body shall pay to the subdivider a financial penalty of \$50 per lot per month or a pro rata portion of a month, not to exceed the total amount of the subdivision review fee collected by the governing body for the subdivision application, until the governing body denies, approves, or conditionally approves the subdivision.
- (b) The provisions of subsection (5)(a) do not apply if the review period is extended or suspended pursuant to subsection (4).
- (5)(6) If the governing body denies or conditionally approves the proposed subdivision, it shall send the subdivider a letter, with the appropriate signature, that complies with the provisions of 76-3-620.
- (6)(7) (a) The governing body shall collect public comment submitted at a hearing or hearings regarding the information presented pursuant to 76-3-622 and shall make any comments submitted or a summary of the comments submitted available to the subdivider within 30 days after conditional approval or approval of the subdivision application and preliminary plat.
- (b) The subdivider shall, as part of the subdivider's application for sanitation approval, forward the comments or the summary provided by the governing body to the:
- (i) reviewing authority provided for in Title 76, chapter 4, for subdivisions that will create one or more parcels containing less than 20 acres; and
- (ii) local health department or board of health for proposed subdivisions that will create one or more parcels containing 20 acres or more and less than 160 acres
- (7)(8) (a) For a proposed subdivision that will create one or more parcels containing less than 20 acres, the governing body may require approval by the department of environmental quality as a condition of approval of the final plat.
- (b) For a proposed subdivision that will create one or more parcels containing 20 acres or more, the governing body may condition approval of the final plat upon the subdivider demonstrating, pursuant to 76-3-622, that there is an adequate water source and at least one area for a septic system and a replacement drainfield for each lot.
- (8)(9) (a) Review and approval, conditional approval, or denial of a proposed subdivision under this chapter may occur only under those regulations in effect at the time a subdivision application is determined to contain sufficient information for review as provided in subsection (2).
- (b) If regulations change during the review periods provided in subsections (1) and (2), the determination of whether the application contains the required elements and sufficient information must be based on the new regulations."

**Section 3.** Section 76-4-125, MCA, is amended to read:

**"76-4-125. Review of subdivision application** — **land divisions excluded from review.** (1) Except as provided in subsection (2), an application for review of a subdivision must be submitted to the reviewing authority. The review by the reviewing authority must be as follows:

- (a) At any time after the developer has submitted an application under the Montana Subdivision and Platting Act, the developer shall present a subdivision application to the reviewing authority. The application must include preliminary plans and specifications for the proposed development, whatever information the developer feels necessary for its subsequent review, any public comments or summaries of public comments collected as provided in 76-3-604(6)(7), and information required by the reviewing authority. Subdivision fees assessed by the reviewing authority must accompany the application. If the proposed development includes onsite sewage disposal facilities, the developer shall notify the designated agent of the local board of health prior to presenting the subdivision application to the reviewing authority. The agent may conduct a preliminary site assessment to determine whether the site meets applicable state and local requirements.
- (b) Except as provided in 75-1-205(4) and 75-1-208(4)(b), the department shall make a final decision on the proposed subdivision within 60 days after the submission of a complete application and payment of fees to the reviewing authority unless an environmental impact statement is required, at which time this deadline may be increased to 120 days. The reviewing authority may not request additional information for the purpose of extending the time allowed for a review and final decision on the proposed subdivision. If the department approves the subdivision, the department shall issue a certificate of subdivision approval indicating that it has approved the plans and specifications and that the subdivision is not subject to a sanitary restriction.
- (2) A subdivision excluded from the provisions of chapter 3 must be submitted for review according to the provisions of this part, except that the following divisions or parcels, unless the exclusions are used to evade the provisions of this part, are not subject to review:
  - (a) the exclusions cited in 76-3-201 and 76-3-204;
- (b) divisions made for the purpose of acquiring additional land to become part of an approved parcel, provided that water or sewage disposal facilities may not be constructed on the additional acquired parcel and that the division does not fall within a previously platted or approved subdivision;
- (c) divisions made for purposes other than the construction of water supply or sewage and solid waste disposal facilities as the department specifies by rule;
- (d) divisions located within jurisdictional areas that have adopted growth policies pursuant to chapter 1 or within first-class or second-class municipalities for which the governing body certifies, pursuant to 76-4-127, that adequate storm water drainage and adequate municipal facilities will be provided; and
- (e) subject to the provisions of subsection (3), a remainder of an original tract created by segregating a parcel from the tract for purposes of transfer if:

- (ii) the remainder is 1 acre or larger and has an individual sewage system serving a discharge source that was in existence prior to April 29, 1993, and, if required when installed, the system was approved pursuant to local regulations or this chapter.
- (3) Consistent with the applicable provisions of 50-2-116, a local health officer may require that, prior to the filing of a plat or a certificate of survey subject to review under this part for the parcel to be segregated from the

remainder referenced in subsection (2)(e)(ii), the remainder include acreage or features sufficient to accommodate a replacement drainfield."

**Section 4.** Effective date. [This act] is effective on passage and approval.

## **CHAPTER NO. 406**

[SB 310]

AN ACT PROHIBITING A WAIVER OF RIGHT TO PROTEST AS A CONDITION OF SUBDIVISION APPROVAL; AND AMENDING SECTION 76-3-608, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 76-3-608, MCA, is amended to read:

- **"76-3-608.** Criteria for local government review. (1) The basis for the governing body's decision to approve, conditionally approve, or deny a proposed subdivision is whether the subdivision application, preliminary plat, applicable environmental assessment, public hearing, planning board recommendations, or additional information demonstrates that development of the proposed subdivision meets the requirements of this chapter. A governing body may not deny approval of a proposed subdivision based solely on the subdivision's impacts on educational services.
- (2) The governing body shall issue written findings of fact that weigh the criteria in subsection (3), as applicable.
- (3) A subdivision proposal must undergo review for the following primary criteria:
- (a) except when the governing body has established an exemption pursuant to subsection (6) of this section or except as provided in 76-3-509, 76-3-609(2) or (4), or 76-3-616, the impact on agriculture, agricultural water user facilities, local services, the natural environment, wildlife and wildlife habitat, and public health and safety;
  - (b) compliance with:
  - (i) the survey requirements provided for in part 4 of this chapter;
- (ii) the local subdivision regulations provided for in part  ${\bf 5}$  of this chapter; and
  - (iii) the local subdivision review procedure provided for in this part;
- (c) the provision of easements for the location and installation of any planned utilities; and
- (d) the provision of legal and physical access to each parcel within the proposed subdivision and the required notation of that access on the applicable plat and any instrument of transfer concerning the parcel.
- (4) The governing body may require the subdivider to design the proposed subdivision to reasonably minimize potentially significant adverse impacts identified through the review required under subsection (3). The governing body shall issue written findings to justify the reasonable mitigation required under this subsection (4).
- (5) (a) In reviewing a proposed subdivision under subsection (3) and when requiring mitigation under subsection (4), a governing body may not

unreasonably restrict a landowner's ability to develop land, but it is recognized that in some instances the unmitigated impacts of a proposed development may be unacceptable and will preclude approval of the subdivision.

- (b) When requiring mitigation under subsection (4), a governing body shall consult with the subdivider and shall give due weight and consideration to the expressed preference of the subdivider.
- (6) The governing body may exempt proposed subdivisions that are entirely within the boundaries of designated geographic areas from the review criteria in subsection (3)(a) if all of the following requirements have been met:
- (a) the governing body has adopted a growth policy pursuant to chapter 1 that:
  - (i) addresses the criteria in subsection (3)(a);
  - (ii) evaluates the impact of development on the criteria in subsection (3)(a);
- (iii) describes zoning regulations that will be implemented to address the criteria in subsection (3)(a); and
- (iv) identifies one or more geographic areas where the governing body intends to authorize an exemption from review of the criteria in subsection (3)(a); and
- (b) the governing body has adopted zoning regulations pursuant to chapter 2, part 2 or 3, that:
  - (i) apply to the entire area subject to the exemption; and
  - (ii) address the criteria in subsection (3)(a), as described in the growth policy.
- (7) A governing body may conditionally approve or deny a proposed subdivision as a result of the water and sanitation information provided pursuant to 76-3-622 or public comment received pursuant to 76-3-604 on the information provided pursuant to 76-3-622 only if the conditional approval or denial is based on existing subdivision, zoning, or other regulations that the governing body has the authority to enforce.
- (8) A governing body may not require as a condition of subdivision approval that a property owner waive a right to protest the creation of a special improvement district or a rural improvement district for capital improvement projects that does not identify the specific capital improvements for which protest is being waived. A waiver of a right to protest may not be valid for a time period longer than 20 years after the date that the final subdivision plat is filed with the county clerk and recorder."

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 7-22-2123, MCA, is amended to read:

- **"7-22-2123. Procedure in case of noncompliance.** (1) When a complaint has been made or the board has reason to believe that noxious weeds described in this part are present upon a person's land within the district in violation of the law, that person must be notified by mail or telephone of the complaint and the board may request inspection of the land. The board or its authorized agent and the landowner or the landowner's representative shall inspect the land at an agreeable time, within 10 days of notification of the landowner. If within 10 days after reasonable effort notification the board is unable to gain cooperation of the person, the board or its authorized agent may enter and inspect the land to determine if the complaint is valid.
- (2) If noxious weeds are found, the board or coordinator shall notify the person or the person's representative and seek voluntary compliance with the district noxious weed management program. If voluntary compliance is not possible, notice of noncompliance must be sent to the person by certified mail or cooperation has not occurred within 10 days of the notification required under this subsection, the person is considered to be in noncompliance and is subject to appropriate control measures pursuant to 7-22-2124.
  - (3) The notice must specify:
  - (a) the basis for the determination of noncompliance;
- (b) the geographic location of the area of noncompliance, by legal description or other reasonably identifiable description;

- (4)(3) A person is considered to be in compliance if the person submits and the board accepts a proposal to undertake specified control measures and is in compliance as long as the person performs according to the terms of the proposal. The proposal must include a requirement that the person notify the board as measures in the proposal are taken. If the measures proposed to be taken extend beyond the current growing season, the proposal and acceptance must be in writing.
- (5)(4) In accepting or rejecting a proposal, the board shall consider the economic impact on the person and the person's neighbors, practical biological and environmental limitations, and alternative control methods to be used."
  - Section 2. Section 7-22-2124, MCA, is amended to read:
- "7-22-2124. Destruction of weeds by board. (1) If corrective action is not taken within the time specified in 7-22-2123(2) and a proposal is not made and accepted or a request for an administrative hearing is not made within the time specified in the notice as provided in 7-22-2123(3), the board may enter upon the person's land and institute appropriate control measures. In that case, the board shall submit a bill to the person, itemizing hours of labor, material, and equipment time, together with a penalty not exceeding 50% 25% of the total cost incurred except that a penalty may not be assessed if contact was not made with the landowner or the landowner's representative pursuant to 7-22-2123. When the penalty is collected, it must be credited to the noxious weed fund created

pursuant to 7-22-2141 to be used for appropriate control measures pursuant to this section. - (i) Contributions for group benefits paid wholly or in part from user charges generated by proprietary funds, as defined by generally accepted accounting principles, are not included in the amount exempted from the mill levy calculation limitation provided for in 15-10-420.

- (c) A levy under this section in the previous year may not be included in the amount of property taxes that a governmental entity is authorized to levy for the purposes of determining the amount that the governmental entity may assess under the provisions of 15-10-420(1)(a). When a levy under this section decreases or is no longer levied, the revenue may not be combined with the revenue determined in 15-10-420(1)(a).

A portion of the employer contribution for group benefits may be applied to an employee's costs for participation in Part B of medicare under Title XVIII of the Social Security Act, as amended, if the state group benefit plan is the secondary payer and medicare the primary payer.

- (i) If a political subdivision did not make contributions for group benefits on or before July 1, 1999, and subsequently does so, the base contribution is determined by multiplying the average annual contribution for each employee in the first year the political subdivision provides contributions for group benefits times the number of employees for whom the employer makes contributions for group benefits under 2-9-212 on July 1 of each fiscal year.
- (ii) If a political subdivision has made contributions for group benefits but has not previously levied for contributions in excess of the base contribution, the political subdivision's base is determined by multiplying the average annual contribution for each employee at the beginning of the fiscal year immediately preceding the year in which the levy will first be levied times the number of employees for whom the employer made contributions for group benefits under 2-9-212 in that fiscal year.
- (4)(5) Unused employer contributions for any state employee must be transferred to an account established for this purpose by the department of

administration and upon transfer may be used to offset losses occurring to the group of which the employee is eligible to be a member.

The maximum number of mills that a governmental entity may impose is established by calculating the number of mills required to generate the amount of property tax actually assessed in the governmental unit in the prior year based on the current year taxable value, less the current year's value of newly taxable property, plus one-half of the average rate of inflation for the prior 3 years.
- (b) A governmental entity that does not impose the maximum number of mills authorized under subsection (1)(a) may carry forward the authority to impose the number of mills equal to the difference between the actual number of mills imposed and the maximum number of mills authorized to be imposed.   - (iii) the termination of a tax increment financing district.
- (b) If a tax increment financing district terminates prior to the certification of taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the year in which the tax increment financing district terminates. If a tax increment financing district terminates after the certification of taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the following tax year.
- (c) For the purpose of subsection (3)(a)(iv), the subdivision of real property includes the first sale of real property that results in the property being taxable as class four property or as nonqualified agricultural land as described in 15-6-133(1)(c).
  - (5) Subject to subsection (8), subsection (1)(a) does not apply to:

- (4) (a) Disclosure may be made between licensees if the information disclosed is limited to that which is reasonably necessary:
- (i) to detect or prevent criminal activity, fraud, material misrepresentation, or material nondisclosure in connection with insurance transactions; or

- (a) to protect the interests of a licensee in preventing, investigating, or prosecuting the perpetration of fraud upon a licensee; or

- (b) if the licensee or insurance-support organization reasonably believes that illegal activities have been conducted by the individual; or

- (8) Disclosure that is limited to that which is reasonably necessary may be made as otherwise permitted or required by law.
- (9) Disclosure that is limited to that which is reasonably necessary may be made in response to a facially valid administrative or judicial order, including a search warrant or subpoena.

- (b) A licensee disclosing pursuant to this section must have a written agreement with the affiliate that the affiliate will not use or further disclose information received except to carry out the purposes set forth in subsection (12)(a) and that if further disclosure is necessary to meet those purposes, the disclosure will be made only to the licensee or to a person who agrees in writing to be bound by the same prohibition on use and disclosure. A disclosure allowed by 33-19-307 is governed by that section.
- (13) Disclosure that is limited to that which is reasonably necessary may be made to an insurance-support organization to perform insurance-support services for the licensee. The insurance-support organization may redisclose the

- (18) Disclosure may be made to a person contractually engaged to provide services to enable a licensee to perform an insurance function, or to perform an insurance function on behalf of a licensee, if the person agrees in writing that the person will not use or further disclose information obtained or developed pursuant to the engagement except to carry out the limited purpose of the engagement and that if further disclosure is necessary to perform the insurance function, that disclosure will be made only to the licensee or to a person who agrees in writing to be bound by the same prohibitions on use and disclosure.

- (23) Nothing in this *This* section may *not* be construed to prevent the disclosure of personal information that is otherwise discoverable pursuant to the Montana Rules of Civil Procedure.
- (24) The commissioner may adopt rules creating additional exceptions to disclosure restrictions for the purpose of allowing a licensee or insurance-support organization to carry out a necessary insurance function. AN ACT DIRECTING THE STATE ADMINISTRATION AND VETERANS' AFFAIRS INTERIM COMMITTEE TO EXAMINE AND RECOMMEND TO THE 62ND LEGISLATURE FUNDING AND BENEFIT CHANGES IN THE STATEWIDE PUBLIC EMPLOYEES' AND TEACHERS' RETIREMENT SYSTEMS; PROVIDING AN APPROPRIATION; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, Article VIII, section 15, of the Montana Constitution requires all public retirement systems to be funded on an actuarially sound basis; and

WHEREAS, the recent economic collapse of the financial markets in the United States has severely affected the market value of investments and adversely affected the funding of Montana's statewide retirement systems; and

WHEREAS, the July 1, 2008, actuarial valuation for the Teachers' Retirement System (TRS) showed that current contribution rates will not amortize the system's unfunded liability within the 30-year amortization period considered to be the benchmark for actuarial soundness; and

WHEREAS, if investment earnings for TRS continue to dramatically decline, even with contribution increases, the system's liabilities may not amortize in any length of time unless significant funding is provided and TRS is redesigned to reduce the accrual of benefit liabilities; and

WHEREAS, based on actuarial projections that take into consideration continued market declines since the actuarial valuation of July 1, 2008, for the retirement systems administered by the public employees' retirement board, the unfunded liabilities in the public employees', game wardens' and peace officers', and sheriffs' retirement systems may also not amortize in any length of time without increased contributions and benefit or plan design changes; and

WHEREAS, an appropriate interim committee of the Legislature should examine the funding and benefits in all of the statewide retirement systems, which include the public employees', teachers', judges', game wardens' and peace officers', sheriffs', firefighters' unified, municipal police officers', and volunteer firefighters' retirement systems, review options for changing benefits and plan design, consider the purpose of retirement plans as a part of an overall compensation package for public employees, and develop legislation for consideration by the next Legislature; and

WHEREAS, such an examination and the development of legislation to implement plan redesign and funding changes will require that the committee be authorized to hire actuarial and other expert consulting services.

Be it enacted by the Legislature of the State of Montana:

Section 1. Interim committee to examine and recommend changes to statewide retirement systems. (1) In addition to fulfilling its duties under 5-5-228(2)(a), the state administration and veterans' affairs interim committee established in 5-5-228 shall:

- (2) With respect to the teachers' retirement system, the committee shall compare and contrast various options for redesigning the system, including money purchase plan design options and other alternative and hybrid defined benefit plan options, and shall develop legislation to implement a redesign of the teachers' retirement system that:
  - (a) ensures members will have a guaranteed benefit in retirement;
- (b) provides that the employer and employee shall share in some manner the risk of actuarial gains and losses and allows for the adjustment of employer and employee contributions accordingly;
  - (c) is sustainable and funded on an actuarially sound basis;
- (d) provides benefits designed to attract and retain qualified and competent employees in a competitive labor market and to facilitate effective workforce management;
- (e) complies with the federal Internal Revenue Code governing tax-qualified public pension plans;
- (f) provides that the system is administered by the teachers' retirement board and provides that system assets are invested by the board of investments, as required by the Montana constitution; and

- (i) a retirement plan is only one part of an employee's compensation package that also includes salary, health insurance benefits, and other benefits;
- (ii) an employer-sponsored public retirement plan is not intended to be the sole provider of income to an employee in retirement; and
- (iii) deferred compensation, personal savings and investments, and social security should be part of an employee's financial planning for retirement.
  - (3) (a) The committee may hire consulting services as needed.
- (b) The public employees' retirement and teachers' retirement boards and their respective staffs shall provide requested information and actuarial analysis to the extent feasible within the framework of the retirement boards' fiduciary and constitutional responsibilities.
- (c) The board of investments and its staff shall also provide requested information and analysis to the extent feasible and consistent with its fiduciary and constitutional responsibilities.
- (4) The committee shall involve public employers, public employees, members of the current public employees' retirement systems, public employee and retiree representative organizations, public retirement plan administrators, and other interested parties in the process of developing options and recommendations.

- (5) Subject to 5-5-211, the speaker of the house and the senate committee on committees are encouraged to:

Be it enacted by the Legislature of the State of Montana:

- **Section 1. Purpose.** The purpose of [sections 1 through 3] is to facilitate the reopening and continued operation of a commercial or industrial property by reducing the taxable value of property subject to taxation under 15-6-134 and 15-6-138.
- Section 2. Reduction in assessment of taxable value of commercial and industrial property application approval. (1) (a) For property tax years 2009, 2010, and 2011, the governing bodies of a county or consolidated local government unit, incorporated city or town, if the property is located in the city or town, and school district may jointly reduce by 95% the taxable value of commercial real property improvements, personal property, or any combination of that property, other than land, that is subject to taxation. The reduction in taxable value under this section applies only to commercial or industrial property taxed under 15-6-134 or 15-6-138. A taxpayer that has not been operating the property for at least 6 months immediately preceding the request for reduction in taxable value and that does not intend to use the property for at least 6 months following the reduction in taxable value qualifies under this section.
- (b) (i) Except as provided in subsection (1)(b)(ii), an application for the reduction in taxable value allowed under this section must be made to the affected local governing bodies by April 15 of the property tax year.
- (ii) An application for the reduction in taxable value allowed under this section for property tax year 2009 must be made to the affected local governing bodies by May 15, 2009.

- (c) For the purposes of [section 3] and this section, a local governing body includes the board of trustees of a school district.
- (2) (a) In order for a taxpayer to receive the tax benefits described in subsection (1), the governing bodies of the affected county or consolidated local government unit, incorporated city or town, if the property is located in the city or town, and school district must have approved by a separate, joint resolution for each commercial or industrial property, following due notice as defined in 76-15-103 and a public hearing, the taxable value reduction provided for in subsection (1) for the respective jurisdictions. The presiding officer of the governing body of the affected county or consolidated local government unit is the presiding officer of the joint meeting of the affected taxing jurisdictions. If the property is located in more than one county, the presiding officer of the governing body of the county in which most of the property is located is the presiding officer of the joint meeting.
- (b) For the purpose of this subsection (2), each affected governing body shall provide due notice of the joint meeting.
- (c) Subject to 15-10-420, the governing bodies may end the tax benefits by majority vote at any time, but the tax benefits may not be denied a commercial or industrial business that previously qualified for the benefits in the tax year.
- (d) The joint resolution provided for in subsection (2)(a) must include a description of the improvements and personal property that qualify for the tax treatment that is to be allowed in the taxing jurisdictions. The joint resolution may provide that commercial real property improvements, personal property, or any combination of that property, other than land, is eligible for the tax benefits described in subsection (1).
- (3) The joint resolution must state that the reduction in taxable value is in the best interest of the governing body, based on full disclosure of all pertinent financial information by the owner of the real and personal property as required by the local governing body. The joint resolution must be approved by a majority vote of the governing body of each affected taxing jurisdiction referred to in subsection (2)(a).
- (4) The governing bodies may refuse to reduce the taxable value of the property if they determine that the business is restructuring the ownership of the property for the primary purpose of escaping payment of property taxes or if the governing bodies determine that the reduction in taxable value is not in the best interest of the local governments.
- (5) The reduction in taxable value granted by the joint resolution may be only for the current tax year. The governing bodies may grant a reduction in taxable value for the same owner of the property in the subsequent tax year under the provisions of this section, but they may not grant a reduction in taxable value for more than 3 tax years as provided in this section. The tax benefit granted under this section applies for the entire tax year.
- (6) The tax benefits may not be granted under this section if the business owes delinquent property taxes for prior tax years.
- (7) (a) If the reduction in taxable value is granted by a majority vote of the governing body of each affected taxing jurisdiction, the reduction applies only to mills levied in the affected county or consolidated local government unit, the affected incorporated city or town, and the affected school district.
- (b) The benefit described in subsection (1) does not apply to levies or assessments required under Title 15, chapter 10, 20-9-331, 20-9-333, or 20-9-360 or otherwise required under state law.

- (8) Within 15 days of approving the joint resolution to grant a reduction of taxable value but not later than July 15 of the tax year the reduction is granted, the governing body of the affected county or consolidated local government unit shall notify the department of the approval by each of the affected governing bodies. Upon receipt of the notification of approval by the governing body of the affected county or consolidated local government unit, the department shall make the assessment change pursuant to this section for each affected taxing jurisdiction.
- Section 3. Exclusions from other property tax reductions recapture. - (2) Property taxes abated from the reduction in taxable value allowed by [section 2] are subject to recapture by each local governing body if the ownership or use of the property does not meet the requirements of [section 2] or the joint resolution required by [section 2(2)(a)]. The recapture is equal to the amount of taxes avoided, plus interest and penalties for nonpayment of property taxes as provided in 15-16-102, during any period in which the abatement was in effect. The amount recaptured, including penalty and interest, must be distributed by the treasurer to funds and accounts subject to the abatement in the same ratio as the property tax was abated. A recapture of taxes abated is not allowed with regard to property ceasing to qualify for the abatement by reason of an involuntary conversion or if the property is transferred to another person and the person maintains the same or similar level of operation of the commercial or industrial property. The recapture of abated taxes may be canceled, in whole or in part, if a local governing body determines that the taxpayer's failure to meet the requirements of this section is a result of circumstances beyond the control of the taxpayer.

- (a) The proposed change in appropriation right will not adversely affect the use of the existing water rights of other persons or other perfected or planned

uses or developments for which a permit or certificate has been issued or for which a state water reservation has been issued under part 3.

- (b) Except for a change in appropriation right for instream flow to protect, maintain, or enhance streamflows to benefit the fishery resource pursuant to 85-2-436 or a temporary change in appropriation right authorization to maintain or enhance streamflows to benefit the fishery resource pursuant to 85-2-408 or a change in appropriation right to instream flow to protect, maintain, or enhance streamflows pursuant to 85-2-320, the proposed means of diversion, construction, and operation of the appropriation works are adequate.
  - (c) The proposed use of water is a beneficial use.
- (d) Except for a change in appropriation right for instream flow to protect, maintain, or enhance streamflows to benefit the fishery resource pursuant to 85-2-436 or a temporary change in appropriation right authorization pursuant to 85-2-408 or a change in appropriation right to instream flow to protect, maintain, or enhance streamflows pursuant to 85-2-320, the applicant has a possessory interest, or the written consent of the person with the possessory interest, in the property where the water is to be put to beneficial use or, if the proposed change involves a point of diversion, conveyance, or place of use on national forest system lands, the applicant has any written special use authorization required by federal law to occupy, use, or traverse national forest system lands for the purpose of diversion, impoundment, storage, transportation, withdrawal, use, or distribution of water.
- (e) If the change in appropriation right involves salvaged water, the proposed water-saving methods will salvage at least the amount of water asserted by the applicant.
  - (f) The water quality of an appropriator will not be adversely affected.
- (g) The ability of a discharge permitholder to satisfy effluent limitations of a permit issued in accordance with Title 75, chapter 5, part 4, will not be adversely affected.
- (3) The applicant is required to prove that the criteria in subsections (2)(f) and (2)(g) have been met only if a valid objection is filed. A valid objection must contain substantial credible information establishing to the satisfaction of the department that the criteria in subsection (2)(f) or (2)(g), as applicable, may not be met.
- (4) The department may not approve a change in purpose of use or place of use of an appropriation of 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water unless the appropriator proves by a preponderance of evidence that:
  - (a) the criteria in subsection (2) are met; and
- (b) the proposed change in appropriation right is a reasonable use. A finding of reasonable use must be based on a consideration of:
- (i) the existing demands on the state water supply, as well as projected demands for water for future beneficial purposes, including municipal water supplies, irrigation systems, and minimum streamflows for the protection of existing water rights and aquatic life;
  - (ii) the benefits to the applicant and the state;
- (iii) the effects on the quantity and quality of water for existing uses in the source of supply;
- (iv) the availability and feasibility of using low-quality water for the purpose for which application has been made;

- (v) the effects on private property rights by any creation of or contribution to saline seep; and
- (vi) the probable significant adverse environmental impacts of the proposed use of water as determined by the department pursuant to Title 75, chapter 1, or Title 75, chapter 20.
- (5) The department may not approve a change in purpose of use or place of use for a diversion that results in 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water being consumed unless:
- (a) the applicant proves by clear and convincing evidence and the department finds that the criteria in subsections (2) and (4) are met; and
- (b) for the withdrawal and transportation of appropriated water for out-of-state use, the department then petitions the legislature and the legislature affirms the decision of the department after one or more public hearings.
- (6) The state of Montana has long recognized the importance of conserving its public waters and the necessity to maintain adequate water supplies for the state's water requirements, including requirements for federal non-Indian and Indian reserved water rights held by the United States for federal reserved lands and in trust for the various Indian tribes within the state's boundaries. Although the state of Montana also recognizes that, under appropriate conditions, the out-of-state transportation and use of its public waters are not in conflict with the public welfare of its citizens or the conservation of its waters, the following criteria must be met before out-of-state use may occur:
- (a) The department and, if applicable, the legislature may not approve a change in appropriation right for the withdrawal and transportation of appropriated water for use outside the state unless the appropriator proves by clear and convincing evidence and, if applicable, the legislature approves after one or more public hearings that:
- (i) depending on the volume of water diverted or consumed, the applicable criteria and procedures of subsection (2) or (4) are met;
- (ii) the proposed out-of-state use of water is not contrary to water conservation in Montana; and
- (iii) the proposed out-of-state use of water is not otherwise detrimental to the public welfare of the citizens of Montana.
- (b) In determining whether the appropriator has proved by clear and convincing evidence that the requirements of subsections (6)(a)(ii) and (6)(a)(iii) will be met, the department and, if applicable, the legislature shall consider the following factors:
- (i) whether there are present or projected water shortages within the state of Montana;
- (ii) whether the water that is the subject of the proposed change in appropriation might feasibly be transported to alleviate water shortages within the state of Montana;
- (iii) the supply and sources of water available to the applicant in the state where the applicant intends to use the water; and  ${}^{\prime}$
- (iv) the demands placed on the applicant's supply in the state where the applicant intends to use the water.
- (c) When applying for a change in appropriation right to withdraw and transport water for use outside the state, the applicant shall submit to and

comply with the laws of the state of Montana governing the appropriation and use of water.

- (7) For any application for a change in appropriation right involving 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water, the department shall give notice of the proposed change in appropriation right in accordance with 85-2-307 and shall hold one or more hearings in accordance with 85-2-309 prior to its approval or denial of the proposed change in appropriation right. The department shall provide notice and may hold one or more hearings upon any other proposed change in appropriation right if it determines that the proposed change in appropriation right might adversely affect the rights of other persons.
- (8) The department or the legislature, if applicable, may approve a change in appropriation right subject to the terms, conditions, restrictions, and limitations that it considers necessary to satisfy the criteria of this section, including limitations on the time for completion of the change in appropriation right. The department may extend time limits specified in the change in appropriation right approval under the applicable criteria and procedures of 85-2-312(3).
- (9) Upon actual application of water to the proposed beneficial use within the time allowed, the appropriator shall notify the department that the appropriation has been completed. The notification must contain a certified statement by a person with experience in the design, construction, or operation of appropriation works describing how the appropriation was completed.
- (10) If a change in appropriation right is not completed as approved by the department or legislature or if the terms, conditions, restrictions, and limitations of the change in appropriation right approval are not complied with, the department may, after notice and opportunity for hearing, require the appropriator to show cause why the change in appropriation right approval should not be modified or revoked. If the appropriator fails to show sufficient cause, the department may modify or revoke the change in appropriation right approval.
- (11) The original of a change in appropriation right approval issued by the department must be sent to the applicant, and a duplicate must be kept in the office of the department in Helena.
- (12) A person holding an issued permit or change in appropriation right approval that has not been perfected may change the place of diversion, place of use, purpose of use, or place of storage by filing an application for change in appropriation right pursuant to this section.
- (13) A change in appropriation right contrary to the provisions of this section is invalid. An officer, agent, agency, or employee of the state may not knowingly permit, aid, or assist in any manner an unauthorized change in appropriation right. A person or corporation may not, directly or indirectly, personally or through an agent, officer, or employee, attempt to change an appropriation right except in accordance with this section.
- (14) The department may adopt rules to implement the provisions of this section.
- (15) (a) An appropriator may change an appropriation right for a replacement well without the prior approval of the department if:
  - (i) the appropriation right is for:

- (A) ground water outside the boundaries of a controlled ground water area; or
- (B) ground water inside the boundaries of a controlled ground water area and if the provisions of the order declaring the controlled ground water area do not restrict a change in appropriation right;
- (ii) the change in appropriation right is to replace an existing well and the existing well will no longer be used;
- (iii) the rate and volume of the appropriation from the replacement well are equal to or less than that of the well being replaced and do not exceed:
  - (A) 450 gallons a minute for a municipal well; or
  - (B) 35 gallons a minute and 10 acre-feet a year for all other wells;
- (iv) the water from the replacement well is appropriated from the same aquifer as the water appropriated from the well being replaced; and
- (v) a timely, correct and complete notice of replacement well is submitted to the department as provided in subsection (15)(b).
- (b) (i) After completion of a replacement well and appropriation of ground water for a beneficial use, the appropriator shall file a notice of replacement well with the department on a form provided by the department.
- (ii) (A) The department shall review the notice of replacement well and shall issue an authorization of a change in an appropriation right if all of the criteria in subsection (15)(a) have been met and the notice is correct and complete.
- (B) If the replacement well is located on national forest system lands, the notice is not correct and complete under this subsection (15) until the appropriator has submitted proof of any written special use authorization required by federal law to occupy, use, or traverse national forest system lands for the purpose of constructing the replacement well.
- (iii) The department may not issue an authorization of a change in appropriation right until a correct and complete notice of replacement well has been filed with the department. The department shall return a defective notice to the appropriator, along with a description of defects in the notice. The appropriator shall refile a corrected and completed notice of replacement well within 30 days of notification of defects or within a further time as the department may allow, not to exceed 6 months.
- (iv) If a notice of replacement well is not completed within the time allowed, the appropriator shall:
- $(\mbox{\sc A})$  cease appropriation of water from the replacement well pending approval by the department; and
- (B) submit an application for a change in appropriation right to the department pursuant to subsections (1) through (3).
- (c) The provisions of this subsection (15) do not apply to an appropriation right abandoned under 85-2-404.
- (d) For each well that is replaced under this subsection (15), the appropriator shall follow the well abandonment procedures, standards, and rules adopted by the board of water well contractors pursuant to 37-43-202.
- (e) The provisions of subsections (2), (3), (9), and (10) do not apply to a change in appropriation right that meets the requirements of subsection (15)(a).
- (16) (a) An appropriator may change an appropriation right without the prior approval of the department for the purpose of constructing a redundant

water supply well in a public water supply system, as defined in 75-6-102, if the redundant water supply well:

- (i) withdraws water from the same ground water source as the original well; and
  - (ii) is required by a state or federal agency.
- (b) The priority date of the redundant water supply well is the same as the priority date of the original well. Only one well may be used at one time.
- (c) Within 60 days of completion of a redundant water supply well, the appropriator shall file a notice of construction of the well with the department on a form provided by the department. The department may return a defective notice of construction to the appropriator for correction and completion. If the redundant water supply well is located on national forest system lands, the notice is not correct and complete under this subsection until the appropriator has submitted proof of any written special use authorization required by federal law to occupy, use, or traverse national forest system lands for the purpose of constructing the redundant water supply well.
- (d) The provisions of subsections (9) and (10) do not apply to a change in appropriation right that meets the requirements of this subsection (16).
- (17) The department shall accept and process an application for a change in appropriation right for instream flow to protect, maintain, or enhance streamflows pursuant to 85-2-320 and this section and to benefit the fishery resource pursuant to 85-2-436 and this section.
- (18) (a) An appropriator may change an appropriation right for a replacement point of diversion without the prior approval of the department if:
- (i) the existing point of diversion is inoperable due to natural causes or deteriorated infrastructure;
  - (ii) there are no other changes to the water right;
  - (iii) the capacity of the diversion is not increased;
- (iv) there are no points of diversion or intervening water rights between the existing point of diversion and the replacement point of diversion or the appropriator obtains written waivers from all intervening water right holders;
- (v) the replacement point of diversion is on the same surface water source and is located as close as reasonably practicable to the existing point of diversion;
- (vi) the replacement point of diversion replaces an existing point of diversion and the existing point of diversion will no longer be used;
- (vii) the appropriator can show that the existing point of diversion has been used in the 10 years prior to the notice for change of appropriation right for a replacement point of diversion;
- (viii) the appropriator can show the change will not increase access to water availability, change the method of irrigation, if applicable, or increase the amount of water diverted, used, or consumed; and
- (ix) a timely, correct and complete notice of replacement point of diversion is submitted to the department as provided in subsection (18)(b).
- (b) (i) Within 60 days after completion of a replacement point of diversion, the appropriator shall file a notice of replacement point of diversion with the department on a form provided by the department.
- (ii) The department shall review the notice of replacement point of diversion and shall issue an authorization of a change in an appropriation right if all of the

criteria in subsection (18)(a) have been met and the notice is correct and complete. The department may inspect the diversion to confirm that the criteria under subsection (18)(a) have been met. If the department issues an authorization of a change in an appropriation right for a replacement point of diversion, the department shall prepare a notice of the authorization and provide notice of the authorization in the same manner as required in 85-2-307 for applications.

- (iii) The department may not issue an authorization of a change in appropriation right until a correct and complete notice of replacement point of diversion has been filed with the department. The department shall return a defective notice to the appropriator, along with a description of defects in the notice. The appropriator shall refile a corrected and completed notice of replacement point of diversion within 30 days of notification of defects or within a further time as the department may allow, not to exceed 6 months.
- (iv) If a notice of replacement point of diversion is not filed and completed within the time allowed or if the department determines the criteria under (18)(a) have not been met, the appropriator shall:
- (A) cease appropriation of water from the replacement point of diversion pending approval by the department; and
- (B) submit an application for a change in appropriation right to the department pursuant to subsections (1) through (3).
- (c) The provisions of this subsection (18) do not apply to an appropriation right abandoned under 85-2-404.
- (d) The provisions of subsections (2), (3), (9), and (10) do not apply to a change in appropriation right that meets the requirements of subsection (18)(a).
- (e) (i) An appropriator may file a correct and complete objection with the department alleging that the change in appropriation right for a replacement point of diversion will adversely affect the use of the existing water rights of other persons or other perfected or planned uses or developments for which a permit or certificate has been issued or for which a state water reservation has been issued under Title 85, chapter 2, part 3.
- (ii) If the department determines after a contested case hearing between the appropriator and the objector that the rights of other appropriators have been or will be adversely affected, it may revoke the change or make the change subject to terms, conditions, restrictions, or limitations necessary to protect the rights of other appropriators.
- (iii) The burden of proof to prove lack of adverse effect at the hearing is on the appropriator changing the point of diversion."

Section 1. Section 17-7-304, MCA, is amended to read:

- **"17-7-304. Disposal of unexpended appropriations.** (1) All money appropriated for any specific purpose except that appropriated for the university system units listed in subsection (2) [or state money appropriated for the state children's health insurance program provided for in Title 53, chapter 4, part 10,] and except as provided in subsection (4) must, after the expiration of the time for which appropriated, revert to the several funds and accounts from which originally appropriated. However, any unexpended balance in any specific appropriation may be used for the years for which the appropriation was made or may be used to fund the provisions of 2-18-1203 through 2-18-1205 and 19-2-706 in the succeeding year.
- (2) Except as provided in 17-2-108 and subsection (3) of this section, all money appropriated for the university of Montana campuses at Missoula, Butte, Dillon, and Helena and the Montana state university campuses at Bozeman, Billings, Havre, and Great Falls, the agricultural experiment station with central offices at Bozeman, the forest and conservation experiment station with central offices at Missoula, the cooperative extension service with central offices at Bozeman, and the bureau of mines and geology with central offices in Butte must, after the expiration of the time for which appropriated, revert to an

The affected university system units may, with the approval of the board of regents, modify the long-term plan at any time to address changing needs and priorities. The board of regents shall communicate the plan to each legislature, to the finance committee when requested by the committee, and to the office of budget and program planning.

- (3) Subsection (2) does not apply to reversions that are the result of a reduction in spending directed by the governor pursuant to 17-7-140. Any amount that is a result of a reduction in spending directed by the governor must revert to the fund or account from which it was originally appropriated.
- (4) (a) Subject to subsection (4)(b), after the end of a fiscal year, 30% of the money appropriated to an agency for that year by the general appropriations act for personal services, operating expenses, and equipment, by fund type, and remaining unexpended and unencumbered at the end of the year may be reappropriated to be spent during the following 2 years for any purpose that is consistent with the goals and objectives of the agency. The dollar amount of the 30% amount that may be carried forward and spent must be determined by the office of budget and program planning.
- (b) (i) Any portion of the 30% of the unexpended and unencumbered money referred to in subsection (4)(a) that was appropriated to a legislative branch entity may be deposited in the account established in 5-11-407.

[SB 343]

AN ACT CREATING THE MONTANA AQUATIC INVASIVE SPECIES ACT; ESTABLISHING THE INVASIVE SPECIES ACCOUNT; DEFINING DEPARTMENTAL RESPONSIBILITIES; ENCOURAGING COOPERATION AMONG PUBLIC AND PRIVATE ENTITIES; GRANTING RULEMAKING AUTHORITY; AUTHORIZING THE USE OF MANAGEMENT AREAS TO PREVENT THE SPREAD OF AQUATIC INVASIVE SPECIES; PROVIDING FOR THE PREVENTION AND CONTROL OF INFESTATIONS; AUTHORIZING INSPECTION OF THE EXTERIOR OF VESSELS FOR AQUATIC INVASIVE SPECIES; PROVIDING TRANSPORT OF AQUATIC INVASIVE SPECIES; PROVIDING EXCEPTIONS; AUTHORIZING EMERGENCY DECLARATIONS; PROVIDING CIVIL AND CRIMINAL PENALTIES; AMENDING SECTIONS 10-3-312, 87-1-506, AND 87-5-721, MCA; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, invasive species can wreak damage on the economy, environment, recreational opportunities, and human health; and

WHEREAS, aquatic invasive species, including Eurasian watermilfoil, the quagga mussel, and the zebra mussel, pose new and imminent threats, which if left unchecked could cost millions of dollars not only in damage to Montana waterways, rivers, and lakes, to water storage, delivery, and irrigation systems, to hydroelectric power structures and systems, and to aquatic ecosystems, but also to the entire state economy; and

WHEREAS, the enormous impact caused by the zebra mussel is clearly demonstrated in the eastern United States where the species was first observed in Lake Ontario in 1988 and spread to Lake Michigan and the Finger Lakes Region in New York State by the following year; and

WHEREAS, the United States Geological Survey estimates that \$5 billion has been spent thus far in the Great Lakes Basin alone for damages caused by and control efforts for the zebra mussel; and

WHEREAS, the zebra mussel was first discovered in Lake Mead in January 2007 and has now spread to Lakes Mojave and Havasu and the Colorado River, impacting the states of Arizona, Nevada, and California, as well as to Pueblo Reservoir in Colorado, San Justo Reservoir in California, and Electric Lake in Utah; and

WHEREAS, Eurasian watermilfoil, the zebra mussel, and the quagga mussel are easily carried on vessels used in infested water and then transported to another body of water if the vessel has not been properly cleaned; and

WHEREAS, Eurasian watermilfoil is already present in Montana and unless Montana takes action now to prevent the infestation of its waters with the zebra mussel and quagga mussel it is only a matter of time before their introduction in this state occurs; and

WHEREAS, the most cost-effective way of dealing with an aquatic invasive species is preventing an infestation from occurring.

Be it enacted by the Legislature of the State of Montana:

**Section 1. Short title.** [Sections 1 through 14] may be cited as the "Montana Aquatic Invasive Species Act".

**Section 2. Legislative findings and purpose.** (1) The legislature finds that:

- (a) invasive species can wreak damage on the economy, environment, recreational opportunities, and human health in Montana;
- (b) there is reason to be concerned about the further introduction, importation, and infestation of Eurasian watermilfoil (Myriophyllum spicatum) and the introduction, importation, and infestation of additional invasive species not yet present in Montana, such as the zebra mussel (Dreissena polymorpha) and the quagga mussel (Dreissena bugensis), that could cause catastrophic damage to not only our waterways, rivers, and lakes, our water storage, delivery, and irrigation systems, our hydroelectric power structures and systems, and our aquatic ecosystems, but also to the entire state economy;
- (c) as infestations of threatening invasive species move ever closer to Montana's borders, protecting Montana against these species is of utmost importance to the state economy, environment, recreational opportunities, and human health for the benefit of all Montanans;
- (d) preventing the introduction, importation, and infestation of invasive species is the most effective and least costly strategy for combating invasive species that, once established, are often difficult to control or eradicate;
- (e) the use of check stations, at which the exterior of vessels may be inspected for the presence of invasive species and cleaned if an invasive species is detected, is an effective way to prevent the introduction, importation, and infestation of invasive species that are easily transferred from infested areas to uninfested areas when proper precautions are not taken; and
- (f) preventing the introduction, importation, and infestation of invasive species is best accomplished through coordinated educational and management activities.
- (2) The purpose of [sections 1 through 14] is to establish a mechanism for Montana to take concerted action to detect, control, and manage invasive species, including preventing further introduction, importation, and infestation, by educating the public about the threat of these species, coordinating public and private efforts and expertise to combat these species, and authorizing the use of check stations to prevent the intrastate movement of invasive species from infested areas to uninfested areas to protect the state's economy, environment, recreational opportunities, and human health for the benefit of all Montanans.

**Section 3. Definitions.** As used in [sections 1 through 14], the following definitions apply:

- (1) "Departments" means the department of agriculture and the department of fish, wildlife, and parks.
- (2) "Invasive species" means, upon the mutual agreement of the directors of the departments of agriculture and fish, wildlife, and parks, a nonnative, aquatic species that has caused, is causing, or is likely to cause harm to the economy, environment, recreational opportunities, or human health.

- (3) "Invasive species management area" means a designation made by a department for a specific area, for a body or bodies of water, or for the entire state for a specific or indeterminate amount of time that regulates invasive species or potential carriers of invasive species within the boundaries of that area.

- (2) Money transferred from the general fund or received from any other lawful source, including but not limited to gifts, grants, donations, securities, or other assets, public or private, may be deposited in the account.
- (3) Subject to subsection (4), money deposited in the account must be used to accomplish the purposes of [sections 1 through 14].

- (5) Any interest and earnings on the account must be retained in the account.
- Section 5. Cooperative agreement for invasive species detection and control. (1) In order to implement, administer, and accomplish the purposes of [sections 1 through 14], the departments, collectively or individually, shall enter into a cooperative agreement with each other or may enter into an agreement with any person with the appropriate expertise and administrative capacity to perform the obligations of the agreement.
- (2) Prior to entering an agreement with a person other than a department, the departments shall work in collaboration with each other to coordinate their respective responsibilities in order to further the purposes of [sections 1 through 14].
- (3) A cooperative agreement may include provisions for funding to implement the agreement.
  - (4) The overall coordinating authority is the department of agriculture.
- **Section 6. Departmental responsibilities.** (1) The departments shall prepare a list of invasive species and identify those departments and other public agencies with jurisdiction over each species on the list. The jurisdiction of each department for the prevention and control of invasive species is according to the department's powers and duties as established by law.
- (2) For those invasive species under the jurisdiction of more than one department, the departments with jurisdiction, through cooperative agreement, shall seek to clarify and coordinate their respective responsibilities.
- (3) Working in collaboration with each other, the departments, individually or collectively, shall develop and adopt an invasive species strategic plan or plans to accomplish the purposes of [sections 1 through 14]. The plan or plans shall identify and prioritize threats and determine appropriate actions, in the following order of priority, related to:
  - (a) public awareness and education;

- (b) prevention and detection of invasive species, including the use of invasive species management areas authorized under [section 8];
  - (c) management, control, and restoration of infested areas; and
  - (d) emergency response.
- (4) The departments shall implement education and outreach programs that increase public knowledge and understanding of prevention, early detection, and control of invasive species.
- **Section 7.** Rulemaking authority. Unless otherwise provided in Title 81, chapters 2 and 7, or this chapter each of the departments may adopt rules for the prevention, early detection, and control of invasive species under the departments' jurisdiction, including rules for the:
  - (1) implementation of an invasive species strategic plan;
- (2) transportation of an invasive species or any agent likely to be a carrier of an invasive species;
- (3) designation, regulation, and treatment of an invasive species management area, including rules pertaining to the movement of vessels within, to, or from the area and the inspection and cleaning of the exterior of vessels moving within, to, or from the area; and
- (4) manner in which vessels, including bilges, livewells, bait containers, and other boating-related equipment, traveling in the state must be cleaned to ensure that they are free from the presence of an invasive species.
- Section 8. Invasive species management area authorization. (1) When an invasive species is identified as infesting or threatening an area, the department with jurisdiction over that invasive species may designate and administer an invasive species management area for a specific area of land, for a body or bodies of water, or for the entire state for a specific or indeterminate amount of time to prevent and control the infestation or spread of that invasive species.
- (2) To the extent practicable, prior to the designation of an invasive species management area, the department making the designation shall coordinate with all of the departments in order to further the purposes of [sections 1 through 14].
  - (3) The designation of an invasive species management area must specify:
  - (a) the invasive species present or considered threatening; and
- (b) (i) subject to subsection (3)(b)(ii), the method or methods for preventing the introduction of the species or controlling or eradicating the species, including regulations pertaining to the movement of vessels within, to, and from the area and whether check stations will be used to inspect and clean the exterior of vessels moving within, to, or from the area.
- (ii) If the invasive species management area encompasses the entire state, departmental authority to prescribe requirements for cleaning and inspecting the exterior of vessels traveling within the state is limited to those vessels required to stop at a check station pursuant to [section 11(3)(b)].
- (4) As far as practical, signs indicating that an invasive species management area is in place must be posted in an effective manner at access points to the designated area and along the boundaries and within the area. The signs must include information about the specific regulations that apply to the area. The signs must be paid for with funds from the invasive species account established

in [section 4]. The departments may coordinate with any other governmental entity for the posting of signs.

- Section 9. Arrangements with landowners. (1) The department designating an invasive species management area pursuant to [section 8] shall work cooperatively with any affected land managers and landowners within the boundaries of the designated area to establish prevention, treatment, control, and eradication methods best suited for the invasive species infesting or threatening the area.
- (2) If negotiations with a land manager or landowner fail, the designating department may arrange for the prevention, treatment, control, and eradication of the designated species as it relates to water infrastructure, including but not limited to hydroelectric, municipal, recreational, and irrigation equipment, without the consent of the land manager or landowner. To the extent possible, the arrangements by the department must be made in a manner best suited to preventing, treating, controlling, and eradicating the invasive species, while minimizing disturbances and adverse impacts to the landowner.
- Section 10. Invasive species management area regulation. (1) The owner, operator, or person in possession of any vessel authorized for use in an invasive species management area shall comply with any regulations imposed pursuant to [section 8(3)(b)].
- (2) After use in a body of water within an invasive species management area, all vessels, bait containers, livewells, bilges, and other boating-related equipment, excluding marine sanitary systems, must be drained in a way that does not impact any state waters before being transported on land or a public highway, as defined in 61-1-101, except where allowed by the department of fish, wildlife, and parks.
- (3) In a body of water designated as an invasive species management area, taking from the water or possessing any bait animal, dead or alive, including but not limited to crayfish, leeches, and minnows, is prohibited unless approved by the department of fish, wildlife, and parks.

WHEREAS, the 1993 Montana Legislature recognized that some Montana children have mental health and other needs that require services from multiple agencies; and

WHEREAS, the 1993 Legislature expressed a desire to provide services to these children in their homes or communities whenever possible and to use out-of-state providers as a last resort; and

WHEREAS, subsequent legislatures have strengthened the policy first established in 1993 by encouraging development of an array of in-state services so that children placed out of state may return home and children in the state can remain in their homes, community, or state; and

WHEREAS, the state of Montana has sought and obtained federal funds to help plan for local services that can keep children with multiagency service needs in their homes and communities; and

  - (f) other planning efforts to prepare for a child's return to the state.
- $\left(2\right)$  On an ongoing basis, the department shall attempt to reduce out-of-state placements.

- (B) 90% of the maximum tonnage provided for in any agreement executed prior to January 1, 1985, for which the highest scheduled minimum quantity of coal stipulated by the terms of the agreement as they existed on January 1, 1985, has not been purchased at any time during the term of the agreement, plus the arithmetic average volume of coal purchased during calendar years 1983 and 1984 from all Montana coal mine operators under all other agreements.
- (b) If the volume calculated in subsection (2)(a)(i) is less than one-third of the volume calculated in subsection (2)(a)(ii), the base consumption level is the volume calculated in subsection (2)(a)(ii).
- (3) (a) Except as provided in subsection (3)(b), "base production level" for a coal mine operator applies only for the term of an agreement in effect as of December 31, 1984, and means the lesser of:
- (i) the arithmetic average volume of coal produced in Montana and sold to a purchaser in calendar years 1983 and 1984; or
  - (ii) the volume of coal produced in Montana and sold to a purchaser in 1986.

Contract sales price includes all royalties paid on production, no matter how the royalties are calculated. However, with respect to royalties paid to the government of the United States, the state of Montana, or a federally recognized Indian tribe, the contract sales price includes 15 cents per ton. Contract sales price does not include the costs specific to the act of coal washing.

- (10)(12) "Purchaser" means a person who purchases or contracts to purchase Montana coal directly from a coal mine operator or indirectly from a broker and who utilizes that coal in any industrial, commercial, or energy conversion process. - (11)(13) "Qualified purchaser" means a purchaser whose purchases of Montana coal in any given year exceed the purchaser's base consumption level. A purchaser of Montana coal who enters into a coal agreement with another purchaser or a broker that causes a reduction in the base consumption level of a purchaser is not a qualified purchaser.

- (13)(15) "Taxes paid on production" includes any tax paid to the federal, state, or local governments upon the quantity of coal produced as a function of either the volume or the value of production and does not include any tax upon the value of mining equipment, machinery, or buildings and lands, any tax upon a person's net income derived in whole or in part from the sale of coal, or any license fee.
  - (14)(16) "Ton" means 2,000 pounds.
- (15)(17) "Underground mining" means a coal mining method utilizing shafts and tunnels and as further defined in 82-4-203."

- (2) For purposes of subsection (1)(b), "market value f.o.b. mine" means the value of the coal subsequent to primary and secondary crushing but prior to drying, cleaning, or other processing being prepared for shipment on the mode of transportation taken to its final destination.

(3) When imputing value, the department may apply the factors used by the federal government under 26 U.S.C. 613, or that provision as it may be labeled or amended, in determining gross income from mining or the department may apply any other or additional criteria it considers appropriate. Each subject taxpayer shall upon request by the department furnish a copy of its federal income tax return, with any amendments, filed for the year in which the value of coal is being imputed and copies of the contracts under which it is selling coal at the time. When the department's estimate of market value is contested in any proceeding, the burden of proof is on the contesting party."

AN ACT CREATING A GRANT PROGRAM FOR EMERGENCY MEDICAL SERVICE PROVIDERS; ESTABLISHING ELIGIBILITY REQUIREMENTS AND REVIEW CRITERIA; AUTHORIZING THE DEPARTMENT OF TRANSPORTATION TO ADOPT RULES; PROVIDING A CONTINGENT APPROPRIATION; PROVIDING DEFINITIONS; AND PROVIDING AN EFFECTIVE DATE AND A TERMINATION DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Legislative findings — purpose. The legislature finds that the provision of prehospital emergency medical service is a critical component of Montana's health care system because these prehospital services can improve the medical outcomes for people suffering medical emergencies and may improve the safety of motorists on Montana roads by providing emergency response to vehicle crashes. The legislature further finds that emergency medical service providers in many of Montana's rural areas have difficulty in continuing their operations because of demographic and economic circumstances. It is the purpose of [sections 1 through 7] to establish a grant program that will support emergency medical service providers by creating a source of funds to cover the costs of buying and maintaining the equipment that an emergency medical service needs in order to be ready to respond to calls.

- (4) If the local government unit or the state agency determines that the investment grade energy audit provides sufficient conservation-related cost savings, it shall notify the qualified provider. The qualified provider shall provide the local government unit or the state agency with plans for the proposed conservation measures that have been prepared by an engineer licensed to practice in Montana and that comply with applicable building and safety codes.
- (5) Upon receipt of the information required by subsection (4), the local government unit *or the state agency* may negotiate the conservation measures to be included in the energy performance contract and enter into the energy

performance contract. The energy performance contract may include the option of payment of the costs of the investment grade energy audit and plans provided pursuant to subsection (4) through project financing."

Section 10. Section 90-4-1107, MCA, is amended to read:

- (v) The board or the district court shall apply the laws and rules in place when the department issued its decision, and the board or the district court may not consider any issue that was not presented to the department for the

department's consideration during the formal comment period unless the issue is related to a material change in federal or state law made during the comment period, to a judicial decision issued after the comment period or to a material change to the draft permit, which was submitted for public comment, made by the department in the final permit decision and upon which the public did not have a meaningful opportunity to comment.

- (c) (i) Except as provided in subsection (1)(c)(ii), if the person requesting the hearing is not the applicant or permittee of an energy development project, the board or the district court shall require a written undertaking to be given by the party requesting the hearing for the payment of costs and damages incurred by the permit applicant and its employees if the request for a hearing or judicial review was for an improper purpose designed to harass, cause unnecessary delay, or improperly interfere with the issuance of the permit without a reasonable basis in law or fact.
- (ii) The board or the district court may not require a written undertaking if the party requesting the hearing is an indigent person.
- (d) If grounds for requesting the hearing are based on alleged error in applying best available control technology requirements, the board or the district court shall give deference to the best available control technology determination made by the department. The board or the district court may not reject the best available control technology determination unless the determination was incorrect as a matter of law or the factual basis for the determination was clearly erroneous.
- (2) The board shall issue a final decision within 4 months from the close of the hearing on the merits or, if no hearing is held, within 3 months from the date that briefing by the parties is complete unless the applicant or permittee and the party other than the applicant or permittee agree in writing to an extension of time. The board shall require the parties to prepare the case for hearing without unreasonable delay.
- (3) (a) Any requirement in a permit to commence construction, installation, or alteration within a certain time period is tolled during a contested case or judicial review proceeding, but not by more than 12 months, unless the applicant or permittee in its discretion waives the tolling in writing.
- (b) If there are multiple appeals of one permit, tolling under this subsection (3) may not exceed a total of 12 months for all appeals.
- (c) The applicant may not engage in construction during the period that the time period is tolled under subsection (3)(a).
- (4) The department shall, for good cause shown, waive for up to 1 year any requirement that construction of an energy development project must proceed with due diligence. During the period that a waiver is in effect, an air quality permit does not expire because construction of an energy development project failed to proceed with due diligence.

**Section 2.** Section 2-4-623, MCA, is amended to read:

**"2-4-623. Final orders** — **notification** — **availability.** (1) (a) A final decision or order adverse to a party in a contested case must be in writing. A final decision must include findings of fact and conclusions of law, separately stated. Findings of fact, if set forth in statutory language, must be accompanied by a concise and explicit statement of the underlying facts supporting the findings. A *Except as provided in [section 1] and 75-20-223, a* final decision must be issued within 90 days after a contested case is considered to be submitted for a final

decision unless, for good cause shown, the period is extended for an additional time not to exceed 30 days.

- (b) If an agency intends to issue a final written decision in a contested case that grants or denies relief and the relief that is granted or denied differs materially from a final agency decision that was orally announced on the record, the agency may not issue the final written decision without first providing notice to the parties and an opportunity to be heard before the agency.
- (2) Findings of fact must be based exclusively on the evidence and on matters officially noticed.
- (3) Each conclusion of law must be supported by authority or by a reasoned opinion.
- (4) If, in accordance with agency rules, a party submitted proposed findings of fact, the decision must include a ruling upon each proposed finding.
- (5) Parties must be notified by mail of any decision or order. Upon request, a copy of the decision or order must be delivered or mailed in a timely manner to each party and to each party's attorney of record.
- (6) Each agency shall index and make available for public inspection all final decisions and orders, including declaratory rulings under 2-4-501. An agency decision or order is not valid or effective against any person or party, and it may not be invoked by the agency for any purpose until it has been made available for public inspection as required in this section. This provision is not applicable in favor of any person or party who has actual knowledge of the decision or order or when a state statute or federal statute or regulation prohibits public disclosure of the contents of a decision or order."

# Section 3. Section 2-4-702, MCA, is amended to read:

- **"2-4-702. Initiating judicial review of contested cases.** (1) (a) A *Except as provided in [section 1] and 75-20-223, a* person who has exhausted all administrative remedies available within the agency and who is aggrieved by a final written decision in a contested case is entitled to judicial review under this chapter. This section does not limit use of or the scope of judicial review available under other means of review, redress, relief, or trial de novo provided by statute.
- (b) A party who proceeds before an agency under the terms of a particular statute may not be precluded from questioning the validity of that statute on judicial review, but the party may not raise any other question not raised before the agency unless it is shown to the satisfaction of the court that there was good cause for failure to raise the question before the agency.
- (2) (a) Except as provided in [section 1], 75-2-211, and subsection (2)(c) of this section, proceedings for review must be instituted by filing a petition in district court within 30 days after service of the final written decision of the agency or, if a rehearing is requested, within 30 days after the written decision is rendered. Except as otherwise provided by statute or subsection (2)(d), the petition must be filed in the district court for the county where the petitioner resides or has the petitioner's principal place of business or where the agency maintains its principal office. Copies of the petition must be promptly served upon the agency and all parties of record.
- (b) The petition must include a concise statement of the facts upon which jurisdiction and venue are based, a statement of the manner in which the petitioner is aggrieved, and the ground or grounds specified in 2-4-704(2) upon which the petitioner contends to be entitled to relief. The petition must demand

the relief to which the petitioner believes the petitioner is entitled, and the demand for relief may be in the alternative.

- (c) If a petition for review is filed pursuant to 33-16-1012(2)(c), the workers' compensation court, rather than the district court, has jurisdiction and the provisions of this part apply to the workers' compensation court in the same manner as the provisions of this part apply to the district court.
- (d) If a petition for review is filed challenging a licensing or permitting decision made pursuant to Title 75 or Title 82, the petition for review must be filed in the county where the facility is located or proposed to be located or where the action is proposed to occur.
- (3) Unless otherwise provided by statute, the filing of the petition may not stay enforcement of the agency's decision. The agency may grant or the reviewing court may order a stay upon terms that it considers proper, following notice to the affected parties and an opportunity for hearing. A stay may be issued without notice only if the provisions of 27-19-315 through 27-19-317 are met.
- (4) Within 30 days after the service of the petition or within further time allowed by the court, the agency shall transmit to the reviewing court the original or a certified copy of the entire record of the proceeding under review. By stipulation of all parties to the review proceedings, the record may be shortened. A party unreasonably refusing to stipulate to limit the record may be required by the court to pay the additional costs. The court may require or permit subsequent corrections or additions to the record."

- (b) Except as provided in subsection (2)(e), the owner or operator of an oil or gas well facility shall file the permit application with the department no later than January 3, 2006, or 60 days after the initial well completion date, whichever is later. For purposes of this section, the initial well completion date for an oil or gas well facility is:
- (i) for an oil or gas well facility producing oil, the date when the first oil is produced through wellhead equipment into lease tanks from the ultimate producing interval after casing has been run; and

Additional 30-day extensions may be granted by the department upon the request of the applicant. Notification of approval or denial may be served personally or by certified mail on the applicant or the applicant's agent.

- (i) the person requesting the stay is entitled to the relief demanded in the request for a hearing; or
- (ii) continuation of the permit during the appeal would produce great or irreparable injury to the person requesting the stay.
- (c) Upon upon granting a stay, the board may require a written undertaking to be given by the party requesting the stay for the payment of costs and damages incurred by the permit applicant and its employees if the board determines that the permit was properly issued. When requiring an undertaking, the board shall use the same procedures and limitations as are provided in 27-19-306(2) through (4) for undertakings on injunctions.

- (d) prescribe the form and contents of preliminary plats and the documents to accompany final plats;
- (e) provide for the identification of areas that, because of natural or human-caused hazards, are unsuitable for subdivision development. The regulations must prohibit subdivisions in these areas unless the hazards can be eliminated or overcome by approved construction techniques or other mitigation measures authorized under 76-3-608(4) and (5). Approved construction techniques or other mitigation measures may not include building regulations as defined in 50-60-101 other than those identified by the department of labor and industry as provided in 50-60-901.

- (B) the water rights are removed or the process has been initiated to remove the water rights from the subdivided land through an appropriate legal or administrative process and if the removal or intended removal is denoted on the preliminary plat. If removal of water rights is not complete upon filing of the final plat, the subdivider shall provide written notification to prospective buyers of the intent to remove the water right and shall document that intent, when applicable, in agreements and legal documents for related sales transactions.
- (l) require the subdivider, unless otherwise provided for under separate written agreement or filed easement, to file and record ditch easements for unobstructed use and maintenance of existing water delivery ditches, pipelines, and facilities in the subdivision that are necessary to convey water through the subdivision to lands adjacent to or beyond the subdivision boundaries in quantities and in a manner that are consistent with historic and legal rights;
- (m) require the subdivider to describe, dimension, and show public utility easements in the subdivision on the final plat in their true and correct location. The public utility easements must be of sufficient width to allow the physical placement and unobstructed maintenance of public utility facilities for the provision of public utility services within the subdivision.
- (n) establish whether the governing body, its authorized agent or agency, or both will hold public hearings;
- (o) establish procedures describing how the governing body or its agent or agency will address information presented at the hearing or hearings held pursuant to 76-3-605 and 76-3-615;
- (p) establish criteria that the governing body or reviewing authority will use to determine whether a proposed method of disposition using the exemptions

provided in 76-3-201 or 76-3-207 is an attempt to evade the requirements of this chapter. The regulations must provide for an appeals process to the governing body if the reviewing authority is not the governing body.

- (q) establish a preapplication process that:
- (i) requires a subdivider to meet with the *authorized* agent or agency, other than the governing body, that is designated by the governing body to review subdivision applications prior to the subdivider submitting the application;
- (ii) requires, for informational purposes only, identification of the state laws, local regulations, and growth policy provisions, if a growth policy has been adopted, that may apply to the subdivision review process;
- (iii) requires a list to be made available to the subdivider of the public utilities, those agencies of local, state, and federal government, and any other entities that may be contacted for comment on the subdivision application and the timeframes that the public utilities, agencies, and other entities are given to respond. If, during the review of the application, the agent or agency designated by the governing body contacts a public utility, agency, or other entity that was not included on the list originally made available to the subdivider, the agent or agency shall notify the subdivider of the contact and the timeframe for response.
- (iv) requires that a preapplication meeting take place no more than 30 days from the date that the *authorized* agent or agency receives a written request for a preapplication meeting from the subdivider; and
- (v) establishes a time limit after a preapplication meeting by which an application must be submitted as provided in 76-3-604;
- (r) requires that the written decision required by 76-3-620 must be provided to the applicant within 30 working days following a decision by the governing body to approve, conditionally approve, or deny a subdivision.
- (2) In order to accomplish the purposes described in 76-3-501, the subdivision regulations adopted under 76-3-509 and this section may include provisions that are consistent with this section that promote cluster development.
- (3) The governing body may establish deadlines for submittal of subdivision applications."
  - **Section 14.** Section 76-3-506, MCA, is amended to read:
- "76-3-506. Provision for granting variances. (1) Subdivision regulations may authorize the governing body, after a public hearing on the variance request before the governing body or its designated agent or agency, to grant variances from the regulations when strict compliance will result in undue hardship and when it is not essential to the public welfare.
- (2) Any variance granted pursuant to this section must be based on specific variance criteria contained in the subdivision regulations.
- (3) A minor subdivision as provided for in 76-3-609(2) is not subject to the public hearing requirement of this section."
  - Section 15. Section 76-3-507, MCA, is amended to read:
- "76-3-507. Provision for bonding security requirements to ensure construction of public improvements. (1) Except as provided in subsection subsections (2) and (4), the governing body shall require the subdivider to complete required improvements within the *proposed* subdivision prior to the approval of the final plat.

- (2) (a) In lieu of the completion of the construction of any public improvements prior to the approval of a final plat, the governing body shall at the subdivider's option allow the subdivider to provide or cause to be provided a bond or other reasonable security, in an amount and with surety and conditions satisfactory to the governing body, providing for and securing the construction and installation of the improvements within a period specified by the governing body and expressed in the bonds or other security. The governing body shall reduce bond *or security* requirements commensurate with the completion of improvements.
- (b) In lieu of requiring a bond or other means of security for the construction or installation of all the required public improvements under subsection (2)(a), the governing body may approve an incremental payment or guarantee plan. The improvements in a prior increment must be completed or the payment or guarantee of payment for the costs of the improvements incurred in a prior increment must be satisfied before development of future increments.
- (3) Approval by the governing body of a final plat prior to the completion of required improvements and without the provision of the security required under subsection (2) is not an act of a legislative body for the purposes of 2-9-111.
- (4) The governing body may require a percentage of improvements or specific types of improvements necessary to protect public health and safety to be completed before allowing bonding or other reasonable security under subsection (2)(a) for purposes of filing a final plat. The requirement is applicable to approved preliminary plats."

**Section 16.** Section 76-3-510, MCA, is amended to read:

- "76-3-510. Payment for extension of capital facilities. (1) A local government may require a subdivider to pay or guarantee payment for part or all of the costs of extending capital facilities related to public health and safety, including but not limited to public roads, sewer lines, water supply lines, and storm drains to a subdivision. The costs must reasonably reflect the expected impacts directly attributable to the subdivision. A local government may not require a subdivider to pay or guarantee payment for part or all of the costs of constructing or extending capital facilities related to education.
- (2) All fees, costs, or other money paid by a subdivider under this section must be expended on the capital facilities for which the payments were required."

- **"76-3-608.** Criteria for local government review. (1) The basis for the governing body's decision to approve, conditionally approve, or deny a proposed subdivision is whether the subdivision application, preliminary plat, applicable environmental assessment, public hearing, planning board recommendations, or additional information demonstrates that development of the proposed subdivision meets the requirements of this chapter. - (2) The governing body shall issue written findings of fact that weigh the criteria in subsection (3), as applicable.
- (3) A subdivision proposal must undergo review for the following primary criteria:
- (a) except when the governing body has established an exemption pursuant to subsection (6) of this section or except as provided in 76-3-509, 76-3-609(2) or (4), or 76-3-616, the impact on agriculture, agricultural water user facilities,

- (d) the provision of legal and physical access to each parcel within the proposed subdivision and the required notation of that access on the applicable plat and any instrument of transfer concerning the parcel.
- (4) The governing body may require the subdivider to design the proposed subdivision to reasonably minimize potentially significant adverse impacts identified through the review required under subsection (3). The governing body shall issue written findings to justify the reasonable mitigation required under this subsection (4).
- (5) (a) In reviewing a proposed subdivision under subsection (3) and when requiring mitigation under subsection (4), a governing body may not unreasonably restrict a landowner's ability to develop land, but it is recognized that in some instances the unmitigated impacts of a proposed development may be unacceptable and will preclude approval of the subdivision.
- (b) When requiring mitigation under subsection (4), a governing body shall consult with the subdivider and shall give due weight and consideration to the expressed preference of the subdivider.
- (6) The governing body may exempt proposed subdivisions that are entirely within the boundaries of designated geographic areas from the review criteria in subsection (3)(a) if all of the following requirements have been met:

  - (i) addresses the criteria in subsection (3)(a);
  - (ii) evaluates the impact of development on the criteria in subsection (3)(a);
- (iii) describes zoning regulations that will be implemented to address the criteria in subsection (3)(a); and
- (iv) identifies one or more geographic areas where the governing body intends to authorize an exemption from review of the criteria in subsection (3)(a); and
- (b) the governing body has adopted zoning regulations pursuant to chapter 2, part 2 or 3, that:
  - (i) apply to the entire area subject to the exemption; and
  - (ii) address the criteria in subsection (3)(a), as described in the growth policy.
- (7)(6) A governing body may conditionally approve or deny a proposed subdivision as a result of the water and sanitation information provided pursuant to 76-3-622 or public comment received pursuant to 76-3-604 on the information provided pursuant to 76-3-622 only if the conditional approval or denial is based on existing subdivision, zoning, or other regulations that the governing body has the authority to enforce."

- (2) If the tract of record proposed to be subdivided has not been subdivided or created by a subdivision under this chapter or has not resulted from a tract of record that has had more than five parcels created from that tract of record under 76-3-201 or 76-3-207 since July 1, 1973, then the proposed subdivision is a first minor subdivision from a tract of record and, when legal and physical access to all lots is provided, must be reviewed as follows:
- (a) Except as provided in subsection (2)(b), the governing body shall approve, conditionally approve, or deny the first minor subdivision from a tract of record within 35 working days of a determination by the reviewing agent or agency that the application contains required elements and sufficient information for review. - (4) If sufficient funds are available, this section constitutes a valid obligation of funds to the grant recipients listed in subsection (3) for purposes of encumbering the treasure state endowment state special revenue account funds during the 2011 biennium pursuant to 17-7-302. However, a grant recipient's entitlement to receive funds is dependent on the grant recipient's compliance with the conditions described in [section 3(1)] and on the availability of funds.
- (5) Funding for projects numbered 1 through 33 in subsection (3) will be provided only so long as there are sufficient funds available from the amount that was deposited into the treasure state endowment state special revenue account during the biennium ending June 30, 2011. Funding for these projects

- will be made available in the order that the grant recipients satisfy the conditions described in [section 3(1)]. Once all funds appropriated in subsection (1) for the biennium are totally committed to projects numbered 1 through 33 in subsection (3) that have satisfied the conditions described in [section 3(1)], the obligation to any remaining projects will cease.
- (6) Projects numbered 34 through 66 listed in subsection (3) may receive grant funds in the order that the grant recipients satisfy the conditions described in [section 3(1)] only so long as there are sufficient funds from the amount appropriated in subsection (1). Once all funds appropriated in subsection (1) are totally committed to projects numbered 34 through 66 in subsection (3) that have satisfied the conditions described in [section 3(1)], the obligation to remaining projects will cease. If funds appropriated in subsection (1) are insufficient to fund any of the projects that have satisfied the conditions described in [section 3(1)] prior to June 30, 2011, the treasure state endowment program shall fund the projects by borrowing money from the board of investments pursuant to 90-6-701(1)(b). There is appropriated to the department of commerce up to \$6,512,000 of funds borrowed from the board of investments.
- (7) In the event that any remaining funds deposited into the treasure state endowment state special revenue account during the 2011 biennium are insufficient to fully fund any one of the grant recipients listed in subsection (3), the department may make the remaining funds available to the first grant recipient that has satisfied the conditions described in [section 3(1)] and that is able to firmly commit the balance of the amount necessary to fund the project in its entirety.
- (8) Grant recipients shall complete all of the conditions described in [section 3(1)] by December 31, 2012, or the grant contract will be terminated.
- Section 2. Approval of grants completion of biennial appropriation. (1) The legislature, pursuant to 90-6-701, authorizes grants for the projects identified in [section 1(3)].
- (2) The authorization of these grants completes a biennial appropriation from the treasure state endowment special revenue account provided for in 17-5-703(3)(c).
- Section 3. Conditions of grants disbursement of funds. (1) The disbursement of grant funds under [sections 1 through 3] for the projects specified in [section 1(3)] is subject to completion of the following conditions:
- (a) The grant recipient shall execute a grant agreement with the department of commerce.
- (b) The grant recipient shall document that other matching funds required for completion of the project are firmly committed.
- (c) The grant recipient must have a project management plan that is approved by the department.
- (d) The grant recipient must be in compliance with the auditing and reporting requirements provided for in 2-7-503 and have established a financial accounting system that the department can reasonably ensure conforms to generally accepted accounting principles. Tribal governments shall comply with auditing and reporting requirements provided for in OMB Circular A-133.
- (e) The grant recipient shall satisfactorily comply with any conditions described in the application (project) summaries section of the treasure state endowment program 2011 biennium report to the 61st legislature.

- (f) The grant recipient shall satisfy other specific requirements considered necessary by the department to accomplish the purpose of the project as evidenced by the application to the department.
- (2) With the exception of bridges, all projects must adhere to the design standards required by the department of environmental quality. - (3) Recipients of treasure state endowment program funds are subject to the requirements of the department of commerce as described in the most recent edition of the treasure state endowment program project administration manual, adopted by the department through the administrative rulemaking process.
- Section 4. Other powers and duties of department. (1) The department of commerce shall disburse grant funds on a reimbursement basis as grant recipients incur eligible project expenses.
- (2) If actual project expenses are lower than the projected expense of the project, the department may, at its discretion:
- (a) reduce the amount of grant funds to be provided to grant recipients in proportion to all other project funding sources;
- (b) authorize the use of the remaining authorized grant amounts for the construction of additional infrastructure components directly related to the approved project that will further enhance the overall system; or
- (c) reduce the amount of grant funds to be provided so that the grant recipient's projected average residential user rates do not become lower than their target rate as determined by the department.
- (3) If the grant recipient obtains a greater amount of grant funds than was contained in the treasure state endowment program application, the department may reduce the amount of the treasure state endowment program grant funds to be provided to ensure that the grant recipient continues to meet the threshold requirements contained in program guidelines for receiving the larger treasure state endowment program grant.
- Section 5. Appropriations from treasure state endowment state special revenue account for emergency grants. Be it enacted by the Legislature of the State of Montana:

**Section 1.** Section 17-2-107, MCA, is amended to read:

- "17-2-107. Accurate accounting records and interentity loans. (1) The department shall record receipts and disbursements for treasury funds and for accounting entities within treasury funds and shall maintain records in a manner that reflects the total cash and invested balance of each fund and each accounting entity. The department shall adopt the necessary procedures to ensure that interdepartmental or intradepartmental transfers of money or loans do not result in inflation of figures reflecting total governmental costs and revenue.
- (2) (a) Subject Except as provided in 77-1-108 and subject to 17-2-105, when the expenditure of an appropriation from a fund designated in 17-2-102(1) through (3) is necessary and the cash balance in the accounting entity from which the appropriation was made is insufficient, the department may authorize a temporary loan, bearing no interest, of unrestricted money from other accounting entities if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. An accounting entity receiving a loan or an accounting entity from which a loan is made may not be so impaired that all proper demands on the accounting entity cannot be met even if the loan is extended.
- (b) (i) When an expenditure from a fund or subfund designated in 17-2-102(4) is necessary and the cash balance in the fund or subfund from which the expenditure is to be made is insufficient, the commissioner of higher education may authorize a temporary loan, bearing interest as provided in

subsection (4) of this section, of money from the agency's other funds or subfunds if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. A fund or subfund receiving a loan or from which a loan is made may not be so impaired that all proper demands on the fund or subfund cannot be met even if the loan is extended.

- (ii) One accounting entity within each fund or subfund designated in 17-2-102(4) must be established for the sole purpose of recording loans between the funds or subfunds. This accounting entity is the only accounting entity within each fund or subfund that may receive a loan or from which a loan may be made.
- (c) A loan made under subsection (2)(a) or (2)(b) must be repaid within 1 calendar year of the date on which the loan is approved unless it is extended under subsection (3) or by specific legislative authorization.
- (3) Under unusual circumstances, the director of the department or the board of regents may grant one extension for up to 1 year for a loan made under subsection (2)(a) or (2)(b). The director or board shall prepare a written justification and proposed repayment plan for each loan extension authorized and shall furnish a copy of the written justification and proposed repayment plan to the house appropriations and senate finance and claims committees at the next legislative session.
- (4) Any loan from the current unrestricted subfund to funds designated in 17-2-102(4)(a)(iv) and (4)(b) through (4)(f) must bear interest at a rate equivalent to the previous fiscal year's average rate of return on the board of investments' short-term investment pool.
- (5) If for 2 consecutive fiscal yearends a loan or an extension of a loan has been authorized to the same accounting entity as provided in subsection (2) or (3), the department or the commissioner of higher education shall submit to the legislative finance committee by September 1 of the following fiscal year a written report containing an explanation as to why the second loan or extension was made, an analysis of the solvency of the accounting entity or accounting entities within the university fund or subfund, and a plan for repaying the loans.
- (6) If for 2 consecutive fiscal yearends an accounting entity in a fund or subfund designated in 17-2-102(4) has a negative cash balance, the commissioner of higher education shall submit to the legislative finance committee by September 1 of the following fiscal year a written report containing an explanation as to why the accounting entity has a negative cash balance, an analysis of the solvency of the accounting entity, and a plan to address any problems concerning the accounting entity's negative cash balance or solvency.
- (7) (a) An accounting entity in a fund designated in 17-2-102(1) through (3) may not have a negative cash balance at fiscal yearend. The department may, however, allow a fund type within each agency to carry a negative balance at any point during the fiscal year if the negative cash balance does not exist for more than 7 working days.
- (b) (i) Except as provided in subsection (7)(b)(ii) of this section, a unit of the university system shall maintain a positive cash balance in the funds and subfunds designated in 17-2-102(4).
- (ii) If a fund or subfund inadvertently has a negative cash balance, the department may allow the fund or subfund to carry the negative cash balance for no more than 7 working days. If the negative cash balance exists for more

than 7 working days, a transaction may not be processed through the statewide accounting system for that fund or subfund.

- (8) Notwithstanding the provisions of subsections (2) through (4), the department may authorize loans to accounting entities in the federal and state special revenue funds with long-term repayment whenever necessary because of the timing of the receipt of agreed-upon reimbursements from federal, private, or other governmental entity sources for disbursements made. If possible, the loans must be made from funds other than the general fund. The department may approve the loans if the requesting agency can demonstrate that the total loan balance does not exceed total receivables from federal, private, or other governmental entity sources and receivables have been billed on a timely basis. The loan must be repaid under terms and conditions that may be determined by the department or by specific legislative authorization.
- (9) A loan may not be authorized under this section to any fund or accounting entity that is owed federal or other third-party funds unless the requesting agency certifies to the agency approving the loan that it has and will continue to bill the federal government or other third party for the requesting agency's share of costs incurred in the fund or accounting entity on the earliest date allowable under federal or other third-party regulations applicable to the program. The requesting agency shall recertify its timely billing status to the agency that approved the loan at least monthly during the term of the loan. If at any time the requesting agency fails to recertify the timely billing, the agency that approved the loan shall cancel the loan and return the money to its original source."

**Section 2.** Section 17-3-1003, MCA, is amended to read:

- "17-3-1003. Support of state institutions. This excludes revenue generated by the forest improvement fee provided for in 77-5-204 other than the fund containing proceeds derived from land granted to the state pursuant to the Morrill Act of 1862, 7 U.S.C. 301 through 308, and the Morrill Act of 1890, 7 U.S.C. 321 through 329, on the first day of January preceding the new biennium and 10% of the revenue deposited in the capitol building land grant trust fund in the last-completed fiscal year prior to the new biennium.

- (c) If revenue deposited from a specific land trust is insufficient to defray the administrative costs associated with managing that land trust and the money held for that trust in the earnings reserve account, established in [section 23], is also insufficient, the board may receive a general fund loan pursuant to 17-2-107 to offset the difference. A general fund loan made pursuant to this subsection

- (3)(c) must be repaid within 5 years and must bear interest at a rate of return equal to that earned by the board of investments' short-term investment pool during that period.
- (3)(4) (a) Except as provided in subsection (4) subsections (4)(b) and (5), up to one-third of the unreserved distributable revenue funds remaining in the account at the end of a fiscal year must may be transferred to the earnings reserve account, provided for in [section 23], and accounted for by trust. Any unexpended portion of the statutory appropriation may be retained in the account and used for the administration of the Morrill Act land.
- (b) At the end of each fiscal year, the department shall pay from the appropriation in subsection (4) (5)(a) to the trust containing proceeds derived from land granted to the state pursuant to the Morrill Act of 1862, 7 U.S.C. 301 through 308, and the Morrill Act of 1890, 7 U.S.C. 321 through 329, an amount calculated to be the cost of administering the investment of the fund derived from that trust. The payment must be based upon the percentage that the Morrill Act fund constitutes of the total fund derived from all trust lands. If the appropriation in subsection (5)(a) is insufficient to pay the calculated administrative cost, a general fund loan may be used pursuant to 17-2-107 to offset the difference."

more than \$3,560, as adjusted under the provisions of subsection (6), and married individuals not filing separate returns and having a combined gross income for the tax year of more than \$7,120, as adjusted under the provisions of subsection (6), are liable for a return to be filed on forms and according to rules that the department may prescribe. The gross income amounts referred to in the preceding sentence this subsection (1) must be increased by \$1,900, as adjusted under the provisions of 15-30-112(6), for each additional personal exemption allowance that the taxpayer is entitled to claim for the taxpayer and the taxpayer's spouse under 15-30-112(3) and (4).

- (2) In accordance with instructions set forth by the department, each taxpayer who is married and living with *a* husband or wife and is required to file a return may, at the taxpayer's option, file a joint return with *the* husband or wife even though one of the spouses has neither gross income nor deductions. If a joint return is made, the tax must be computed on the aggregate taxable income and, *subject to [section 1]*, the liability with respect to the tax is joint and several. If a joint return has been filed for a tax year, the spouses may not file separate returns after the time for filing the return of either has expired unless the department consents.
- (3) If a taxpayer is unable to make the taxpayer's own return, the return must be made by an authorized agent or by a guardian or other person charged with the care of the person or property of the taxpayer.

However, the tax computed must be greater by \$1 than the amount withheld and paid by estimated return as provided in this chapter. If the amount of tax withheld and the payment of estimated tax exceed by more than \$1 the amount of income tax as computed, the taxpayer is entitled to a refund of the excess.

- (6) By November 1 of each year, the department shall multiply the minimum amount of gross income necessitating the filing of a return by the inflation factor for the tax year. These adjusted amounts are effective for that tax year, and persons who have gross incomes less than these adjusted amounts are not required to file a return.
- (7) Individual income tax forms distributed by the department for each tax year must contain instructions and tables based on the adjusted base year structure for that tax year."

**Section 5.** Section 15-30-144, MCA, is amended to read:

"15-30-144. Time for filing — extensions of time. (1) A return must be made to the department on or before the 15th day of the 4th month following the close of the taxpayer's fiscal year, or if the return is made on the basis of the calendar year, then the return must be made on or before the 15th day of April following the close of the calendar year. Each return must set forth those facts that the department considers necessary for the proper enforcement of this chapter. There must be annexed attached to the return the affidavit or

affirmation of the persons making the return to the effect that the statements contained in the return are true. Blank forms of return must be furnished by the department upon application, but failure to secure the form does not relieve any taxpayer of the obligation to make any return required under this chapter. Each taxpayer liable for a tax under this chapter shall pay a minimum tax of \$1.

- (2) An automatic 4-month extension of time for filing a return is allowed, provided that:
- (a) on or before the due date of the return, the taxpayer has applied with the internal revenue service for a 4-month extension of time for filing the taxpayer's federal individual income tax return for the same tax year. - (b) the taxpayer has paid by estimated tax payments, withholding tax, or a combination of estimated tax payments and withholding tax 90% of the current year's tax liability or 100% of the previous year's tax liability.
- (3) An additional 2-month extension of time for filing a return is automatically allowed provided that the taxpayer has applied with the internal revenue service for an additional 2-month extension of time for filing the taxpayer's federal individual income tax return for the same tax year and has satisfied the requirements of subsection (2)(b).
- (2) (a) Subject to subsections (2)(b) and (2)(c), a taxpayer is allowed an automatic extension of time for filing the taxpayer's return of up to 6 months following the date prescribed for filing of the tax return.
- (b) On or before the due date of the return, the taxpayer shall pay by estimated tax payments, withholding tax, or a combination of estimated tax payments and withholding tax 90% of the current year's tax liability or 100% of the previous year's tax liability.
- (c) The remaining tax, penalty, and interest of the current year's tax liability not paid under subsection (2)(b) must be paid when the return is filed. Penalty and interest must be added to the tax due as provided in 15-1-216.
- (3) The department may grant an additional extension of time for the filing of a return whenever in its judgment good cause exists.
- (4) The extension of time for filing a return is not an extension of time for the payment of taxes."

**Section 6.** Section 15-30-146, MCA, is amended to read:

"15-30-146. Tolling of statute of limitations. The running of the statute of limitations provided for under 15-30-145 shall must be suspended during any period that the federal statute of limitations for collection of federal income tax has been suspended by written agreement signed by the taxpayer or when the taxpayer has instituted an action which that has the effect of suspending the running of the federal statute of limitations and for 1 additional year. If the taxpayer fails to file a record of changes in federal taxable income or an amended Montana return as required by 15-30-304, the statute of limitations shall does not apply until 5 years from the date the federal changes become final or the amended federal return was filed. If the taxpayer omits from gross income an amount properly includable therein which as gross income and the amount is in excess of 25% of the amount of adjusted gross income stated in the return, the statute of limitations shall does not apply for 2 additional years from the time specified in 15-30-145."

**Section 7.** Section 15-30-149, MCA, is amended to read:

- "15-30-149. Credits and refunds period of limitations. (1) If the department discovers from the examination of a return or upon a claim filed by a taxpayer or upon final judgment of a court that the amount of income tax collected is in excess of the amount due or that any penalty or interest was erroneously or illegally collected, the amount of the overpayment must be credited against any income tax, penalty, or interest then due from the taxpayer and the balance of the excess must be refunded to the taxpayer.
- (2) (a) A credit or refund under the provisions of this section may be allowed only if, prior to the expiration of the period provided by 15-30-146 and 15-30-147, the taxpayer files a claim or the department determines there has been an overpayment.
- (b) If an overpayment of tax results from a net operating loss carryback, the overpayment may be refunded or credited within the period that expires on the 15th day of the 40th month following the close of the tax year of the net operating loss if that period expires later than 5 years from the due date of the return for the year to which the net operating loss is carried back.
- (3) Within 6 months after a claim for refund is filed, the department shall examine the claim and either approve or disapprove it. If the claim is approved, the credit or refund must be made to the taxpayer within 60 days after the claim is approved. If the claim is disallowed, the department shall notify the taxpayer and a review of the determination of the department may be pursued as provided in 15-1-211.
- (4) (a) Interest is allowed on overpayments at the same rate as charged on delinquent taxes as provided in 15-1-216. Interest Except as provided in subsection (4)(b), interest is payable from the due date of the return or from the date of the overpayment, whichever date is later, to the date the department approves refunding or crediting of the overpayment. With respect to tax paid by withholding or by estimate estimated tax payments, the date of overpayment is the date on which the return for the tax year was due. Interest does not accrue on an overpayment if the taxpayer elects to have it applied to the taxpayer's estimated tax for the succeeding taxable tax year. Interest does not accrue during any period for which the processing of a claim for refund is delayed more than 30 days by reason of failure of the taxpayer to furnish information requested by the department for the purpose of verifying the amount of the overpayment. Interest is not allowed if:
- (a)(i) the overpayment is refunded within 45 days from the date the return is due or the date the return is filed, whichever date is later;
  - (b)(ii) the overpayment results from the carryback of a net operating loss; or
  - (e)(iii) the amount of interest is less than \$1.
- (b) Subject to the provisions of subsection (4)(a)(i), if the return is filed after the time prescribed for filing in 15-30-144, including any extension, interest is payable from the date the return was filed.
- (5) An overpayment not made incident to a bona fide and orderly discharge of an actual income tax liability or one reasonably assumed to be imposed by this law is not considered an overpayment with respect to which interest is allowable."
- **Section 8. Codification instruction.** [Section 1] is intended to be codified as an integral part of Title 15, chapter 30, part 3, and the provisions of Title 15, chapter 30, part 3, apply to [section 1].

## CHAPTER NO. 472

[SB 465]

AN ACT REVISING AND CLARIFYING THE LAWS RELATED TO THE TREATMENT OF PROPERTY CONSISTING OF THE BED OF NAVIGABLE RIVERS AND STREAMS; PROVIDING FOR A REDUCTION FROM GRAZING LAND BEFORE A REDUCTION FROM CURRENT LAND USE FOR PROPERTY TAX PURPOSES; PROVIDING THAT IN A DISPUTE OVER THE OWNERSHIP OF THE BED OF A RIVER OR STREAM A PRESUMPTION MAY NOT BE MADE BASED UPON THE TAX STATUS OF THE PROPERTY; CLARIFYING THE OWNERSHIP OF STRUCTURES; CLARIFYING THE ABILITY TO CONTROL NOXIOUS WEEDS; AMENDING

SECTIONS 61-8-371, 77-1-111, 77-1-126, 77-1-127, 77-1-806, 77-1-809, 77-3-442, 77-6-113, 77-6-115, 77-6-302, 77-6-303, AND 77-6-501, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

WHEREAS, the Department of Natural Resources and Conservation has asserted regulatory jurisdiction over the beds of various rivers and streams based on the premise that the streams are navigable and that the state therefore owns the riverbeds and streambeds; and

WHEREAS, very few Montana rivers or streams have been adjudicated as navigable, either in whole or in part; and

WHEREAS, it is not economically feasible for either the Department of Revenue or the Department of Natural Resources and Conservation to obtain judicial determinations of riverbed or streambed ownership by statewide quiet title actions, yet that ownership determination may not be made legally by unilateral administrative decisions; and

WHEREAS, if the Department of Natural Resources and Conservation wishes to assert regulatory control over the bed of a river or stream that has not been adjudicated to be navigable and was not determined navigable at the time of the original federal government surveys of the public land as evidenced by the recorded and monumented surveys of the meander lines of the river, it is required to provide written notice of the claim of state ownership to the affected property owners; and

WHEREAS, because the present claims of state ownership of riverbeds and streambeds is contrary to longstanding administrative practice and because the test for navigability depends upon evidence concerning the log floating capability of a stream at the time of statehood, there is no presumption of correctness attached to a navigability claim made by any state agency.

Be it enacted by the Legislature of the State of Montana:

#### **Section 1. Findings.** The legislature finds that:

- (1) for 120 years since the admission of Montana as a state in 1889, the department of revenue and its predecessor agencies have taxed some landowners whose property abuts a river or stream on the assumption that those riparian landowners owned the property to the middle of the river or stream:
- (2) in Montana v. United States, 450 U.S. 544 (1981), the United States supreme court recognized that if a river or stream is not navigable, the abutting riparian landowners own the land in the bed of the stream to the middle of the stream, but if a river or stream is navigable, the state owns the bed of the river or stream, having acquired ownership from the United States when the state was admitted to the union, and therefore Montana owns the bed of the Bighorn River where it flows through the Crow reservation;
- (3) for the purpose of determining the ownership of a riverbed or streambed, the test of navigability is whether logs could be floated in the stream at the time of statehood as stated in Montana Coalition for Stream Access v. Curran, 210 Mont. 38, 682 P.2d 163 (1984), based upon The Montello, 87 U.S. 430 (1874), Sierra Pacific Power Co. v. Federal Energy Regulatory Commission, 681 F.2d 1134 (9th Cir. 1982), and State of Oregon v. Riverfront Protection Association, 672 F.2d 792 (9th Cir. 1982);
- (4) beginning with tax assessments that were effective January 1, 2008, the lien date for real property taxes, the department of revenue reassessed the property of riparian landowners whose land abuts various rivers and streams by

reducing the amount of land assessed based upon the premise that the landowners did not own to the middle of the river or stream because the river or stream was navigable and these reassessments, if correct, have enormous impact upon the riparian landowners because they affect land titles, acreage owned, qualification for various conservation and price support programs, and ownership of water diversion facilities and other structures that the riparian landowners have constructed for water usage;

- (5) the 2008 reassessments were made by simply sending out tax bills without any notice that they were based upon a claim of state ownership of the riverbeds or streambeds and some riparian landowners have paid the first installment of 2008 real property taxes based upon the reassessments without realizing that a claim of state ownership of the riverbeds and streambeds was the basis for the reassessments;
- (6) procedural due process requires that if a claim of change in ownership is involved, the state agency involved shall afford the affected property owners both notice of the claim and the opportunity to be heard;
- (7) the 2008 real property tax assessments based upon claims of state ownership did not comply with the constitutional requirement for procedural due process and under that circumstance payment by the property owners of taxes based on the reassessment does not constitute acquiesence in the underlying state ownership claim;
- (8) The department of revenue is required to provide written notice to the affected property owners of the state's claim of ownership so that the affected property owners have a fair opportunity to be heard and to dispute the government's claim.
- Section 2. Adjustment of taxes for formerly taxed property presumption of taxability. (1) If the department reduces the amount of taxable property owned by a person or entity because of a determination that the property consists of the bed of a navigable river or stream, the department shall, as applicable, reduce the amount of tract land that is taxable or grazing land that is taxable before reducing the amount of irrigated land or nonirrigated land that is taxable.
- (2) In the absence of adjudication by a court of competent jurisdiction of the ownership of the bed of any river or stream, it is the policy of the state that the department shall assess all land that is part of the bed and banks of a river or stream to the owner of record of the property.
- (3) The department shall notify landowners of their right to request and shall provide upon request a revised assessment for tax year 2008 for the bed of any stream:
  - (a) not adjudicated to be navigable by a court of competent jurisdiction; or
- (b) not determined navigable at the time of the original federal government surveys of the public land as evidenced by the recorded and monumented surveys of the meander lines of the river.
- **Section 3.** No presumption from tax status of property. In a dispute over the title to the bed of a river or stream, a presumption may not be made based upon whether the department of revenue considers the property to be taxable or nontaxable.
- Section 4. Irrigation structures, utility structures, and bridges of formerly taxable land water rights. (1) If an irrigation structure, a utility structure, or a bridge was placed on land that consists of the bed of a navigable

river or stream, the irrigation structure, utility structure, or bridge remains the property of the original owner or the original owner's successors in interest or assignees. Access to the irrigation structures, utility structures, and bridges described in this section for the purposes of operation, maintenance, repair, enhancement, or improvement may not be impeded by the state.

(2) The change of designation of the bed of a navigable river or stream from a taxable to a nontaxable status may not interfere with or impede the exercise of a water right, including a livestock watering right for which a claim was not required to be filed pursuant to 85-2-212 and 85-2-222.

**Section 5.** Section 61-8-371, MCA, is amended to read:

- "61-8-371. Operation of motor vehicle or off-highway vehicle below high-water mark on certain state or federal lands prohibited exceptions. (1) Except as provided in 77-1-111(3), 77-1-806(4), and subsections (2) and (3) of this section, a person may not operate a motor vehicle or an off-highway vehicle below the ordinary high-water mark, as defined in 23-2-301, of class I or class II waters, as defined in 23-2-301, that occurs on state or federal lands or below the ordinary high-water mark of class I waters flowing through private lands, within that portion of the streambed that is covered with water.
- (2) A motor vehicle or an off-highway vehicle may be operated below the ordinary high-water mark on state or federal lands on an established road or trail that enters or crosses a stream, but the stream crossing must be by the shortest practical or designated route to the road or trail on the opposite bank.
  - (3) The prohibition in subsection (1) does not apply to:
- (a) off-highway or motor vehicle use that occurs on state or federal land that is designated for off-highway or motor vehicle use below the ordinary high-water mark if the use is in accordance with the requirements of the authorization:
- (b) off-highway or motor vehicle use conducted on state or federal land pursuant to and in accordance with a specific written authorization from the appropriate land management agency for that use below the ordinary high-water mark; and
- (c) operation of an off-highway vehicle by a nonambulatory person who is using the vehicle for recreational use, as defined in 23-2-301, as long as operation of the vehicle is prudent and minimizes destruction.
- (4) The state may authorize the use of a motor vehicle or off-highway vehicle on state property below the ordinary high-water mark only when the state has determined that the use will have a minimal impact on the streambed and on the fish and wildlife ecology of the stream or river. Federal land management agencies are requested to apply the same criteria when authorizing use of federal land."

# Section 6. Section 77-1-111, MCA, is amended to read:

- **"77-1-111. Be it enacted by the Legislature of the State of Montana:

- **Section 1. Preservation of property rights.** (1) Title 82, chapter 11, parts 1 and 2, and the issuance of a permit for a carbon dioxide injection well pursuant to Title 82, chapter 11, parts 1 and 2, do not:
- (a) prejudice the rights of property owners within a geologic storage reservoir to exercise rights that have not been committed to a storage reservoir; or
- (b) prevent a mineral owner or mineral lessee from drilling through or near a storage reservoir to explore for and develop minerals, provided that the drilling, production, and related activities comply with board requirements that preserve the storage reservoir's integrity and implement Title 82, chapter 11, parts 1 and 2.
  - (2) Title 82, chapter 11, parts 1 and 2, may not be construed to:
- (a) change or alter common law in accordance with 1-1-108 as it relates to the rights belonging to or the dominance of the mineral estate, including but not limited to the right to mine, drill, or recomplete a well, to inject substances to facilitate production, or to implement enhanced recovery for the purposes of recovery of oil, gas, or other minerals;

- (c) change or alter common law or statutory provisions regarding the ownership of surface or subsurface rights;
- (d) diminish, impair, or in any way affect the rights of a natural gas public utility, as defined in 82-10-301, to own, operate, or control a gas storage reservoir in use prior to [the effective date of this section]; or
- (e) apply within the exterior boundaries of any federally recognized Indian reservation within the state of Montana unless the governing body of the tribe adopts a carbon sequestration law and enters into a cooperative agreement with the state.
- (3) If the ownership of the geologic storage reservoir cannot be determined from the deeds or severance documents related to the property by reviewing statutory or common law, it is presumed that the surface owner owns the geologic storage reservoir.
- Section 2. Geologic storage reservoir administrative fee account established. (1) (a) A geologic storage operator shall pay to the board a fee on each ton of carbon dioxide injected for storage for the purpose of carrying out the state's responsibility to monitor and manage geologic storage reservoirs. If a geologic storage operator chooses to indefinitely accept liability pursuant to [section 4(9)(a)], the board shall remit the fee to the operator. If a geologic

storage operator is required to maintain liability pursuant to [section 4(9)(b)], the board may not remit the fee.

- (b) The fee must be in the amount set by board rule.
- (c) The amount must be based on the anticipated actual expenses that the board will incur in monitoring and managing geologic storage reservoirs during their postclosure phases.
- (2) There is a geologic storage reservoir program account in the special revenue fund.
- (3) (a) Each fiscal year there must be deposited in the account the fees collected pursuant to [section 5(2)(b)] and subsection (1) of this section, to be used by the board for monitoring and managing geologic storage reservoirs pursuant to [section 4(6) and (8)].
- (b) Funds received from bonds or other surety as authorized in 82-11-123(1)(f) and [section 4] must be deposited in the account.
- (4) Interest and earnings on the funds in the geologic storage reservoir program account accrue to that account.

(1) Until the certificate of project completion is issued pursuant to [section 4(1)] and title to the stored carbon dioxide and geologic storage reservoir is transferred to the state pursuant to [section 4(8)], the geologic storage operator is liable for the operation and management of the carbon dioxide injection well, the geologic storage reservoir, and the injected or stored carbon dioxide.
- (2) Bond or other surety furnished pursuant to 82-11-123(1)(f) must be adequate to meet the requirements of subsection (1).
- (3) For the purposes of [section 4] and this section, "title" includes title to the geologic storage reservoir and the stored carbon dioxide.
- Section 4. Certificate of completion department of environmental quality participation transfer of liability. (1) Pursuant to subsection (3), after carbon dioxide injections into a reservoir end and upon completion of the certification requirements pursuant to subsections (4) and (5), the board shall issue the geologic storage operator a certificate of project completion.
  - (2) The board:
- (a) shall adopt rules pursuant to 82-11-111 necessary for implementing subsection (4) of this section, including rules for public notice and hearing; and
- (b) may, pursuant to 82-11-111, adopt any other rules necessary for administration of this section.
- (3) The certificate may not be issued until at least 15 years after carbon dioxide injections end.
- (4) Subject to subsection (5), the certificate may be issued only if the geologic storage operator:
- (a) is in full compliance with regulations governing the geologic storage reservoir pursuant to this part;
- (b) shows that the geologic storage reservoir will retain the carbon dioxide stored in it;
- (c) shows that all wells, equipment, and facilities to be used in the postclosure period are in good condition and retain mechanical integrity;

- (d) shows that it has plugged wells, removed equipment and facilities, and completed reclamation work as required by the board;
- (e) shows that the carbon dioxide in the geologic storage reservoir has become stable, which means that it is essentially stationary or chemically combined or, if it is migrating or may migrate, that any migration will not cross the geologic storage reservoir boundary; and
- (f) shows that the geologic storage operator will continue to provide adequate bond or other surety after receiving the certificate of completion for at least 15 years following issuance of the certificate of completion and that the operator continues to accept liability for the geologic storage reservoir and the stored carbon dioxide.
- (5) (a) Prior to issuing a certificate of completion, the board shall solicit, document, consider, and address comments from the department of environmental quality.
- (b) Notwithstanding subsection (5)(a), the board makes the final decision on issuance of the certificate.
- (6) After issuing a certificate of completion, the board shall ensure adequate monitoring by the operator of the wells and reservoir, verifying compliance with subsection (4), for a period of 15 years.
- (7) (a) Following the monitoring and verification required in subsection (6) and subject to subsections (7)(b) and (7)(c), if the geologic storage operator has title to the geologic storage reservoir and the stored carbon dioxide, the geologic storage operator may transfer title to the geologic storage reservoir and to the stored carbon dioxide to the state.
- (b) Prior to a transfer of title, the monitoring pursuant to subsection (6) must show that:
- (i) the reservoir and wells are in full compliance with regulations pursuant to this part; and
- (ii) the reservoir will maintain its structural integrity and will not allow carbon dioxide to move out of one stratum into another or pollute drinking water supplies.
- (c) (i) Prior to a transfer of title, the board shall solicit, document, consider, and address comments from the department of environmental quality.
- (ii) The board shall make a recommendation to the board of land commissioners as to whether title should transfer to the state.

- (9) (a) If the operator does not transfer title to the state pursuant to subsection (7), the operator indefinitely accepts liability, except as provided in subsection (10), for the stored carbon dioxide and the geologic storage reservoir.
- (b) If the operator is found not to be in compliance with subsection (7)(b), the operator retains liability until the operator is able to meet the requirements.
- (10) After receiving a certificate of completion, every 15 years after completing the monitoring and verification required by subsection (6), an operator may petition the board and request to transfer liability to the state and be released from liability pursuant to subsection (8). An operator who petitions the board pursuant to this subsection (10) may not request that the fee required by [section 2(1)] or [section 5(2)(b)] be remitted.

  - (c) explore for oil or gas in a manner that damages the land surface; or
- (d) construct or place any surface facility associated with oil or gas exploration or development.
- (2) The prohibitions in subsection (1) do not preclude the development of geologic storage reservoirs or of oil or gas resources from beneath Makoshika state park through directional drilling or access from property outside the boundaries of the state park provided that the surface resources of the state park are not disturbed.
- (3) The prohibitions listed in subsection (1) do not apply to geologic storage reservoirs or to oil or gas resources within Makoshika state park that are owned by a private person, nor do the prohibitions apply to school trust lands within

the boundaries of the park. The state acknowledges the mineral rights of Dawson County and the state school trust and the private property rights of persons owning private mineral rights within Makoshika state park. The department of fish, wildlife, and parks is directed to conduct negotiations with the owners of mineral rights within Makoshika state park with the purpose of acquiring those rights in the name of the state.

- (3) The rules must provide that the department may revoke a permit if the department finds that the holder of the permit has violated its terms, unless the department also finds that the violation was accidental and unforeseeable and that the holder of the permit corrected the condition resulting in the violation as soon as was reasonably possible.
- (4) The board may adopt rules governing reclamation of sites disturbed by construction, modification, or operation of permitted activities for which a bond is voluntarily filed by a permittee pursuant to 75-5-405, including rules for the establishment of criteria and procedures governing release of the bond or other surety and release of portions of a bond or other surety.

- (3) Except as provided in subsection (5), on lands managed as Makoshika state park, pursuant to Title 23, chapter 1, and under the control of the department of fish, wildlife, and parks, by grant, acquisition, lease, easement, or other means, a person may not:
- (a) drill, construct, convert, or operate an oil or gas well, stratigraphic test well, or core hole;
  - (b) conduct vibroseis, drill a seismic shot hole, or set a surface charge;
  - (c) explore for oil or gas in a manner that damages the land surface; or
- (d) construct or place any surface facility associated with oil or gas exploration or development.

- (4) The prohibitions in subsection (3) do not preclude the development of oil or gas resources from beneath Makoshika state park through directional drilling or access from property outside the boundaries of the state park provided that the surface resources of the state park are not disturbed.
- (5) The prohibitions listed in subsection (3) do not apply to oil or gas resources within Makoshika state park that are owned by a private person, nor do the prohibitions apply to school trust lands within the boundaries of the park. The state acknowledges the mineral rights of Dawson County and the state school trust and the private property rights of persons owning private mineral rights within Makoshika state park. The department of fish, wildlife, and parks is directed to conduct negotiations with the owners of mineral rights within Makoshika state park, with the purpose of acquiring those rights in the name of the state, and to report the results of the negotiations to the legislature no later than January 8, 2001."
  - Section 19. Section 82-11-136, MCA, is amended to read:
- "82-11-136. Expenditure of funds from bonds for plugging wells. (1) The board may accept and expend all funds received by it from bonds for properly plugging dry or abandoned wells as authorized in 82-11-123(5) 82-11-123(1)(e).
- (2) The board may accept and expend all funds received by it from bonds for properly plugging abandoned carbon dioxide injection wells as authorized in 82-11-123(1)(f)."
  - Section 20. Section 82-11-137, MCA, is amended to read:
- "82-11-137. Class II injection well operating fee carbon dioxide injection well operating fee. (1) For the purpose of providing funds for defraying the expenses of operating and enforcing:
- (a) the class II injection well regulatory program, as defined by the federal environmental protection agency or any successor agency, each operator of a class II injection well may be required to pay an annual operating fee not to exceed \$300 per injection well; and
- (b) the carbon dioxide injection well regulatory program, each geologic storage operator of a carbon dioxide injection well may be required to pay an annual operating fee not to exceed \$5,000 per injection well.
- (2) The department shall collect the operating fee at such a time as the established by board may prescribe by rule. All money collected under this section must be forwarded to the state treasurer for deposit in the state special revenue fund and must be used for the purpose prescribed in subsection (1).
- (3) The board shall, by rule adopted pursuant to the provisions of the Montana Administrative Procedure Act, fix the amount of the fee described in subsection (1) and may from time to time reduce or increase the amount thereof of the fee as the expenses chargeable against the state special revenue fund may require. However, the assessment fixed by the board may not exceed the limits prescribed in subsection (1). The amount of the fee must be expressed in dollars."
  - Section 21. Section 82-11-161, MCA, is amended to read:
- "82-11-161. Oil and gas production damage mitigation account statutory appropriation. (1) There is an oil and gas production damage mitigation account within the state special revenue fund established in 17-2-102. The oil and gas production damage mitigation account is controlled by the board.

- (2) At the beginning of each biennium, there must be allocated to the oil and gas production damage mitigation account \$50,000 from the interest income of the resource indemnity trust fund, except that if at the beginning of a biennium the unobligated cash balance in the oil and gas production damage mitigation account:
  - (a) equals or exceeds \$200,000, no allocation will be made; or
- (b) is less than \$200,000, then an amount less than or equal to the difference between the unobligated cash balance and \$200,000, but not more than \$50,000, must be allocated to the oil and gas production damage mitigation account from the interest income of the resource indemnity trust fund.
- (3) In addition to the allocation provided in subsection (2), there must be deposited in the oil and gas production damage mitigation account all funds received by the board pursuant to 82-11-136 82-11-136(1).
- (4) If a sufficient balance exists in the account, funds are statutorily appropriated, as provided in 17-7-502, from the oil and gas production damage mitigation account, upon the authorization of the board, to pay the reasonable costs of properly plugging a well and either reclaiming or restoring, or both, a drill site or other drilling or producing area damaged by oil and gas operations if the board determines that the well, sump, hole, drill site, or drilling or producing area has been abandoned and the responsible person cannot be identified or located or if the responsible person fails or refuses to properly plug, reclaim, or restore the well, sump, hole, drill site, or drilling or producing area within a reasonable time after demand by the board. The However, the responsible person shall, however, pay costs to the extent of that person's available resources and is subsequently liable to fully reimburse the account or is subject to a lien on property as provided in 82-11-164 for costs expended from the account to properly plug, reclaim, or restore the well, sump, hole, drill site, or drilling or producing area and to mitigate any damage for which the person is responsible.
- (5) Interest from funds in the oil and gas production damage mitigation account accrues to that account."

### **Section 22.** Section 82-11-163, MCA, is amended to read:

"82-11-163. Landowner's bond on noncommercial well. If the owner of the surface land upon which has been drilled a well that fails to produce oil or gas in commercial quantities acquires the well for domestic purposes, the board may cancel and absolve the bond required in 82-11-123 82-11-123(1)(e) upon its acceptance of surety in the form of a certificate of deposit or a surety bond in the amount of \$5,000 for a single well or in the amount of \$10,000 for more than one well or in the form of a property bond of two times the value of the required certificate of deposit or surety bond. The release of the certificate of deposit, surety bond, or property bond must be conditioned on proof provided by the landowner that the well has been properly plugged."

**Section 23.** Section 82-11-201, MCA, is amended to read:

- **"82-11-201. Establishment of well spacing units.** (1) To prevent or to assist in preventing waste of oil or gas prohibited by this chapter, to avoid the drilling of unnecessary wells, or to protect correlative rights, the board, upon its own motion or upon application of an interested person, after hearing, may by order establish:
- (a) temporary spacing units on a statewide basis or for defined areas within the state for *carbon dioxide injection wells*, oil, gas, or oil and gas wells drilled to varying depths; and

- (b) permanent spacing units for a discovered pool, except in those pools that, prior to April 1, 1953, have been developed to such an extent that it would be impracticable or unreasonable to establish spacing units at the existing stage of development.
- (2) The size and the shape of temporary spacing units must be established to promote the orderly development of unproven areas and must be uniform throughout the surface area and depths covered by the unit. A temporary spacing unit must remain in effect until superseded by an order issued by the board or until a permanent spacing unit is established.
- (3) Permanent spacing units do not need to be uniform in size or shape but must result in the efficient and economic development of the pool as a whole. In establishing permanent spacing units, the acreage to be embraced within a unit and the shape of the unit must be determined by the board based upon evidence introduced at the hearing. The board may divide a pool into zones and establish spacing units for each zone if necessary for a purpose mentioned in subsection (1) or to facilitate production through the use of innovative drilling and completion methods. The spacing units within the zone may differ in size and shape from spacing units in any other zone but may not be smaller than the maximum area that can be efficiently and economically drained by one well.
- (4) An order establishing temporary or permanent spacing units may permit only one well to be drilled and produced from the common source of supply on any spacing unit, and the well must be drilled at a location authorized by the order, with an exception as may be reasonably necessary. The exception may be included if, upon application, notice, and hearing, the board finds that the spacing unit is located on the edge of a pool or field and adjacent to a producing unit or, for some other reason, that the requirement to drill the well at the authorized location on the spacing unit would be inequitable or unreasonable. The board shall take action to offset any advantage that the person securing the exception may have over other producers by reason of drilling the well as an exception. The order must include provisions to prevent production from the spacing unit from being more than its just and equitable share of the producible oil and gas in the pool.
- (5) An order establishing temporary or permanent spacing units for a pool must cover all lands determined or believed to be underlaid by the pool and may be modified after notice and hearing by the board to include additional areas subsequently determined to be underlaid by the pool.
- (6) The board, upon application, notice, and hearing, may increase or decrease the size of a temporary or permanent spacing unit or permit the drilling of additional wells in a spacing unit for a purpose mentioned in subsection (1)."

# Section 24. Section 82-11-204, MCA, is amended to read:

- **"82-11-204. Hearing on operation of pool as unit.** (1) (a) The board, upon the application of persons owning leasehold interests underlying 60% of the surface within the delineated area, shall hold a hearing to consider the need for the operation as a unit of one or more pools or parts thereof of the pools in a field for enhanced recovery purposes as *related* to oil or oil and gas, to increase ultimate recovery, or to prevent waste of gas from pools or portions of pools where gas only is produced.
- (b) The board, upon the application of persons owning or holding subsurface storage rights of 60% of the storage capacity of the proposed storage area, shall

hold a hearing to consider the need for the operation of a unit for the long-term storage of carbon dioxide.

- (2) (a) At least 60 days prior to application, the applicant shall, by registered or certified mail, notify all known persons owning an interest in the oil and gas within the proposed unit area as disclosed by the records of the county or counties in which where the proposed unit area is situated, at those persons' last known last-known addresses, of the applicant's intention to make the application.
- (b) At least 60 days prior to application, if the application is for a carbon dioxide storage reservoir, the applicant shall, by registered or certified mail, notify all persons with an ownership interest in the surface, subsurface storage rights, and the subsurface minerals within the proposed unit area as disclosed by the records of the county or counties where the proposed unit area is situated, at those persons' last-known addresses, of the applicant's intention to make the application.
- (c) At the same time producers shall must be furnished with a plan of unit operations. Upon written request of an operator of a lease which that is in whole or in part within the confines of the proposed delineated area, the applicant shall furnish the operator with copies of any exhibits to be submitted to the board at the time of hearing."

Section 25. Section 82-11-205, MCA, is amended to read:

- "82-11-205. Board order for unit operation criteria. The board shall make an order providing for the unit operation of a pool or pools or part thereof of the pools or of a geologic storage reservoir if it determines, based on evidence presented at the hearing, that:
- (1) such the operation is reasonably necessary to increase the ultimate recovery of oil or gas or the operation is necessary for the long-term storage of carbon dioxide;
- (2) the value of the estimated additional recovery of oil or gas less royalties or, as to gas pools only, the value of the economies to be effected, exceeds the estimated additional cost incident to conducting such the operations; and
- (3) (a) the full areal extent of the pool or pools or part thereof of the pools has been reasonably defined and determined by drilling operations; or
- (b) in the case of a geologic storage reservoir, the full areal extent of the project has been reasonably defined and determined by drilling operations, geologic interpretation, seismic information, or other information acceptable to the board."

Section 26. Section 82-11-214, MCA, is amended to read:

"82-11-214. Title to oil and gas rights not affected by board order. Except to the extent that the parties affected so agree and in accordance with [section 4(8)], an order providing for unit operations does not result in a transfer of all or any part of the title of any person to the carbon dioxide rights or oil and gas rights in any tract in the unit area. All property, whether real or personal, that may be acquired in the conduct of unit operations hereunder shall under this part must be acquired for the account of the owners within the unit area and shall be are the property of those owners in the proportion that the expenses of unit operations are charged."

Section 27. Notification to tribal governments. The secretary of state shall send a copy of [this act] to each tribal government located on the seven Montana reservations and to the Little Shell Chippewa tribe.

**Section 28. Codification instruction.** [Sections 1 through 6] are intended to be codified as an integral part of Title 82, chapter 11, part 1, and the provisions of Title 82, chapter 11, part 1, apply to [sections 1 through 6].

Section 29. Saving clause. [This act] does not affect rights and duties that matured, penalties that were incurred, or proceedings that were begun before [the effective date of this act].

Section 30. Transition — contingent implementation. If the United States environmental protection agency adopts regulations allowing states to apply for primacy over carbon dioxide sequestration wells under the federal underground injection control program adopted by the environmental protection agency, the board of oil and gas conservation shall in consultation with the department of environmental quality and the department of natural resources and conservation develop draft rules to implement [this act] and seek primacy.

Section 31. Effective dates — contingency. (1) [Sections 2 through 26] are effective on the date that the board of oil and gas conservation is granted primacy to administer activities at carbon dioxide sequestration wells by the United States environmental protection agency.

- (2) [Sections 1 and 27 through 30 and this section] are effective on passage and approval.
- (3) The board of oil and gas conservation shall provide a copy of the grant of primacy provided for in subsection (1) to the code commissioner.

[SB 507]

AN ACT GENERALLY REVISING AND CLARIFYING LAWS RELATED TO THE TREATMENT OF PROPERTY CONSISTING OF THE BED OF NAVIGABLE RIVERS; REQUIRING AUTHORIZATION FROM THE BOARD OF LAND COMMISSIONERS FOR USES ON THE BEDS OF NAVIGABLE RIVERS; REQUIRING THE BOARD OF LAND COMMISSIONERS TO ADOPT RULES FOR PROVIDING EASEMENTS, LEASES, OR LICENSES FOR USES ON THE BEDS OF NAVIGABLE RIVERS; CLARIFYING THE AUTHORITY OF THE BOARD OF LAND COMMISSIONERS TO GRANT EASEMENTS; AND AMENDING SECTION 77-2-101, MCA.

Be it enacted by the Legislature of the State of Montana:

**Section 1. Legislative findings — purpose.** (1) The legislature finds that:

- (a) Article IX, section 3, of the Montana constitution provides that the use of all water that is or may be appropriated for sale, rent, distribution, or other beneficial use, the right-of-way over the lands of others for all ditches, drains, flumes, canals, and aqueducts necessarily used in connection with the beneficial use, and the sites for reservoirs necessary for collecting and storing water are a public use:
- (b) a person who has historically used the bed of a navigable river in conjunction with a legal use of water or for other uses or a person who desires to use the bed of a navigable river in conjunction with a legal use of water or for other uses must be able to do so provided that statutory provisions are met;

- (c) owners of property adjacent to navigable rivers in Montana have historically been assessed property taxes on the beds of navigable rivers on the premise that the riverbeds are the property of the adjacent property owners;
- (d) the historic payment of property taxes on the bed of a navigable river constitutes adequate compensation for any past use of the riverbed and relieves the owner of adjacent property of the duty to compensate the state for past use of the riverbed;
- (e) any person who uses the bed of a navigable river after [the effective date of this act] shall apply to the state for a lease, license, or easement and pay full market value for the use of the riverbed; and
- (f) the department has not consistently required payment for riverbed uses over time.
- (2) The purpose of [sections 1 through 8] is to clarify the historic and future use of the beds of navigable rivers and how the state should be compensated for that use.
- **Section 2. Definitions.** For the purposes of [sections 1 through 8], the following definitions apply:
- (1) "Footprint" means a structure or other constructed interruption or modification to the bed of a navigable river below the low-water mark as provided in 70-16-201.
- (2) "Full market value" means an amount calculated based upon the area of a footprint and the fair market value as determined by rule or statute. The annual payment for a license issued under [sections 1 through 8] is \$150.
  - (3) "Navigable river" means a river that:
- (a) was determined navigable at the time of the original federal government surveys of the public land as evidenced by the recorded and monumented surveys of the meander lines of the river; or
  - (b) has been adjudicated as navigable by a court of competent jurisdiction.
- Section 3. Historic use of navigable riverbeds authorization required exemptions. (1) A person using the bed of a navigable river below the low-water mark without written authorization from the department prior to [the effective date of this act] who wants to continue use of the bed of a navigable river after [the effective date of this act] shall file for authorization of the use on a form prescribed by the department for a lease, license, or easement by July 15, 2015.
  - (2) The application must include:
  - (a) an application fee of \$50;
  - (b) a notarized affidavit:
- (i) demonstrating that the applicant or the applicant's predecessor in interest used the bed of a river that has been determined navigable pursuant to [section 8] and that the use continues;
- (ii) describing the acreage covered by the footprint prior to [the effective date of this act]; and
- (iii) demonstrating that the use applied for under this section is the use shown in the evidence provided in subsection (2)(c); and
- (c) (i) aerial photographs demonstrating the use to which the application for authorization applies; or

- (ii) other evidence of the use to which the application for authorization applies.
- (3) The department shall issue the authorization for a lease, license, or easement if:
- (a) the applicant provides evidence to satisfy the requirements of subsection (2);
- (b) the applicant pays the application fee and the full market value of the footprint acreage;
- (c) the department has, if necessary, made a site inspection of the use to which the application for authorization applies;
- (d) the authorization is only for the acreage of the footprint historically used by the applicant or the applicant's predecessor in interest; and
- (e) the authorization is approved by the board. The authorization must be approved if the requirements of this section are met.
- (4) Proceeds from the application fee must be deposited in the account in [section 4] and must be used by the department to administer the provisions of this section.
- (5) The full market value collected pursuant to subsection (3)(b) must be deposited in the appropriate trust fund established for receipt of income from the land over which an authorized use is granted.
- (6) Issuance of an authorization pursuant to this section is exempt from the requirements of Title 22, chapter 3, part 4, and Title 75, chapter 1, parts 1 and 2.
- (7) The department shall waive the survey requirements of 77-2-102 if the department determines that there is sufficient information available to define the boundaries of the proposed use for the purposes of recording the easement or issuing a license or lease.
  - (8) The requirements of this section do not apply to footprints:
  - (a) related to hunting, fishing, or trapping;
  - (b) that existed prior to November 8, 1889;
- (c) for which the applicant can show an easement obtained from a state agency prior to [the effective date of this act]; or
- (d) associated with a power site regulated pursuant to Title 77, chapter 4, part 2.
- **Section 4. Historic riverbed use account.** (1) There is an account in the state special revenue fund into which the fees collected pursuant to [section 3] must be deposited.
- (2) The funds in the account may be used only for administering the provisions of [section 3].
- Section 5. Navigable riverbed uses lease, license, or easement required challenges. (1) (a) After [the effective date of this act], the department shall require a person who proposes to use the bed of a navigable river up to the low-water mark to obtain a lease, license, or easement pursuant to the provisions of this title.
- (b) The requirements of subsection (1)(a) do not apply to footprints related to hunting, fishing, or trapping.
- (2) An applicant for authorization to use the bed of a navigable river pursuant to [section 3] or for a lease, license, or easement under this section may challenge the requirement of the authorization based on the navigability of the

river, the location of footprint related to the low-water mark, or other factors. There is no presumption of navigability because an entity has applied for or received a lease, license, or easement.

- Section 6. Easement transferable relocation of structure increased footprint. (1) An easement granted pursuant to [section 3 or 5] runs with the benefited land and may be transferred or assigned.
- (2) (a) Pursuant to rules adopted under [section 7], the holder of a lease, license, or easement under [section 3 or 5] may relocate a footprint and associated facilities due to the natural relocation of a navigable river or other factors.
- (b) (i) The holder of a lease, license, or easement shall provide written notice to the department when a footprint or associated facilities are proposed to be relocated.
- (ii) The holder of a lease, license, or easement for water diversion structures associated with a water right may increase the size of the footprint if the increase is necessary to accomplish the purpose for which the lease, license, or easement was granted if the holder pays full market value for the portion of the footprint that is greater than the original footprint and the applicant has the appropriate state or federal permits.
- (3) Section 77-1-805 applies to the use of navigable rivers for which leases, licenses, or easements for the use of the bed have been granted.
- **Section 7. Board to adopt rules.** To fulfill the requirement of [sections 1 through 8], the board shall adopt rules to:
- (1) determine the full market value for the use of a bed of a navigable river and establish a minimum payment for leases and easements;
- (2) allow an applicant to choose to apply for a lease, license, or easement depending on the type of proposed use and the duration of the use; and
- (3) allow the holder of a lease, license, or easement for water diversion structures associated with a water right to relocate a footprint based on certain circumstances, including but not limited to natural relocation of a navigable river.
- Section 8. Ownership of beds of navigable rivers. The board or the department may only require a lease, license, or easement for the use of the bed of a river that has been adjudicated as navigable for title purposes by a court of competent jurisdiction or was meandered by official government survey at the time of statehood.
  - **Section 9.** Section 77-2-101, MCA, is amended to read:
- **"77-2-101. Easements for specific uses.** (1) Upon proper application as provided in 77-2-102, the board may grant easements on state lands for the following purposes:
  - (a) schoolhouse sites and grounds;
  - (b) public parks;
  - (c) community buildings;
  - (d) cemeteries;
  - (e) conservation purposes:
- (i) to the department of fish, wildlife, and parks for parcels that are surrounded by or adjacent to land owned by the department of fish, wildlife, and parks as of January 1, 2001;

- (ii) to a nonprofit corporation for parcels that are surrounded by or adjacent to land owned by that same nonprofit corporation as of January 1, 2001; and
- (iii) to a nonprofit corporation for the Owen Sowerwine natural area located within section 16, township 28 north, range 21 west, in Flathead County; and
  - (f) for other public uses.
- (2) The board may grant easements on state lands for the following purposes:
- (a) right-of-way across or upon any portion of state lands for any public highway or street, any ditch, reservoir, railroad, private road, or telegraph or telephone line, or any other public use as defined in 70-30-102; or
- (b) any private building or private sewage system that encroaches on state lands; or
  - (c) the use of the bed of a navigable river pursuant to [section 3 or 5]."
- **Section 10. Codification instruction.** [Sections 1 through 8] are intended to be codified as an integral part of Title 77, chapter 1, and the provisions of Title 77, chapter 1, apply to [sections 1 through 8].
- **Section 11. Severability.** If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.
- **Section 12. Contingent voidness.** If the supreme court determines that the beds of navigable rivers are not owned by the state or are not school trust lands, [this act] is void.

## **CHAPTER NO. 476**

[SB 510]

AN ACT AUTHORIZING A BOARD OF COUNTY COMMISSIONERS TO AUTHORIZE A 50 PERCENT LOCAL ABATEMENT OF THE COAL GROSS PROCEEDS TAX FROM A NEW OR EXPANDING UNDERGROUND COAL MINE; PROVIDING THAT THE ABATEMENT CAN LAST FOR 5 OR 10 YEARS; REQUIRING NOTIFICATION OF ALL AFFECTED SCHOOL DISTRICTS; PROVIDING FOR THE DISTRIBUTION OF THE REDUCED TAX COLLECTIONS; AMENDING SECTION 15-23-703, MCA; AND PROVIDING AN APPLICABILITY DATE.

Be it enacted by the Legislature of the State of Montana:

- Section 1. New or expanding underground mines tax abatement. (1) A county may abate taxation under this chapter for production from a new or expanding underground coal mine by 50% for 5 or 10 years by directing the department to levy the tax at a lower tax rate as provided in 15-23-703(1)(b).
- (2) An abatement must be authorized by the governing body of a county. Before an abatement authorization is effective, the school boards of all affected school districts must be notified of the abatement. The authorization must be made by a resolution of the county governing body after a public hearing. The county governing body shall publish notice of the hearing in a newspaper that meets the requirements of 7-1-2121. The notice must be published twice, with at least 6 days separating publications. The first publication may be no more than

30 days prior to the hearing and the last publication must be at least 3 days prior to the hearing.

- (3) An abatement authorization may be made for a 5-tax-year period, and upon expiration of that period, it may be authorized for one more 5-tax-year period. An abatement authorization must be made prior to the beginning of the property tax year in which abatement is in effect. The department must be notified of each abatement authorization prior to the beginning of the tax year.
- (4) (a) Production from a new underground mine is all production from a mine that in the year prior to the tax year in which the first abatement will apply had production of less than 500,000 tons of coal and the production during the course of the abatement period is estimated to be and actually amounts to at least five times the preabatement production amount.
- (b) Production from an expanding underground mine is that portion of the mine's production that exceeds the average production for the previous 3 years. To qualify for the abatement, the total of the prior average production and the new production may not decrease during the time of the abatement.

**Section 2.** Section 15-23-703, MCA, is amended to read:

- "15-23-703. Taxation of gross proceeds taxable value for county classification and guaranteed tax base aid to schools. (1) (a) The department shall compute from the reported gross proceeds from coal a tax roll that must be transmitted to the county treasurer on or before September 15 each year. The department may not levy or assess any mills against the reported gross proceeds of coal but shall, subject to subsection (1)(b), levy a tax of 5% of 5% against the value of the reported gross proceeds as provided in 15-23-701(1)(d). The county treasurer shall give full notice to each coal producer of the taxes due and shall collect the taxes.
- (b) If the county grants a tax abatement for production from a new or expanding underground mine as provided in [section 1], the department shall levy a tax at a rate that would, after providing for payment to the state of the amount attributable to all applicable state mill levies as if the tax rate were 5%, reduce the tax received by county taxing jurisdictions and any school district on the new or expanded production by 50%.
- (2) For county classification and all nontax purposes, the taxable value of the gross proceeds of coal is 45% of the contract sales price as defined in 15-35-102.
- (3) Except as provided in subsection subsections (6) and (7), the county treasurer shall calculate and distribute to the state, county, and eligible school districts in the county the amount of the coal gross proceeds tax, determined by multiplying the unit value calculated in 15-23-705 times the tons of coal extracted, treated, and sold on which the coal gross proceeds tax was owed during the preceding calendar year.
- (4) Except as provided in subsections (5), (6), (7), and (8) (9), the county treasurer shall credit the amount determined under subsection (3) and the amounts received under 15-23-706:
- (a) to the state and to the counties that levied mills in fiscal year 1990 against 1988 production in the relative proportions required by the levies for state and county purposes in the same manner as property taxes were distributed in fiscal year 1990 in the taxing jurisdiction; and
- (b) to school districts in the county that either levied mills in school fiscal year 1990 against 1988 production or used nontax revenue, such as impact aid

- money, as provided in 20 U.S.C. 7701, et seq., in lieu of levying mills against production, in the same manner that property taxes collected or property taxes that would have been collected would have been distributed in the 1990 school fiscal year in the school district.
- (5) (a) If the total tax liability in a taxing jurisdiction exceeds the amount determined in subsection (3), the county treasurer shall, immediately following the distribution from taxes paid on May 31 of each year, send the excess revenue, excluding any protested coal gross proceeds tax revenue, to the department for redistribution as provided in 15-23-706.
- (b) If the total tax liability in a taxing jurisdiction is less than the amount determined in subsection (3), the taxing jurisdiction is entitled to a redistribution as provided by 15-23-706.
- (6) If there is a distribution of coal gross proceeds from a new or expanding underground mine with a tax abatement as provided under [section 1], the county treasurer shall distribute:
- (a) the state's share of the coal gross proceeds determined under subsection (1)(b) in the relative proportion required by the appropriate levies for state purposes; and
- (b) the county's share and any school district's share of the coal gross proceeds determined under subsection (1)(b) as provided in this section.
- (6)(7) The board of county commissioners of a county may direct the county treasurer to reallocate the distribution of coal gross proceeds taxes that would have gone to a taxing unit, as provided in subsection (4)(a), to another taxing unit or taxing units, other than an elementary school or high school, within the county under the following conditions:
- (a) The county treasurer shall first allocate the coal gross proceeds taxes to the taxing units within the county in the same proportion that all other property tax proceeds were distributed in the county in fiscal year 1990.

- (2) (a) The department of environmental quality may transfer appropriations between projects in [section 2 or 4] to respond to energy-saving opportunities.
- (b) For purposes of this subsection (2), "energy-saving opportunities" means opportunities to achieve energy cost savings that will be technically infeasible or uneconomical if the project is delayed until specific legislative approval can be obtained.
- (3) The department of administration may transfer appropriations and authority, as appropriate, between projects in [section 2 or 6] to maximize utilization of the federal funds received pursuant to the American Recovery and Reinvestment Act of 2009, Public Law 111-5.
- Section 8. Reappropriation of remaining balance to Montana tech. (1) Any portion of the Augment Petroleum, Bureau of Mines and Geology, UM-MT Tech project appropriation of \$5.2 million of long-range building program (LRBP) funds appropriated in section 2, Chapter 3, Special Laws of May 2007, that is unexpended for the project is reappropriated for the following projects:

- **Section 9. Planning and design.** The department of administration may proceed with the planning and design of capital projects prior to the receipt of other funding sources. The department may use interaccount loans in accordance with 17-2-107 to pay planning and design costs incurred before the receipt of funds from other funding sources.
- Section 10. Capital projects contingent funds. If a capital project is financed, in whole or in part, with appropriations contingent upon the receipt of funds from other funding sources, the department of administration may not let the project for bid until the agency has submitted a financial plan for approval by the director of the department of administration. A financial plan may not be approved by the director if:
- (1) the level of funding provided under the financial plan deviates substantially from the funding level provided in [sections 2 through 5] for that project; or
- (2) the scope of the project is substantially altered or revised from the preliminary plans presented for that project in the 2011 biennium long-range building program presented to the 61st legislature.
- Section 11. Review by department of environmental quality. The department of environmental quality shall review capital projects authorized in [sections 2 through 7] for potential inclusion in the state building energy conservation program under Title 90, chapter 4, part 6. When a review shows that a capital project will result in energy improvements, that project must be submitted to the energy conservation program for funding consideration. Funding provided under the energy conservation program guidelines must be used to offset or add to the authorized funding for the project, and the amount will be dependent on the annual utility savings resulting from the facility improvement. Agencies must be notified of potential funding after the review.
- **Section 12. Legislative consent.** The appropriations authorized in [sections 1 through 11] constitute legislative consent for the capital projects contained in [sections 1 through 11] within the meaning of 18-2-102.
  - Section 13. Section 17-7-111, MCA, is amended to read:
- "17-7-111. Preparation of state budget agency program budgets form distribution and contents. (1) (a) To prepare a state budget, the executive branch, the legislature, and the citizens of the state need information that is consistent and accurate. Necessary information includes detailed disbursements by fund type for each agency and program for the appropriate time period, recommendations for creating a balanced budget, and recommended disbursements and estimated receipts by fund type and fund category.
- (b) Subject to the requirements of this chapter, the budget director and the legislative fiscal analyst shall by agreement:
- (i) establish necessary standards, formats, and other matters necessary to share information between the agencies and to ensure that information is consistent and accurate for the preparation of the state's budget; and
- (ii) provide for the collection and provision of budgetary and financial information that is in addition to or different from the information otherwise required to be provided pursuant to this section.

- (2) In the preparation of a state budget, the budget director shall, not later than the date specified in 17-7-112(1), distribute to all agencies the proper forms and instructions necessary for the preparation of budget estimates by the budget director. These forms must be prescribed by the budget director to procure the information required by subsection (3). The forms must be submitted to the budget director by the date provided in 17-7-112(2)(a) or the agency's budget is subject to preparation based upon estimates as provided in 17-7-112(5). The budget director may refuse to accept forms that do not comply with the provisions of this section or the instructions given for completing the forms.
- (3) The agency budget request must set forth a balanced financial plan for the agency completing the forms for each fiscal year of the ensuing biennium. The plan must consist of:
- (a) a consolidated agency budget summary of funds subject to appropriation or enterprise funds that transfer profits to the general fund or to an account subject to appropriation for the current base budget expenditures, including statutory appropriations, and for each present law adjustment and new proposal request setting forth the aggregate figures of the full-time equivalent personnel positions (FTE) and the budget, showing a balance between the total proposed disbursements and the total anticipated receipts, together with the other means of financing the budget for each fiscal year of the ensuing biennium, contrasted with the corresponding figures for the last-completed fiscal year and the fiscal year in progress;
- (b) a schedule of the actual and projected receipts, disbursements, and solvency of each fund for the current biennium and estimated for the subsequent biennium;
- (c) a statement of the agency mission and a statement of goals and objectives for each program of the agency. The goals and objectives must include, in a concise form, sufficient specific information and quantifiable information to enable the legislature to formulate an appropriations policy regarding the agency and its programs and to allow a determination, at some future date, on whether the agency has succeeded in attaining its goals and objectives.
- (d) actual FTE and disbursements for the completed fiscal year of the current biennium, estimated FTE and disbursements for the current fiscal year, and the agency's request for the ensuing biennium, by program;
- (e) actual disbursements for the completed fiscal year of the current biennium, estimated disbursements for the current fiscal year, and the agency's recommendations for the ensuing biennium, by disbursement category;
- (f) for only agencies with more than 20 FTE, a plan to reduce the proposed base budget for the general appropriations act and the proposed state pay plan to 95% of the current base budget or lower if directed by the budget director. Each agency plan must include base budget reductions that reflect the required percentage reduction by fund type for the general fund and state special revenue fund types. Exempt from the calculations of the 5% target amounts are legislative audit costs, administratively attached entities that hire their own staff under 2-15-121, and state special revenue accounts that do not transfer their investment earnings or fund balances to the general fund. The plan must include:
  - (i) a prioritized list of services that would be eliminated or reduced;
- (ii) for each service included in the prioritized list, the savings that would result from the elimination or reduction; and

- (iii) the consequences or impacts of the proposed elimination or reduction of each service.
- (g) a reference for each new information technology proposal stating whether the new proposal is included in the approved agency information technology plan as required in 2-17-523; and
  - (h) energy cost saving information as required by [section 17]; and
- (h)(i) other information the budget director feels is necessary for the preparation of a budget.
- (4) The budget director shall prepare and submit to the legislative fiscal analyst in accordance with 17-7-112:
- (a) detailed recommendations for the state long-range building program. Each recommendation must be presented by institution, agency, or branch, by funding source, with a description of each proposed project.
  - (b) a statewide project budget summary as provided in 2-17-526;
- (c) the proposed pay plan schedule for all executive branch employees at the program level by fund, with the specific cost and funding recommendations for each agency. Submission of a pay plan schedule under this subsection is not an unfair labor practice under 39-31-401.
- (d) agency proposals for the use of cultural and aesthetic project grants under Title 22, chapter 2, part 3, the renewable resource grant and loan program under Title 85, chapter 1, part 6, the reclamation and development grants program under Title 90, chapter 2, part 11, and the treasure state endowment program under Title 90, chapter 6, part 7.
- (5) The board of regents shall submit, with its budget request for each university unit in accordance with 17-7-112, a report on the university system bonded indebtedness and related finances as provided in this subsection (5). The report must include the following information for each year of the biennium, contrasted with the same information for the last-completed fiscal year and the fiscal year in progress:
- (a) a schedule of estimated total bonded indebtedness for each university unit by bond indenture;
- (b) a schedule of estimated revenue, expenditures, and fund balances by fiscal year for each outstanding bond indenture, clearly delineating the accounts relating to each indenture and the minimum legal funding requirements for each bond indenture; and
- (c) a schedule showing the total funds available from each bond indenture and its associated accounts, with a list of commitments and planned expenditures from such accounts, itemized by revenue source and project for each year of the current and ensuing bienniums.
- (6) (a) The department of revenue shall make Montana individual income tax information available by removing names, addresses, and social security numbers and substituting in their place a state accounting record identifier number. Except for the purposes of complying with federal law, the department may not alter the data in any other way.
- (b) The department of revenue shall provide the name and address of a taxpayer on written request of the budget director when the values on the requested return, including estimated payments, are considered necessary by the budget director to properly analyze state revenue and are of a sufficient magnitude to materially affect the analysis and when the identity of the

taxpayer is necessary to evaluate the effect of the return or payments on the analysis being performed."

- "17-7-123. Form of executive budget. (1) The budget submitted must set forth a balanced financial plan for funds subject to appropriation and enterprise funds that transfer profits to the general fund or to accounts subject to appropriation for each accounting entity and for the state government for each fiscal year of the ensuing biennium. The base level plan must consist of:
- (a) a consolidated budget summary setting forth the aggregate figures of the budget in a manner that shows a balance between the total proposed disbursements and the total anticipated receipts, together with the other means of financing the budget for each fiscal year of the ensuing biennium, contrasted with the corresponding figures for the last-completed fiscal year and the fiscal year in progress. The consolidated budget summary must be supported by explanatory schedules or statements.

### CHAPTER NO. 479

[HB 130]

AN ACT PROVIDING FOR STATE MATCHING FUNDS TO BE GRANTED TO COUNTIES FOR CRISIS INTERVENTION, JAIL DIVERSION, INVOLUNTARY PRECOMMITMENT, AND SHORT-TERM INPATIENT TREATMENT COSTS FOR THE MENTALLY ILL; REQUIRING RULEMAKING; PROVIDING IMPLEMENTATION INSTRUCTIONS; REQUIRING A REPORT; AND PROVIDING EFFECTIVE DATES.

WHEREAS, the 2007 Legislature passed House Joint Resolution No. 26, requesting an interim legislative study to examine diversion of mentally ill adults from the justice system, and House Joint Resolution No. 50, requesting a study to examine county precommitment costs related to involuntary commitment proceedings; and

WHEREAS, these studies were assigned to the Law and Justice Interim Committee; and

WHEREAS, after 14 months of testimony and examination of data and information from all stakeholders, the Law and Justice Interim Committee identified crisis intervention and jail diversion to be the most critical need and the most effective way to divert mentally ill individuals from the criminal justice system and recommends this bill as part of a package of bills to address this need; and

WHEREAS, the lack of local crisis intervention and jail diversion alternatives means counties must rely on the Montana State Hospital for emergency and court-ordered detention and evaluation, which increases county costs, strains the Montana State Hospital, and diverts resources from community-based services; and

WHEREAS, sections 53-21-138 and 53-21-139, MCA, originally enacted by the 1991 Legislature, provide a solid statutory framework for diversion of mentally ill adults from the justice system but do not provide state funding; and

WHEREAS, state matching funds granted to counties based on certain criteria, including the commitment of county and other local funds, is an appropriate way to share costs and provide incentives for local resources to be spent on community-based treatment capacity rather than on jail capacity or on transportation to and capacity in the Montana State Hospital; and

WHEREAS, crisis intervention team training and collaboration between local law enforcement officers, mental health professionals, and private corporations can offer creative solutions that should be encouraged and sustained; and

WHEREAS, counties should be encouraged to participate in a county self-insurance pool to help pay for unpredictable and sometimes financially catastrophic precommitment costs.

Be it enacted by the Legislature of the State of Montana:

Section 1. State matching fund grants for county crisis intervention, jail diversion, precommitment, and short-term inpatient

**treatment costs.** (1) As soon as possible after July 1 of each year, from funds appropriated by the legislature for the purposes of this section, the department shall grant to each eligible county state matching funds for:

- (a) jail diversion and crisis intervention services to implement 53-21-138 and 53-21-139:
- (b) insurance coverage against catastrophic precommitment costs, if a county insurance pool is established pursuant to 2-9-211; and
  - (c) short-term inpatient treatment.
- (2) Grant amounts must be based on available funding and the prospects that a county or multicounty plan submitted pursuant to subsection (3) will, if implemented, reduce admissions to the state hospital for emergency and court-ordered detention and evaluation and ultimately result in cost savings to the state. The department shall develop a sliding scale for state grants based upon the historical county use of the state hospital with a high-use county receiving a lower percentage of matching funds. The sliding scale must be based upon the number of commitments by county compared to total commitments and upon the population of each county compared to the state population.
- (3) In order to be eligible for the state matching funds, a county shall, in the time and manner prescribed by the department:
- (a) apply for the funds and include in the grant application a detailed plan for how the county and other local entities will collaborate and commit local funds for the mental health services listed in subsection (1);
- (b) develop and submit to the department a county or multicounty jail diversion and crisis intervention services strategic plan pursuant to 53-21-138 and 53-21-139, including a plan for community-based or regional emergency and court-ordered detention and examination services and short-term inpatient treatment:
- (c) participate in a statewide or regional county insurance plan for precommitment costs under 53-21-132, if a statewide or regional insurance plan has been established, as authorized under 2-9-211;
- (d) participate in a statewide or regional jail suicide prevention program, if one has been established by the department for the state or for the region in which the county is situated; and
- (e) collect and report data and information on county jail diversion, crisis intervention, and short-term inpatient treatment services in the form and manner prescribed by the department to support program evaluation and measure progress on performance goals.
- (4) The department shall adopt rules by August 1, 2009, to implement the provisions of this section.
- **Section 2. Implementation report.** (1) Implementation of the grant program established in [section 1] may be conducted in phases. However, it is the legislature's intent that the grant program be fully implemented by no later than September 1, 2009.
- (2) Upon request, the department shall report to the law and justice interim committee established in 5-5-226 on the implementation status of [section 1].
- Section 3. Codification instruction instructions to code commissioner. (1) [Section 1] is intended to be codified as an integral part of Title 53, chapter 21, and the provisions of Title 53, chapter 21, apply to [section 1].

(2) Sections 53-21-138 and 53-21-139 are intended to be renumbered and codified with [section 1] as an integral new part of Title 53, chapter 21.

Section 4. Coordination instruction. If both House Bill No. 645 and [this act] are passed and approved and if House Bill No. 645 does not include line item funding for a community mental health crisis services demonstration project for the purposes of [this act], then [this act] is void.

**Section 5.** Effective dates. (1) Except as provided in subsection (2), [this act] is effective July 1, 2009.

(2) [Sections 1(4) and 4 and this section] are effective on passage and approval.

Approved May 9, 2009

[HB 131]

AN ACT REQUIRING THE DEPARTMENT OF PUBLIC HEALTH AND HUMAN SERVICES TO CONTRACT FOR CRISIS BEDS AND EMERGENCY AND COURT-ORDERED DETENTION BEDS FOR THE MENTALLY ILL; REQUIRING RULEMAKING; PROVIDING TARGET IMPLEMENTATION DATES; REQUIRING A REPORT; AND PROVIDING EFFECTIVE DATES.

WHEREAS, the 2007 Legislature passed House Joint Resolution No. 26, requesting an interim legislative study to examine diversion of mentally ill adults from the justice system, and House Joint Resolution No. 50, requesting an interim legislative study to examine county precommitment costs related to involuntary commitment proceedings; and

WHEREAS, these studies were assigned to the Law and Justice Interim Committee; and

WHEREAS, this bill is one in a package of bills recommended by the Law and Justice Interim Committee to address diversion of mentally ill adults from the justice system to appropriate treatment; and

WHEREAS, the Law and Justice Interim Committee found that one of the biggest challenges to diverting mentally ill individuals from the justice system is a lack of community-based mental health treatment beds; and

WHEREAS, 63% of admissions to the Montana State Hospital, whose daily census routinely exceeds its licensed capacity of 189, are for emergency and court-ordered detention and evaluation; and

WHEREAS, 38% of emergency and court-ordered admissions to the Montana State Hospital do not result in commitments; and

WHEREAS, it is preferable for these psychiatric services to be provided locally and without fiscal pressure driving treatment decisions or decisions about whether to file an involuntary commitment petition; and

WHEREAS, the costs for local hospitals to provide psychiatric treatment services is very high and counties help pay some of these costs only after an involuntary commitment petition has been filed and only in an amount that would have been paid by a public assistance program; and

WHEREAS, these high unrecoverable costs can deter hospitals from providing community-based psychiatric treatment beds; and

WHEREAS, current involuntary commitment laws and funding mechanisms create tensions between mental health professionals concerned

about the medical necessity for treatment, hospitals concerned that county funding is available only after an involuntary commitment petition is filed, county attorneys concerned that medical necessity is not necessarily legal sufficiency for an involuntary commitment petition, and county commissioners concerned about county costs after a commitment petition is filed; and

WHEREAS, some mental health facilities may be able to provide inpatient psychiatric services at lower cost by providing services in a nonhospital mental health facility or through a telepsychiatry linkage with a psychiatric unit at a community hospital or with the Montana State Hospital; and

WHEREAS, by contracting with private providers for dedicated local or regional psychiatric treatment beds at rates that would help subsidize county funding and reduce the risks to private providers, the state can become a partner in fostering creative local solutions that reduce emergency admissions to the Montana State Hospital.

Be it enacted by the Legislature of the State of Montana:

- Section 1. Department to contract for detention beds rulemaking. (1) To the extent funding is appropriated for the purposes of this section, for each service area, as defined in 53-21-1001, the department shall contract with a mental health facility for psychiatric treatment beds that may be used for:
- (a) inpatient crisis intervention services needed prior to an involuntary commitment petition being filed; and
- (b) emergency detention under 53-21-129 and court-ordered detention under 53-21-124 after an involuntary commitment petition has been filed but before final disposition.
- (2) Contracting pursuant to this section must take into consideration county strategic plans developed pursuant to 53-21-138 and 53-21-139 and local need for precommitment and short-term inpatient treatment services.
- (3) Each contract must provide that for payment of costs for detention, evaluation, and treatment pursuant to subsection (1), the facility shall bill for payment of costs in the order of priority provided for under 53-21-132(2)(a).
- (4) Each contract must require the collection and reporting of fiscal and program data in the time and manner prescribed by the department to support program evaluation and measure progress on performance objectives. The department shall establish baseline data on emergency and court-ordered detention admissions to the state hospital from each county and analyze the effect of contracting under this section on state hospital admissions.
  - (5) The department shall adopt rules to implement this section.
- **Section 2. Implementation report.** (1) The provisions of [section 1] may be implemented in phases. However, it is the legislature's intent that contracted beds be operational in at least one service area by no later than July 1, 2010, and that full implementation be completed by no later than July 1, 2011.
- (2) Upon request, the department shall report to the law and justice interim committee established in 5-5-226 on the implementation status of contracting under [section 1].
- Section 3. Codification instruction. [Section 1] is intended to be codified as an integral part of Title 53, chapter 21, and the provisions of Title 53, chapter 21, apply to [section 1].

**Section 4. Coordination instruction.** If both House Bill No. 645 and [this act] are passed and approved and if House Bill No. 645 does not include line item funding for a community mental health crisis services demonstration project for the purposes of [this act], then [this act] is void.

**Section 5.** Effective dates. (1) Except as provided in subsection (2), [this act] is effective July 1, 2009.

(2) [Sections 1(5) and 4 and this section] are effective on passage and approval.

Approved May 9, 2009

- (ii) The income levels contained in the table in subsection (2)(b)(i) must be adjusted for inflation annually by the department. The adjustment to the income levels is determined by:
- (A) multiplying the appropriate dollar amount amount from the table in subsection (2)(b)(i) by the ratio of the PCE for the second quarter of the year prior to the year of application to the PCE for the second quarter of 1995; and
  - (B) rounding the product thus obtained to the nearest whole dollar amount.
- (iii) "PCE" means the implicit price deflator for personal consumption expenditures as published quarterly in the Survey of Current Business by the bureau of economic analysis of the U.S. department of commerce.
- (c) Property described in subsection (1)(d) is taxed at one-half the taxable percentage rate established in subsection (2)(a).

- (3)(3) Within the meaning of comparable property, as defined in 15-1-101, property assessed as commercial property is comparable only to other property assessed as commercial property and property assessed as other than commercial property is comparable only to other property assessed as other than commercial property.
- (4) (a) As used in this section, "qualified claimants" means one or more owners who:
- (i) occupied the residence as their primary residence for more than 7 months during the preceding calendar year;
- (ii) had combined income for the preceding calendar year that does not exceed the threshold provided in subsection (2)(b); and
- (iii) file a claim for assistance on a form that the department prescribes on or before April 15 of the year for which the assistance is claimed.
- (b) For the purposes of subsection (1)(c), total household income is the income as reported on the tax return or returns required by chapter 30 or 31 for the year in which the assistance is being claimed excluding losses, depletion, and depreciation and before any federal or state adjustments to income. In cases in which the claimant is not required to file a tax return under chapter 30 or 31, household income means the household's total income as it would have been calculated under this subsection (4)(b) if the claimant had been required to file a return.
  - (c) The combined income of two or more owners who are qualified claimants:
- (i) may not exceed the married couple and head of household thresholds provided in subsection (2)(b); and
  - (ii) determines the amount of tax reduction under subsection (2)(b)."

Section 3. Section 15-6-143, MCA, is amended to read:

- "15-6-143. Class ten property description taxable percentage. (1) Class ten property includes all forest lands as defined in 15-44-102.
- (2) Class ten property is taxed at 0.79% of its forest productivity value in tax year 1999, and the rate is reduced by 0.11% each year until the property is taxed at:
  - (a) for tax year 2009, 0.35% 0.34% of its forest productivity value;
  - (b) for tax year 2010, 0.33% of its forest productivity value;
  - (c) for tax year 2011, 0.32% of its forest productivity value;
  - (d) for tax year 2012, 0.31% of its forest productivity value;
  - (e) for tax year 2013, 0.3% of its forest productivity value; and
  - (f) for tax years after 2013, 0.29% of its forest productivity value."

Section 4. Section 15-6-193, MCA, is amended to read:

- "15-6-193. Extended property tax assistance phasein. (1) For the purpose of mitigating extraordinary market value increases during revaluation cycles that begin after December 31, 2008, the rate of taxation of class four residential dwellings and appurtenant land not to exceed 5 acres otherwise set in 15-6-134(2)(a) qualified residences is adjusted in this section for properties with extraordinary increases in market value with owners that meet income requirements.
- (2) An annual application on a form provided by the department is required to receive a tax rate adjustment under this section. The application must be

signed under oath. A tax rate adjustment may be granted only for the current tax year and may not be granted for a previous year.

- (3) A rate adjustment may not be granted for:
- (a) any property that was sold or for which the ownership was changed after December 31 of the last year of the previous revaluation cycle unless the change in ownership is between husband and wife or parent and child with only nominal actual consideration or the change is pursuant to a divorce decree;
- (b) the value of new construction, including remodeling, on the property occurring after December 31 of the last year of the previous revaluation cycle that is greater than 25% of the market value of the improvements; or
- (c) a land use change occurring after December 31 of the last year of the previous revaluation cycle that increases the market value of the land by more than 25%.
- (4) For the purposes of determining the adjustment in the class four property tax rate in this section, the following provisions apply for revaluation cycles beginning after December 31, 2008:
- (a) (i) The percentage increase in taxable value is measured as the percentage change in taxable value before reappraisal to the taxable value after reappraisal. The taxable value before reappraisal is calculated by multiplying the value before reappraisal times the result of 1.00 minus the homestead exemption before reappraisal times the tax rate before reappraisal. The taxable value after reappraisal is calculated by multiplying the market value after reappraisal times the result of 1.00 minus the homestead exemption after reappraisal times the tax rate after reappraisal.
- (ii) The tax rate before reappraisal is the tax rate that was in effect during the last year of the previous reappraisal cycle.
- (iii) The tax rate after reappraisal is the tax rate that will be in effect during the last year of the current reappraisal cycle.
- (iv) The homestead exemption before reappraisal is the homestead exemption that was in effect during the last year of the previous reappraisal evele.
- (v) The homestead exemption after reappraisal is the homestead exemption that will be in effect during the last year of the current reappraisal cycle.
- (b) The dollar increase in tax liability is measured as the percentage change in tax liability before reappraisal to the tax liability after reappraisal. The tax liability before reappraisal is calculated by multiplying the value before reappraisal times the result of 1.00 minus the homestead exemption before reappraisal times the tax rate before reappraisal times the mill levy applied to the property before reappraisal. The tax liability after reappraisal is calculated by multiplying the market value after reappraisal times the result of 1.00 minus the homestead exemption after reappraisal times the tax rate after reappraisal times the mill levy applied to the property before reappraisal. The mill levy applied to the property before reappraisal is the total of all mills applied to the property in the last year of the previous reappraisal cycle.
- (c) Total household income is the sum of the income of all members of the household and all other persons who are owners of the property. Income, as used in this section, includes income from all sources, including net business income and otherwise tax-exempt income of all types but not including social security income paid directly to a nursing home. Net business income is gross income less ordinary expenses but before deducting depreciation or depletion allowance, or

both. For an entity, as defined in subsection (8), income also includes the income of any natural person or entity that is a trustee of or controls 25% or more of the entity. A household is an association of persons who live in the same dwelling, sharing its furnishings, facilities, accommodations, and expenses. For single-family rental dwellings, total household income does not include the income of the tenant.

- (d) The phase-in value is the valuation change made pursuant to 15-7-111(3) since the last reappraisal.
- (5) (a) If total household income is \$25,000 or less, the percentage increase in taxable value is greater than 24%, and the dollar increase in taxable liability is \$250 or greater, then the property qualifies for an adjusted tax rate. The adjusted tax rate must be calculated such that the total increase in taxable value over the reappraisal cycle is 24% and such that the change in taxable value is phased in over the reappraisal cycle in equal increments.
- (b) If total household income is greater than \$25,000 but less than or equal to \$50,000, the percentage increase in taxable value is greater than 30%, and the dollar increase in taxable liability is \$250 or greater, then the property qualifies for an adjusted tax rate. The adjusted tax rate must be calculated such that the total increase in taxable value over the reappraisal cycle is 30% and such that the change in taxable value is phased in over the reappraisal cycle in equal increments.
- (c) If total household income is greater than \$50,000 but less than or equal to \$75,000, the percentage increase in taxable value is greater than 30%, and the dollar increase in taxable liability is \$250 or greater, then the property qualifies for an adjusted tax rate. The adjusted tax rate will be calculated such that the total increase in taxable value over the reappraisal cycle is 36% and such that the change in taxable value is phased in over the reappraisal cycle in equal increments.
- (a) The change in taxable value before reappraisal is the 2008 tax year value adjusted for any new construction or destruction that occurred in the 2008 tax year. The taxable value before reappraisal for the 2009 tax year and subsequent years is the same as the 2008 tax year value if no new construction, destruction, land splits, land use changes, land reclassifications, land productivity changes, improvement grade changes, or other changes are made to the property during 2008 or subsequent tax years.
- (b) The percentage increase in taxable value is measured as the percentage change in taxable value before reappraisal to the taxable value after reappraisal. The taxable value before reappraisal is calculated by multiplying the value before reappraisal in 2009 times 0.66 times 0.0301. The taxable value after reappraisal is calculated by multiplying the 2009 market value after reappraisal times 0.53 times 0.0247.
- (c) The dollar increase in tax liability is measured as the change in tax liability before reappraisal to the tax liability after reappraisal. The tax liability before reappraisal is calculated by multiplying the value before reappraisal in 2009 times 0.66 times 0.0301 times the tax year 2008 mill levy applied to the property. The tax liability after reappraisal is calculated by multiplying the 2009 market value after reappraisal times 0.53 times 0.0247 times the tax year 2008 mill levy applied to the property. The tax year 2008 mill levy is the total of all mills applied to the property for fiscal year 2009.
- (d) Total household income is the sum of the income of all members of the household and all other persons who are owners of the property. Income, as used

in this section, includes income from all sources, including net business income and otherwise tax-exempt income of all types but not including social security income paid directly to a nursing home. Net business income is gross income less ordinary expenses but before deducting depreciation or depletion allowance, or both. For an entity, as defined in subsection (8), income also includes the income of any natural person or entity that is a trustee of or controls 25% or more of the entity. A household is an association of persons who live in the same dwelling, sharing its furnishings, facilities, accommodations, and expenses. For single-family rental dwellings, total household income does not include the income of the tenant.

- (e) The phase-in value is the valuation change made pursuant to 15-7-111(3) since the last reappraisal.
- (5) (a) If total household income is \$25,000 or less, the percentage increase in taxable value is greater than 24%, and the dollar increase in taxable liability is \$250 or greater, then the property qualifies for an adjusted tax rate as follows:
- (i) For tax year 2009, the tax rate is 0.03269 times the value before reappraisal divided by the 2009 phase-in value.
- (ii) For tax year 2010, the tax rate is 0.03546 times the value before reappraisal divided by the 2010 phase-in value.
- (iii) For tax year 2011, the tax rate is 0.03823 times the value before reappraisal divided by the 2011 phase-in value.
- (iv) For tax year 2012, the tax rate is 0.04115 times the value before reappraisal divided by the 2012 phase-in value.
- (v) For tax year 2013, the tax rate is 0.04374 times the value before reappraisal divided by the 2013 phase-in value.
- (vi) For tax year 2014 and after, the tax rate is 0.04648 times the value before reappraisal divided by the 2014 phase-in value.
- (b) If total household income is greater than \$25,000 but less than or equal to \$50,000, the percentage increase in taxable value is greater than 30%, and the dollar increase in taxable liability is \$250 or greater, then the property qualifies for an adjusted tax rate as follows:
- (i) For tax year 2009, the tax rate is 0.03301 times the value before reappraisal divided by the 2009 phase-in value.
- (ii) For tax year 2010, the tax rate is 0.03612 times the value before reappraisal divided by the 2010 phase-in value.
- (iii) For tax year 2011, the tax rate is 0.03925 times the value before reappraisal divided by the 2011 phase-in value.
- (iv) For tax year 2012, the tax rate is 0.04257 times the value before reappraisal divided by the 2012 phase-in value.
- (v) For tax year 2013, the tax rate is 0.0456 times the value before reappraisal divided by the 2013 phase-in value.
- (vi) For tax year 2014 and after, the tax rate is 0.04873 times the value before reappraisal divided by the 2014 phase-in value.
- (c) If total household income is greater than \$50,000 but less than or equal to \$75,000, the percentage increase in taxable value is greater than 36%, and the dollar increase in taxable liability is \$250 or greater, then the property qualifies for an adjusted tax rate as follows:

- (i) For tax year 2009, the tax rate is 0.03332 times the value before reappraisal divided by the 2009 phase-in value.
- (ii) For tax year 2010, the tax rate is 0.03678 times the value before reappraisal divided by the 2010 phase-in value.
- (iii) For tax year 2011, the tax rate is 0.04028 times the value before reappraisal divided by the 2011 phase-in value.
- (iv) For tax year 2012, the tax rate is 0.04399 times the value before reappraisal divided by the 2012 phase-in value.
- (v) For tax year 2013, the tax rate is 0.04739 times the value before reappraisal divided by the 2013 phase-in value.
- (vi) For tax year 2014 and after, the tax rate is 0.0598 times the value before reappraisal divided by the 2014 phase-in value.
- (d) The adjusted tax rate computed under this subsection (5) must be rounded to the nearest 1/100 of 1%.
- (6) A person who applies for a tax rate adjustment under this section shall provide the department with documentation of total household income and other information that the department considers necessary to determine the person's eligibility for the tax rate adjustment. Documents provided to the department to determine eligibility for a tax rate adjustment are subject to the confidentiality provisions in 15-30-303.
- (7) A person who applies for a tax rate adjustment and submits a false or fraudulent application for a tax rate adjustment is guilty of false swearing under 45-7-202.
  - (8) For the purposes of this section,:

- (a)(i) a corporation, fiduciary, or pass-through entity, as those terms are defined in 15-30-101; and
- (b)(ii) an association, joint-stock company, syndicate, trust or estate, or any other nonnatural person; and
- (b) "qualified residence" means any class four residential dwelling in Montana that is a single-family dwelling unit, unit of a multiple-unit dwelling, trailer, manufactured home, or mobile home and as much of the surrounding land, not exceeding 1 acre, as is reasonably necessary for its use as a dwelling actually occupied by itself or in combination with another class four residential dwelling in Montana for at least 7 months a year."

### Section 5. Section 15-6-222, MCA, is amended to read:

- "15-6-222. Residential and commercial improvements percentage of value exempt. (1) (a) The Except as provided in subsection (1)(b), the following percentage of the market value of residential property described in 15-6-134(1)(e) and (1)(f) is exempt from property taxation:

**Section 6.** Section 15-7-102, MCA, is amended to read:

- "15-7-102. Notice of classification and appraisal to owners appeals. (1) (a) Except as provided in 15-7-138, the department shall mail to each owner or purchaser under contract for deed a notice of the classification of the land owned or being purchased and the appraisal of the improvements on the land only if one or more of the following changes pertaining to the land or improvements have been made since the last notice:
  - (i) change in ownership;
  - (ii) change in classification;
  - (iii) except as provided in subsection (1)(b), change in valuation; or
  - (iv) addition or subtraction of personal property affixed to the land.
- (b) After the first year, the department is not required to mail the notice provided for in subsection (1)(a)(iii) if the change in valuation is the result of an annual incremental change in valuation caused by the phasing in of a reappraisal under 15-7-111 or the application of the exemptions under 15-6-222 or caused by an incremental change in the tax rate.
- (c) The notice must include the following for the taxpayer's informational purposes:
- (i) a notice of the availability of all the property tax assistance programs available to property taxpayers, including the property tax assistance program under 15-6-134, the extended property tax assistance program under 15-6-193, the disabled or deceased veterans' residence exemption under 15-6-211, and the residential property tax credit for the elderly under 15-30-171 through 15-30-179;
- (i)(ii) the total amount of mills levied against the property in the prior year; and
  - (ii)(iii) a statement that the notice is not a tax bill.
- (d) Any misinformation provided in the information required by subsection (1)(c) does not affect the validity of the notice and may not be used as a basis for a challenge of the legality of the notice.
- (2) (a) Except as provided in subsection (2)(c), the department shall assign each assessment to the correct owner or purchaser under contract for deed and mail the notice of classification and appraisal on a standardized form, adopted by the department, containing sufficient information in a comprehensible manner designed to fully inform the taxpayer as to the classification and appraisal of the property and of changes over the prior tax year.

- (b) The notice must advise the taxpayer that in order to be eligible for a refund of taxes from an appeal of the classification or appraisal, the taxpayer is required to pay the taxes under protest as provided in 15-1-402.
- (c) The department is not required to mail the notice of classification and appraisal to a new owner or purchaser under contract for deed unless the department has received the transfer certificate from the clerk and recorder as provided in 15-7-304 and has processed the certificate before the notices required by subsection (2)(a) are mailed. The department shall notify the county tax appeal board of the date of the mailing.
- (3) If the owner of any land and improvements is dissatisfied with the appraisal as it reflects the market value of the property as determined by the department or with the classification of the land or improvements, the owner may request an assessment review by submitting an objection in writing to the department, on forms provided by the department for that purpose, within 30 days after receiving the notice of classification and appraisal from the department. The review must be conducted informally and is not subject to the contested case procedures of the Montana Administrative Procedure Act. As a part of the review, the department may consider the actual selling price of the property, independent appraisals of the property, and other relevant information presented by the taxpayer in support of the taxpayer's opinion as to the market value of the property. The department shall give reasonable notice to the taxpayer of the time and place of the review. After the review, the department shall determine the correct appraisal and classification of the land or improvements and notify the taxpayer of its determination. In the notification, the department shall state its reasons for revising the classification or appraisal. When the proper appraisal and classification have been determined, the land must be classified and the improvements appraised in the manner ordered by the department.
- (4) Whether a review as provided in subsection (3) is held or not, the department may not adjust an appraisal or classification upon the taxpayer's objection unless:
  - (a) the taxpayer has submitted an objection in writing; and
- (b) the department has stated its reason in writing for making the adjustment.
- (5) A taxpayer's written objection to a classification or appraisal and the department's notification to the taxpayer of its determination and the reason for that determination are public records. The department shall make the records available for inspection during regular office hours.
- (6) If any property owner feels aggrieved by the classification or appraisal made by the department after the review provided for in subsection (3), the property owner has the right to first appeal to the county tax appeal board and then to the state tax appeal board, whose findings are final subject to the right of review in the courts. The appeal to the county tax appeal board must be filed within 30 days after notice of the department's determination is mailed to the taxpayer. A county tax appeal board or the state tax appeal board may consider the actual selling price of the property, independent appraisals of the property, and other relevant information presented by the taxpayer as evidence of the market value of the property. If the county tax appeal board or the state tax appeal board determines that an adjustment should be made, the department shall adjust the base value of the property in accordance with the board's order."

**Section 7.** Section 15-7-111, MCA, is amended to read:

- **"15-7-111. Periodic revaluation of certain taxable property.** (1) The department shall administer and supervise a program for the revaluation of all taxable property within classes three, four, and ten. All other property must be revalued annually.
- (2) The department shall value and phase in the value of newly constructed, remodeled, or reclassified property in a manner consistent with the valuation within the same class and the values established pursuant to subsection (1). The department shall adopt rules for determining the assessed valuation and phased-in value of new, remodeled, or reclassified property within the same class.
- (3) The revaluation of class three, four, and ten property is complete on December 31, 2008. The amount of the change in valuation from the 2002 base year for each property in classes three, four, and ten must be phased in each year at the rate of 16.66% of the change in valuation.
- (4) During the end of the second and fourth year of each revaluation cycle, the department shall provide the revenue and transportation interim committee with a sales assessment ratio study of residences to be used to allow the committee to be apprised of the housing market and value trends.
- (3)(5) The department of revenue shall administer and supervise a program for the revaluation of all taxable property within classes three, four, and ten. A comprehensive written reappraisal plan must be promulgated by the department. The reappraisal plan adopted must provide that all class three, four, and ten property in each county is revalued by January 1, 2009 2015, effective for January 1, 2009 2015, and each succeeding 6 years. The resulting valuation changes must be phased in for each year until the next reappraisal. If a percentage of change for each year is not established, then the percentage of phasein for each year is 16.66%."

#### **Section 8.** Section 15-7-201, MCA, is amended to read:

- "15-7-201. Legislative intent value of agricultural property. (1) Because the market value of many agricultural properties is based upon speculative purchases that do not reflect the productive capability of agricultural land, it is the legislative intent that bona fide agricultural properties be classified and assessed at a value that is exclusive of values attributed to urban influences or speculative purposes.
- (2) Agricultural land must be classified according to its use, which classifications include but are not limited to irrigated use, nonirrigated use, and grazing use.
- (3) Within each class, land must be subclassified by production categories. Production categories are determined from the productive capacity of the land based on yield.
- (4) In computing the agricultural land valuation schedules to take effect on the date when each revaluation cycle takes effect pursuant to 15-7-111, the department of revenue shall determine the productive capacity value of all agricultural lands using the formula V = I/R where:
- (a) V is the per-acre productive capacity value of agricultural land in each land use and production category;
- (b) I is the per-acre net income of agricultural land in each land use and production category and is to be determined as provided in subsection (5); and
- (c) R is the capitalization rate and, unless the advisory committee recommends a different rate and the department adopts the recommended

capitalization rate by rule, is equal to 6.4%. This capitalization rate must remain in effect until the next revaluation cycle.

- (5) (a) Net income must be determined separately in each land use based on production categories.
- (b) Net income must be based on commodity price data, which may include grazing fees, crop and livestock share arrangements, cost of production data, and water cost data for the base period using the best available data.
- (i) Commodity price data and cost of production data for the base period must be obtained from the Montana Agricultural Statistics, the Montana crop and livestock reporting service, and other sources of publicly available information if considered appropriate by the advisory committee.
- (ii) Crop share and livestock share arrangements are based on typical agricultural business practices and average landowner costs.
- (iii) Allowable water costs consist only of the per-acre labor costs, energy costs of irrigation, and, unless the advisory committee recommends otherwise and the department adopts the recommended cost by rule, a base water cost of \$5.50 \$15 for each acre of irrigated land. Total allowable water costs may not exceed \$40 \$50 for each acre of irrigated land. Labor and energy costs must be determined as follows:
- (A) Labor costs are zero \$5 an acre for pivot sprinkler irrigation systems; \$4.50 \$10 an acre for tow lines, side roll, and lateral sprinkler irrigation systems; and \$9 \$15 an acre for hand-moved and flood irrigation systems.
- (B) Energy costs must be based on per-acre energy costs incurred in the energy cost base year, which is the calendar year immediately preceding the year specified by the department in 15-7-103(5). By July 1 of the year following the energy cost base year, an owner of irrigated land shall provide the department, on a form prescribed by the department, with energy costs incurred in that energy cost base year. In the event that no energy costs were incurred in the energy cost base year, the owner of irrigated land shall provide the department with energy costs from the most recent year available. The department shall adjust the most recent year's energy costs to reflect costs in the energy cost base year.
- (c) The base crop for valuation of irrigated land is alfalfa hay alfalfa hay adjusted to 80% of the sales price, adjusted to 80% of sales price, and the base crop for valuation of nonirrigated land is *spring* wheat. The base unit for valuation of grazing lands is animal unit months (AUM), defined as the average monthly requirement of pasture forage to support a 1,000-pound cow with a calf or its equivalent.
- (d) Unless the advisory committee recommends a different base period and the department adopts the recommended base period by rule, the base period used to determine net income must be the most recent 7 years for which data is available prior to the date the revaluation cycle ends. Unless the advisory committee recommends a different averaging method and the department adopts the recommended averaging method by rule, data referred to in subsection (5)(b) must be averaged, but the average must exclude the lowest and highest yearly data in the period.
- (6) The department shall compile data and develop valuation manuals adopted by rule to implement the valuation method established by subsections (4) and (5).

- (7) The governor shall appoint an advisory committee of persons knowledgeable in agriculture and agricultural economics. The advisory committee shall include one member of the Montana state university-Bozeman, college of agriculture, staff. The advisory committee shall:
  - (a) compile and review data required by subsections (4) and (5);
- (b) recommend to the department any adjustments to data or to landowners' share percentages if required by changes in government agricultural programs, market conditions, or prevailing agricultural practices;
- (c) recommend appropriate base periods and averaging methods to the department;
- (d) evaluate the appropriateness of the capitalization rate and recommend a rate to the department;
- (e) verify for each class of land that the income determined in subsection (5) reasonably approximates that which the average Montana farmer or rancher could have attained; and
- (f) recommend agricultural land valuation schedules to the department. With respect to irrigated land, the recommended value of irrigated land may not be below the value that the land would have if it were not irrigated."

### Section 9. Section 15-10-420, MCA, is amended to read:

- "15-10-420. Procedure for calculating levy. (1) (a) Subject to the provisions of this section, a governmental entity that is authorized to impose mills may impose a mill levy sufficient to generate the amount of property taxes actually assessed in the prior year plus one-half of the average rate of inflation for the prior 3 years. The maximum number of mills that a governmental entity may impose is established by calculating the number of mills required to generate the amount of property tax actually assessed in the governmental unit in the prior year based on the current year taxable value, less the current year's value of newly taxable property, plus one-half of the average rate of inflation for the prior 3 years.
- (b) A governmental entity that does not impose the maximum number of mills authorized under subsection (1)(a) may carry forward the authority to impose the number of mills equal to the difference between the actual number of mills imposed and the maximum number of mills authorized to be imposed. The mill authority carried forward may be imposed in a subsequent tax year.
- (c) For the purposes of subsection (1)(a), the department shall calculate one-half of the average rate of inflation for the prior 3 years by using the consumer price index, U.S. city average, all urban consumers, using the 1982-84 base of 100, as published by the bureau of labor statistics of the United States department of labor.
- (2) A governmental entity may apply the levy calculated pursuant to subsection (1)(a) plus any additional levies authorized by the voters, as provided in 15-10-425, to all property in the governmental unit, including newly taxable property.
  - (3) (a) For purposes of this section, newly taxable property includes:
  - (i) annexation of real property and improvements into a taxing unit;
  - (ii) construction, expansion, or remodeling of improvements;
  - (iii) transfer of property into a taxing unit;
  - (iv) subdivision of real property; and

- (v) transfer of property from tax-exempt to taxable status.
- (b) Newly taxable property does not include an increase in value that arises because of an increase in the incremental value within a tax increment financing district.
- (4) (a) For the purposes of subsection (1), the taxable value of newly taxable property includes the release of taxable value from the incremental taxable value of a tax increment financing district because of:
  - (i) a change in the boundary of a tax increment financing district;
- (ii) an increase in the base value of the tax increment financing district pursuant to 7-15-4287; or
  - (iii) the termination of a tax increment financing district.
- (b) If a tax increment financing district terminates prior to the certification of taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the year in which the tax increment financing district terminates. If a tax increment financing district terminates after the certification of taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the following tax year.
- (c) For the purpose of subsection (3)(a)(ii), the value of newly taxable class four property that was constructed, expanded, or remodeled property since the completion of the last reappraisal cycle is the current year market value of that property less the previous year market value of that property.
- (e)(d) For the purpose of subsection (3)(a)(iv), the subdivision of real property includes the first sale of real property that results in the property being taxable as class four property or as nonqualified agricultural land as described in 15-6-133(1)(c).
  - (5) Subject to subsection (8), subsection (1)(a) does not apply to:
  - (a) school district levies established in Title 20; or
- (b) the portion of a governmental entity's property tax levy for premium contributions for group benefits excluded under 2-9-212 or 2-18-703.
- (6) For purposes of subsection (1)(a), taxes imposed do not include net or gross proceeds taxes received under 15-6-131 and 15-6-132.
- (7) In determining the maximum number of mills in subsection (1)(a), the governmental entity may increase the number of mills to account for a decrease in reimbursements.
- (8) The department shall calculate, on a statewide basis, the number of mills to be imposed for purposes of 15-10-107, 20-9-331, 20-9-333, 20-9-360, 20-25-423, and 20-25-439. However, the number of mills calculated by the department may not exceed the mill levy limits established in those sections. The mill calculation must be established in whole tenths of mills. If the mill levy calculation does not result in a whole number an even tenth of mills a mill, then the calculation must be rounded up to the nearest whole tenth of a mill.
  - (9) (a) The provisions of subsection (1) do not prevent or restrict:
  - (i) a judgment levy under 2-9-316, 7-6-4015, or 7-7-2202;
  - (ii) a levy to repay taxes paid under protest as provided in 15-1-402;
  - (iii) an emergency levy authorized under 10-3-405, 20-9-168, or 20-15-326; or
  - (iv) a levy for the support of a study commission under 7-3-184.
- (b) A levy authorized under subsection (9)(a) may not be included in the amount of property taxes actually assessed in a subsequent year.

- (10) A governmental entity may levy mills for the support of airports as authorized in 67-10-402, 67-11-301, or 67-11-302 even though the governmental entity has not imposed a levy for the airport or the airport authority in either of the previous 2 years and the airport or airport authority has not been appropriated operating funds by a county or municipality during that time.
- (11) The department may adopt rules to implement this section. The rules may include a method for calculating the percentage of change in valuation for purposes of determining the elimination of property, new improvements, or newly taxable property in a governmental unit."

Section 10. Section 15-16-101, MCA, is amended to read:

- "15-16-101. Treasurer to publish notice manner of publication. (1) Within 10 days after the receipt of the property tax record, the county treasurer shall publish a notice specifying:
- (a) that one-half of all taxes levied and assessed will be due and payable before 5 p.m. on the next November 30 or within 30 days after the notice is postmarked and that unless paid prior to that time the amount then due will be delinquent and will draw interest at the rate of 5/6 of 1% a month from the time of delinquency until paid and 2% will be added to the delinquent taxes as a penalty;
- (b) that one-half of all taxes levied and assessed will be due and payable on or before  $5 \, \mathrm{p.m.}$  on the next May  $31 \, \mathrm{and}$  that unless paid prior to that time the taxes will be delinquent and will draw interest at the rate of  $5/6 \, \mathrm{of} \, 1\%$  a month from the time of delinquency until paid and 2% will be added to the delinquent taxes as a penalty; and
  - (c) the time and place at which payment of taxes may be made.
- (2) (a) The county treasurer shall send to the last-known address of each taxpayer a written notice, postage prepaid, showing the amount of taxes and assessments due for the current year and the amount due and delinquent for other years. The written notice must include:
  - (i) the taxable value of the property;
  - (ii) the total mill levy applied to that taxable value;
- (iii) itemized city services and special improvement district assessments collected by the county;
  - (iv) the number of the school district in which the property is located; and
- (v) the amount of the total tax due that is levied as city tax, county tax, state tax, school district tax, and other tax; and
- (iv) a notice of the availability of all the property tax assistance programs available to property taxpayers, including the property tax assistance program under 15-6-134, the extended property tax assistance program under 15-6-193, the disabled or deceased veterans' residence exemption under 15-6-211, and the residential property tax credit for the elderly under 15-30-171 through 15-30-179.
- (b) If the property is the subject of a tax lien sale for which a tax lien sale certificate has been issued under 15-17-212, the notice must also include, in a manner calculated to draw attention, a statement that the property is the subject of a tax lien sale and that the taxpayer may contact the county treasurer for complete information.
- (3) The municipality shall, upon request of the county treasurer, provide the information to be included under subsection (2)(a)(iii) ready for mailing.

- (4) The notice in every case must be published once a week for 2 weeks in a weekly or daily newspaper published in the county, if there is one, or if there is not, then by posting it in three public places. Failure to publish or post notices does not relieve the taxpayer from any tax liability. Any failure to give notice of the tax due for the current year or of delinquent tax will not affect the legality of the tax.
- (5) If the department revises an assessment that results in an additional tax of \$5 or less, an additional tax is not owed and a new tax bill does not need to be prepared."
  - **Section 11.** Section 15-44-103, MCA, is amended to read:
- "15-44-103. Legislative intent value of forest lands valuation zones. (1) In order to encourage landowners of private forest lands to retain and improve their holdings of forest lands, to promote better forest practices, and to encourage the investment of capital in reforestation, forest lands must be classified and assessed under the provisions of this section.
  - (2) The forest productivity value of forest land must be determined by:
- (a) capitalizing the value of the mean annual net wood production at the culmination of mean annual increment plus other agriculture-related income, if any; less
- (b) annualized expenses, including but not limited to the establishment, protection, maintenance, improvement, and management of the crop over the rotation period.
- (3) To determine the forest productivity value of forest lands, the department shall:
- (a) divide the state into appropriate forest valuation zones, with each zone designated so as to recognize the uniqueness of marketing areas, timber types, growth rates, access, operability, and other pertinent factors of that zone; and
- (b) establish a uniform system of forest land classification that takes into consideration the productive capacity of the site to grow forest products and furnish other associated agricultural uses.
- (4) In computing the forest land valuation schedules for each forest valuation zone to take effect on January 1, 1994, the department shall determine the productive capacity value of all forest lands in each forest valuation zone using the formula V = I/R, where:
  - (a) V is the per-acre forest productivity value of the forest land;
- (b) I is the per-acre net income of forest lands in each valuation zone and is determined by the department using the formula  $I = (M \times SV) + AI \cdot C$ , where:
  - (i) I is the per-acre net income;
  - (ii) M is the mean annual net wood production;
  - (iii) SV is the stumpage value;
  - (iv) AI is the per-acre agriculture-related income; and
- (v) C is the per-unit cost of the forest product and agricultural product produced, if any; and
- (c) R is the capitalization rate determined by the department as provided in subsection (6).
  - (5) Net income must:
- (a) be calculated for each year of a base period, which is the most recent 5-year period for which data is available;

- (b) be based on a rolling average of stumpage value of timber harvested within the forest valuation zone and on the associated production cost data for the base period from sources considered appropriate by the department; and
- (c) include agriculture-related net income for the same time period as the period used to determine average stumpage values.
- (6) The capitalization rate must be calculated for each year of the base period and is the annual average interest rate on agricultural loans as reported by the Northwest farm credit services, agricultural credit association of Spokane, Washington capitalization rate determined by the department after consultation with the forest lands taxation advisory committee, plus the effective tax rate. The capitalization rate must be adopted by rule. However, the capitalization rate for each year of the base period for tax years 2009 through 2014 may not be less than 8%.
- (7) The effective tax rate must be calculated for each year of the base period by dividing the total estimated tax due on forest lands subject to the provisions of this section by the total forest value of those lands.
- (8) For the purposes of this section, if forest service sales are used in the determination of stumpage values, the department shall take into account purchaser road credits.
- (9) In determining the forest productivity value of forest lands and in computing the forest land valuation schedules, the department shall use information and data provided by the university of Montana-Missoula.
  - (10) (a) There is a forest lands taxation advisory committee consisting of:
- (i) four members with expertise in forest matters, one appointed by the majority leader of the senate, one by the minority leader of the senate, one by the majority leader of the house of representatives, and one by the minority leader of the house of representatives; and
- (ii) three members appointed by the governor, one who is an industrial forest landowner, one who is a nonindustrial forest landowner, and one who is a county commissioner.
- (b) The terms of the members expire on June 30 of the first year of each reappraisal cycle.
  - (c) The advisory committee shall:
- (i) review data required by subsections (2) through (6), (8), and (9), including data on productivity value, stumpage value, wood production, capitalization rate, net income, and agriculture-related income;
- (ii) recommend to the department any adjustments to data if required by changes in government forest land programs, market conditions, or prevailing forest lands practices;
- (iii) recommend appropriate base periods and averaging methods to the department;
- (iv) verify for each forest valuation zone and forest land classification under subsection (3) that the income determined in subsection (5) reasonably approximates that which the average Montana forest landowner could have attained; and
  - (v) recommend forest land valuation schedules to the department."
- Section 12. Extension of 2009 deadlines relating to property taxation. As a result of the changes in the mitigation strategy of reappraisal for

class three, four, and ten property enacted by the 61st legislature, it may not be possible to comply with certain statutory deadlines relating to appraisals, assessments, reimbursements, budgets, and collection of property taxes. The state appraisal and assessment process may be delayed, which in turn may cause delays for the tax appeal boards, school districts, and local government taxing jurisdiction budgeting and collection processes. Therefore, for tax year 2009, all deadlines are extended as necessary and reasonable, except that the time limits allowed for filing an appeal remain the same as provided by law in order to allow for the orderly and efficient assessment and collection of taxes.

Section 13. Application deadline extensions. Because the application deadlines for the property tax assistance program in 15-6-134(1)(c) and the disabled or deceased veterans' residence property tax exemption program under 15-6-211 will have passed by [the effective date of this act], the application deadlines for those programs have been extended for tax year 2009 to July 15, 2009.

Section 14. Revenue and transportation interim committee review of property tax assistance. The revenue and transportation interim committee is requested, under the committee's oversight duties, as provided in 5-5-227, to review methods of providing assistance to property taxpayers, including circuit breaker programs and assistance to low-income, veteran, and elderly property owners and whether the assistance should be accomplished through income tax or property taxation means.

Section 15. Appropriation — contingency. (1) There is appropriated \$1,587,053 from the general fund to the department of revenue for the biennium ending June 30, 2011, for the administration of [this act].

(2) If there is a specific appropriation for the administration of the mitigation of reappraisal pursuant to [this act] in House Bill No. 2, then the appropriation made in subsection (1) is void.

**Section 16. Coordination instruction.** If both Senate Bill No. 115 and [this act] are passed and approved, then [section 1 of Senate Bill No. 115], amending 15-6-134, is void.

**Section 17. Saving clause.** [This act] does not affect rights and duties that matured, penalties that were incurred, or proceedings that were begun before [the effective date of this act].

**Section 18.** Effective date. [This act] is effective on passage and approval.

**Section 19. Retroactive applicability.** [This act] applies retroactively, within the meaning of 1-2-109, to tax years beginning after December 31, 2008.

[HB 674]

AN ACT GENERALLY REVISING LAWS RELATING TO CERTAIN STATE LANDS; AUTHORIZING THE CREATION OF STATE DEBT THROUGH THE ISSUANCE OF GENERAL OBLIGATION BONDS FOR PURCHASE AND MANAGEMENT OF REAL PROPERTY AND APPURTENANCES FOR SUSTAINABLE FOREST MANAGEMENT, RECREATIONAL USE, AND INCOME-GENERATING POTENTIAL; APPROPRIATING THE PROCEEDS

OF THE BONDS FOR PURCHASE AND MANAGEMENT OF REAL PROPERTY AND APPURTENANCES FOR SUSTAINABLE FOREST MANAGEMENT, RECREATIONAL USE, AND INCOME-GENERATING POTENTIAL; PROVIDING CONSIDERATIONS FOR THE BOARD OF LAND COMMISSIONERS TO TAKE INTO ACCOUNT WHEN DETERMINING WHETHER TO REQUEST THE ISSUANCE OF BONDS; PROVIDING FOR THE OFFSETTING OF LAND PURCHASES; PROVIDING FOR THE DISPOSITION OF INTEREST AND INCOME; REQUIRING NOTICE ON LAND ACQUISITIONS FOR THE DEPARTMENT OF FISH, WILDLIFE, AND PARKS; REQUIRING THE DEPARTMENT OF FISH, WILDLIFE, AND PARKS TO PAY AN AMOUNT EQUAL TO TAXES ON LAND PURCHASES; PROVIDING A STATUTORY APPROPRIATION; AMENDING SECTIONS 17-5-803, 17-7-502, 87-1-209, AND 87-1-603, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

**Section 1. Public school land acquisition account.** (1) There is a public school land acquisition account in the state special revenue fund established in 17-2-102. The account must be administered by the department.

Centralized Services includes unspecified reductions in general fund money of \$750,000 in fiscal year 2010 and \$750,000 in fiscal year 2011. The agency may allocate these reductions in funding among programs when developing 2011 biennium operating plans.

If House Bill No. 575 is not passed and approved, CBM — Water Production Study is void.

The department is appropriated up to \$600,000 for the 2011 biennium from the state special revenue account established in 85-1-617 for the purchase of prior liens on property held as loan security as required by 85-1-618. The department is authorized to decrease federal special revenue in the pollution control and/or drinking water revolving fund loan programs and increase state special revenue by a like amount within the special administration account when the amount of federal EPA CAP funds has been expended or federal funds and bond proceeds will be used for other program purposes as authorized in law providing for the distribution of funds.

There is appropriated up to \$1 million in state special revenue for the 2011 biennium from the coal bed methane account to fund potential landowner or water right holder claims for emergency loss of water related to coal bed methane development.

## HOUSE JOINT RESOLUTION NO. 4

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA ENCOURAGING CONGRESS TO INCREASE GUBERNATORIAL AUTHORITY WITH RESPECT TO HAZARDOUS FUELS EMERGENCIES AND REDUCTION.

WHEREAS, according to the Montana Legislature's Fire Suppression Interim Committee, with limited state resources and current fuel and climatic conditions, it is likely that communities in Montana will burn and that firefighters and members of the public will be seriously injured or killed; and

WHEREAS, the contributing factors of drought, extensive tree mortality due to insect infestation, and current federal land management policies that allow for extensive accumulations of biomass make Montana's forest lands highly susceptible to catastrophic and environmentally destructive wildfires that threaten public health, safety, and welfare; and

WHEREAS, U.S. Department of the Interior research has confirmed that reducing hazardous biomass fuels away from communities limits the risk of catastrophic wildfires; and

WHEREAS, reducing and using biomass has multiple benefits outside of wildfire mitigation, including alternative energy generation; and

WHEREAS, legislation is needed granting a governor authority to declare a crisis when the severity of fire danger from fuels on identified federal lands within that state poses a significant threat to public health and safety or there would be a probable loss of homes and property if wildfires occur; and

WHEREAS, upon the declaration of a crisis, responsible federal agencies should expedite a mitigation plan to reduce forest fuels, mitigation planning should be excluded under the National Environmental Policy Act appeal process, and any claimant filing a court action against the plan should be required to post a damage bond of 10% of the value of the property that would be protected under a mitigation plan; and

WHEREAS, adoption of these proactive hazardous fuels emergency measures will enhance Montana's ability to manage hazardous fuels in order to reduce the risk of catastrophic and environmentally destructive wildfires.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

- (1) That the United States Congress enact legislation increasing gubernatorial authority with respect to hazardous fuels emergencies and reduction.
- (2) That the Secretary of State send copies of this resolution to the President of the United States; the Western Governors' Association; the Montana Congressional Delegation; and the National Association of Counties.

Adopted April 3, 2009

### HOUSE JOINT RESOLUTION NO. 6

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THE SUPERINTENDENT OF PUBLIC INSTRUCTION AND THE BOARD OF PUBLIC EDUCATION TO WORK WITH THE EDUCATION AND LOCAL GOVERNMENT INTERIM COMMITTEE ON DEVELOPING K-12 SHARED POLICY GOALS AND ACCOUNTABILITY MEASURES THAT CAN BE USED BY LEGISLATORS, THE EDUCATION COMMUNITY, AND THE PUBLIC TO EVALUATE PROGRESS TOWARD THE GOALS AND USED BY THE MONTANA LEGISLATURE TO GUIDE ITS FUNDING DECISIONS.

WHEREAS, Article VIII, section 12, of the Montana Constitution vests the Legislature with the responsibility to ensure strict accountability of all revenue received and money spent by the state, counties, cities, and all other local governmental entities; and

WHEREAS, Article X, section 9, of the Montana Constitution states that the Board of Public Education shall exercise general supervision over the public school system; and

WHEREAS, section 20-3-106, MCA, grants supervision of certain aspects of the public schools and districts of the state to the Superintendent of Public Instruction; and

WHEREAS, entities of the education system have increasingly, and to positive effect, shared leadership between themselves and with the Education and Local Government Interim Committee; and

WHEREAS, agreement upon shared policy goals and accountability measures for the K-12 public education system, agreed upon by the Superintendent of Public Instruction, Board of Public Education, and Education and Local Government Interim Committee, would represent an important advance in interagency cooperation and the quality of education policymaking; and

WHEREAS, shared policy goals must be systematically tied to accountability measures in order to ensure timely and effective implementation of policies.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That shared policy goals and corresponding accountability measures be identified and developed by the Superintendent of Public Instruction and Board of Public Education in consultation with the Education and Local Government Interim Committee.

Adopted March 12, 2009

## HOUSE JOINT RESOLUTION NO. 7

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THE IMMEDIATE MODIFICATION OF INEFFECTIVE FEDERAL LAND MANAGEMENT AND WILDFIRE POLICIES IN ORDER TO PROTECT THE HEALTH, SAFETY, AND WELFARE OF MONTANA'S COMMUNITIES.

WHEREAS, according to the Montana Legislature's Fire Suppression Interim Committee, with limited state and federal resources and current fuel and climatic conditions, it is likely that communities in Montana will burn and that firefighters and members of the public will be seriously injured or killed; and

WHEREAS, the contributing factors of drought, extensive tree mortality due to insect infestation, and ineffective federal land management policies that allow for extensive accumulations of biomass make Montana's forest lands highly susceptible to catastrophic and environmentally destructive wildfires that put Montana communities in imminent danger; and

WHEREAS, without safe and aggressive initial attack on wildfires on all federal lands that have the potential to move to state or private land, the public health, safety, and welfare is threatened, the state's fire suppression costs will substantially increase, and damage to property and natural resources will continue to grow.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

- (1) That the United States Congress and the President of the United States immediately modify federal land management and wildfire policies to ensure that:
- (a) there is safe and aggressive initial attack on wildfires on all federal lands if there is a potential for the fire to move to state or private land;
- (b) state and local governments may actively engage in land and wildfire management operations on federal land in order to protect the public health, safety, and welfare; and
- (c) federal forest road closures that may restrict access to areas for wildland fire suppression be minimized.
- (2) That the Secretary of State send copies of this resolution to the President of the United States, the Montana Congressional Delegation, the Secretary of Agriculture, the Secretary of the Interior, the Chief of the United States Forest Service, the Regional Forester of the United States Forest Service Region 1, and the Director of the Bureau of Land Management.

Adopted March 21, 2009

#### HOUSE JOINT RESOLUTION NO. 8

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA ENDORSING THE OPPORTUNITY PROVIDED BY RICHLAND COUNTY TO CREATE A COMBINED FACILITY FOR THE RICHLAND COUNTY EXTENSION OFFICE AND THE MONTANA STATE UNIVERSITY MONTANA AGRICULTURAL EXPERIMENT STATION AT THE EASTERN AGRICULTURAL RESEARCH CENTER, SIDNEY, MONTANA.

WHEREAS, the Richland County Commissioners have concluded that the local community and the region would be best served by joining the functions and facilities of the Richland County Extension Office with the MAES Eastern Agricultural Research Center; and

WHEREAS, the State of Montana can provide a land lease to Richland County through existing authorities and procedures with the Montana Board of Regents or the State Land Board, or both; and

WHEREAS, the Richland County Commissioners have agreed to provide all financial resources necessary to fund the construction of the \$700,000 building for the Richland County Extension Service, including offices, support rooms, a large meeting room, and shared lobby space, connected to the research facility.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

- (1) That the combined MAES Eastern Agricultural Research Center and Richland County Extension Office would serve to provide enhanced efficiencies and improved research and education opportunities for eastern Montana and the citizens of Montana; and
- (2) That the Legislature authorizes construction of a \$700,000 building for the Richland County Extension Office if, in addition to the \$700,000 for construction, an agreement is signed between the Board of Regents and Richland County that ensures payment of all associated operating and maintenance costs by Richland County for the life of the building or until the building is sold; and
  - (3) That this resolution constitutes consent as provided in 18-2-102. Adopted March 4, 2009

WHEREAS, on December 5, 2008, the Assistant Secretary of the Interior for Fish and Wildlife and Parks announced that the Department of the Interior had finalized updated regulations governing the possession and transportation of firearms in national parks and wildlife refuges; and

WHEREAS, a notice proposing adoption of this regulatory change and requesting public comment was first posted in the Federal Register on April 30, 2008, in Volume 73, Number 84; and

WHEREAS, following the public comment period, final regulations were posted in the Federal Register formally adopting these regulations on December 10, 2008, in Volume 73, Number 238; and

WHEREAS, the new regulations allow possession of concealed weapons consistent with the state laws of the state in which the public land is located; and

WHEREAS, Article II, section 12, of the Montana Constitution preserves the right of any person to bear arms in self-defense and provides that the right may not be called in question; and WHEREAS, Montana law specifically permits qualified persons to carry concealed weapons and regulates the activity in sections 45-8-321 through 45-8-330, MCA; and

WHEREAS, the regulation change by the Department of the Interior has updated federal policy regarding self-defense on public lands to more accurately reflect Montana culture and Montana law authorizing the possession of concealed firearms; and

WHEREAS, following finalization of the regulations by the Department of the Interior, several groups filed suit in federal court in Washington, D.C., in an attempt to block the updated regulations, including the Brady Campaign to Prevent Gun Violence, the National Parks Conservation Association, and the Coalition of National Park Service Retirees.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

## HOUSE JOINT RESOLUTION NO. 15

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING AN INTERIM STUDY TO EVALUATE THE FEASIBILITY OF AND FUNDING SOURCES FOR A MONETARY INCENTIVE PROGRAM TO ENCOURAGE AND COMPENSATE PRIVATE LANDOWNERS WHO GRANT PUBLIC ACCESS TO THEIR PROPERTY FOR RECREATIONAL AND TOURISM-RELATED ACTIVITIES.

WHEREAS, recreational and tourism-related activities, including access to public and private lands for camping, picnicking, canoeing, viewing wildlife and scenery, boating, hiking, bicycling, and four-wheeling, are of great benefit to all Montanans and the state economy; and

WHEREAS, a respectful balance should be struck between the goals of providing public access and preserving private property rights; and

WHEREAS, there is concern that public access to an increasing number of private acres is in jeopardy, as private landowners utilize other income generators on their property that preclude allowing public access for recreational and tourism-related activities; and

WHEREAS, providing monetary incentives to private landowners has proven an effective tool through the block management and hunting and fishing access enhancement programs of the Department of Fish, Wildlife, and Parks to secure public access for hunters and anglers; and

WHEREAS, providing monetary incentives to private landowners who grant public access for recreational and tourism-related activities could be an effective tool for enhancing these opportunities in the state, as well as a less expensive alternative to current state efforts to obtain public access by purchasing property or easements that allow public access to private property.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee, pursuant to section 5-5-217, MCA, or direct sufficient staff resources to evaluate the feasibility of and possible funding sources for creating a program, similar in mission to the block management and hunting and fishing access enhancement programs of the Department of Fish, Wildlife, and Parks, that would provide monetary incentives on a per-user-day basis to private landowners who grant public access to their property for recreational and tourism-related activities.

BE IT FURTHER RESOLVED, that if the study is assigned to staff, any findings or conclusions be presented to and reviewed by an appropriate committee designated by the Legislative Council.

BE IT FURTHER RESOLVED, that all aspects of the study, including presentation and review requirements, be concluded prior to September 15, 2010.

BE IT FURTHER RESOLVED, that the final results of the study, including any findings, conclusions, comments, or recommendations of the appropriate committee, be reported to the 62nd Legislature.

WHEREAS, nursing homes in Montana are experiencing a shortage of licensed nursing staff, particularly in the state's most rural communities; and

WHEREAS, the shortage is likely to only worsen as the baby boom generation continues to age and to seek health care services; and

WHEREAS, facilities are turning to agencies that supply traveling nurses to staff uncovered shifts in a practice that is not only expensive but also affects the delivery of care because the nurses are not familiar with the residents for whom they are caring; and

WHEREAS, to ensure availability of staff to provide care, there is a need to revise the service delivery in nursing homes to use resources that are available in Montana; and

WHEREAS, many states have developed a program of education, training, and certification to allow unlicensed assistive personnel, including certified nursing assistants, to become medication aides who are able to administer medications in nursing homes; and

WHEREAS, the establishment of this level of health care worker may help relieve the nursing shortage and improve the quality of care for nursing home residents by taking pressure off licensed nurses and providing them with more time for assessment and other complex nursing functions, by having medication aides who know the residents administer medications instead of traveling nurses who are not familiar with the residents, and by improving retention and recruitment of certified nursing assistants through a career ladder approach; and

WHEREAS, establishing a nursing home medication aide program in Montana is a complex situation that requires study to obtain information from and cooperation among multiple agencies and organizations; and

WHEREAS, a study of this nature is best accomplished with the assistance of parties that will be involved in regulating nursing homes, nursing services, and medication aides and with the assistance of service providers, professionals, consumers, and advocacy groups who hold vital information.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Department of Public Health and Human Services work in cooperation with the Department of Labor and Industry, the Board of Nursing, and other stakeholders to examine the use of medication aides in nursing homes and to develop a report for the 2011 Legislature that would discuss all provisions necessary for the safe and effective use of medication aides in nursing homes.

BE IT FURTHER RESOLVED, that the study should include but is not limited to:

- (1) identifying other states where the use of medication aides is allowed in nursing homes in order to obtain and review information from those states about:

- (b) the level of supervision by licensed nurses that may be required for medication aides;
- (c) the restrictions on the types of medications or routes of medication administration for medication aides;
- (d) the liability and licensure issues related to supervision by licensed nurses;
- (e) any study, evaluation, or analysis completed by other states related to the use of medication aides;

- (g) the structure for the regulation and licensure or certification of medication aides; and

- (h) other information considered pertinent to the study; and
- (2) obtaining and reviewing information from appropriate state or national organizations related to the use of medication aides, including but not limited to the National Council of State Boards of Nursing and the American Society of Consultant Pharmacists.

BE IT FURTHER RESOLVED, that the Department of Public Health and Human Services in cooperation with the Department of Labor and Industry and the Board of Nursing identify and include in the study and in the development of any report the affected parties and stakeholders, including individuals or associations representing nursing homes, nurses, and medication aides, as well as other service providers and professionals, consumers, and advocacy groups.

BE IT FURTHER RESOLVED, that the Department of Public Health and Human Services report at least quarterly to the Children, Families, Health, and Human Services Interim Committee on the status of the study and that the Department prepare a final report, including any findings, conclusions, comments, or recommendations for the 62nd Legislature.

#### **HOUSE JOINT RESOLUTION NO. 36**

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING AN INTERIM STUDY OF HOW TO ENHANCE ECONOMIC SECURITY OF MONTANANS THROUGH FAMILY ASSET BUILDING, EDUCATION IN HOME OWNERSHIP AND PERSONAL FINANCE, AND DEVELOPMENT OF SMALL BUSINESSES.

WHEREAS, the current economic conditions in the country and this state have increased unemployment to a seasonally adjusted 5.6% in January 2009 from a low of 3.3% in 2006, a situation aggravated, in part, by national conditions related to home mortgage problems, misuse of credit, and lack of personal savings; and

WHEREAS, a study by the University of Montana Bureau of Business and Economic Research for Montana Kids Count indicated that in 2006, through no fault of their own, 8% of Montana's children were in extreme poverty in families at 50% of the federal poverty level; and

WHEREAS, the Legislature recognizes that wealth in families goes beyond financial wealth but that lack of income in and of itself is associated with societal ills such as crime, a higher dropout rate, an inability to pursue an education that maximizes potential earnings, food insecurity, and an inability to access child care that allows single parents in particular to work at a full-time job with benefits; and

WHEREAS, the Legislature supports policies that empower not just the families shaken by current economic conditions but all those in long-term poverty and all Montana families and children who need tools that can build economic self-sufficiency and full participation in the Montana economy; and

WHEREAS, the current economic conditions and concerns about the future stability of Social Security benefits underscore the need for personal retirement savings so that all families have access to the so-called three-legged stool of retirement support: pensions, Social Security, and personal retirement or savings accounts; and

WHEREAS, better coordination of services among public, private, and nonprofit entities has the potential to expand resources used to boost family security in Montana and reduce poverty.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee, pursuant to section 5-5-217, MCA, or direct sufficient staff resources to examine the tools that public and private partnerships can provide to improve economic self-sufficiency, reviewing particularly policies related to:

- (1) building family assets, including the use of individual development accounts to promote home ownership, decrease debt, increase personal savings, and appropriately use and access credit;
- (2) workforce development, including increased education, training, and retraining in combination with economic development opportunities;
  - (3) state regulation of credit, lending, and credit counseling; and
- (4) private, local, and state services or social support systems that provide a safety net for families not yet able to build assets, retrain, or access credit of any kind.

BE IT FURTHER RESOLVED, that the study:

- (1) examine ways to increase effective delivery of services to those in poverty;
- (2) include input from representatives of: families receiving temporary assistance for needy families, food banks, homeless shelters, veterans, senior citizens, tribal governments, day-care centers, banks, insurers, credit unions, pay-day lenders, pawnshop owners, and credit counseling services; and
  - (3) include policy recommendations for the 62nd Legislature.
- BE IT FURTHER RESOLVED, that if the study is assigned to staff, any findings or conclusions be presented to and reviewed by an appropriate committee designated by the Legislative Council.

BE IT FURTHER RESOLVED, that all aspects of the study, including presentation and review requirements, be concluded prior to September 15, 2010.

BE IT FURTHER RESOLVED, that the final results of the study, including any findings, conclusions, comments, or recommendations of the appropriate committee, be reported to the 62nd Legislature.

Adopted April 21, 2009

#### **HOUSE JOINT RESOLUTION NO. 39**

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THAT AN INTERIM COMMITTEE STUDY THE DEVELOPMENT OF ADDITIONAL COMMUNITY SERVICES FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES AND CO-OCCURRING MENTAL ILLNESS OR CERTAIN BEHAVIORS.

WHEREAS, the Montana Legislature has passed statutes with the purpose, as stated in section 53-20-101, MCA, of providing developmentally disabled individuals with services that whenever possible will help them live in their communities in the least restrictive environment possible; and

WHEREAS, individuals with developmental disabilities who have mental illnesses also need to be served with care and compassion in the least restrictive environment that serves the individuals and the community; and

WHEREAS, studies in previous legislative interims have addressed issues regarding services for mentally ill Montanans, but have not addressed the specific issue of serving persons with developmental disabilities who also have mental illness; and

WHEREAS, developmentally disabled people who also are mentally ill may exhibit challenging or aggressive behaviors that put them at risk of involvement in the criminal justice system, where they are unlikely to receive the treatment and habilitation services they need and where they are at risk of victimization by other suspected and convicted offenders; and

WHEREAS, the Montana Legislature has an interest in reviewing community services for people with developmental disabilities who have mental illness or challenging or aggressive behaviors and in providing a forum for stakeholders to discuss options that may provide both urban and rural communities with flexibility in providing services, based on their varying levels of resources.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee, pursuant to section 5-5-217, MCA, or direct sufficient staff resources to study and monitor the development of community services for developmentally disabled children and adults with mental illness across the state and to respond to any underlying issues that have limited the development of community services.

BE IT FURTHER RESOLVED, that the committee include in its study of community services the following topics:

- (1) the ways in which community services should be planned for, prioritized, developed, and provided at the community level;
- (2) the types of community services that should be provided and the populations they could appropriately serve;
- (3) ways to encourage cooperation between and within communities in the planning, development, and provision of community services;
  - (4) funding and cost considerations in the provision of community services;
- (5) the ways in which individuals may be identified and served in the community at the youngest possible age; and
  - (6) any other topics identified by the committee.
- BE IT FURTHER RESOLVED, that the study engage the public and relevant stakeholders, including the Department of Public Health and Human Services and Department of Corrections, to identify any barriers to providing services and to develop findings and recommendations for the next legislative session.
- BE IT FURTHER RESOLVED, that if the study is assigned to staff, any findings or conclusions be presented to and reviewed by an appropriate committee designated by the Legislative Council.
- BE IT FURTHER RESOLVED, that all aspects of the study, including presentation and review requirements, be concluded prior to September 15, 2010.

BE IT FURTHER RESOLVED, that the final results of the study, including any findings, conclusions, comments, or recommendations of the appropriate committee, be reported to the 62nd Legislature.

may then decide if recognition is to be granted. There is no appeal from the Speaker's or presiding officer's decision.

- **H20-20. Questions of order and privilege.** (1) The Speaker shall decide all questions of order and privilege, subject to an appeal by any representative seconded by two representatives. The question on appeal is, "Shall the decision of the chairman be sustained?".

- (4) A member may not address the House on a question of privilege between the time:
  - (a) an undebatable motion is offered and the vote is taken on the motion;
- (b) the previous question is ordered and the vote is taken on the proposition included under the previous question; or
  - (c) a motion to lay on the table is offered and the vote is taken on the motion.
- **H20-30.** Limits on lobbying. Lobbying on the House floor and in the anteroom is prohibited during a daily session, 2 hours before the session, and 2 hours after the session.

The presiding officer shall decide if motions (except a call of the House) or questions are dilatory. This decision may be appealed to the House.
- **H20-60.** Lobbying by employees. (1) A legislative employee, intern, or aide of either house is prohibited from lobbying, although a legislative committee may request testimony from a person so restricted.
- (2) The Speaker may discipline or discharge any House employee violating this prohibition. The Speaker may withdraw the privileges of any House aide or intern violating this prohibition.
- **H20-70.** Papers distributed on desks. A paper concerning proposed legislation may not be placed on representatives' desks unless it is authorized by a member and permission has been granted by the Speaker. The Sergeant-at-Arms shall direct its distribution. This restriction does not apply to material prepared by staff and placed on a representative's desk at the request of the representative.
- **H20-80.** Violation of rules. (1) If a member, in speaking or otherwise, violates the rules of the House, the Speaker shall, or the majority or minority

leader may, call the member to order, in which case the member called to order must be seated immediately.

- (2) The member called to order may move for an appeal to the House and if the motion is seconded by two members, the matter must be submitted to the House for determination by majority vote. The motion is nondebatable.

- (4) If a member is called to order, the matter may be referred to the Rules Committee by the majority or minority leader. The Committee may recommend to the House that the member be censured or be subject to other action. The House shall act upon the recommendation of the Committee.

#### **CHAPTER 3**

#### Committees

- H30-10. House standing committees appointments classification. (1) Each standing committee must be composed of an equal number of members of each political party. The Speaker shall determine the total number of members and after good faith consultation with the minority leader shall appoint the members to the standing committees.
  - (2) The standing committees of the House are as follows:
  - (a) class one committees:
  - (i) Appropriations;
  - (ii) Business and Labor;
  - (iii) Judiciary;
  - (iv) State Administration; and

- (4) The Legislative Council shall review the workload of the standing committees to determine if any change is indicated in the class of a standing committee for the next legislative session. The Legislative Council's recommendations must be submitted to the leadership nominated or elected at the presession caucus provided for in 5-2-201.

- (b) The Republicans will chair the following standing committees: Ethics; Judiciary; Legislative Administration; Local Government; Natural Resources; State Administration; Taxation; and Transportation.
- (c) The Speaker shall appoint the Democratic committee chairmen and vice chairmen and the minority leader, in consultation with the Speaker, shall appoint the Republican committee chairmen and vice chairmen. - (6) There will be six subcommittees of the Committee on Appropriations. The Democrats will chair the subcommittees on Education, General Government and Transportation, Health and Human Services, and Natural Resources. The Republicans will chair the subcommittees on Corrections and Long-Range Planning.
- (7) The Speaker shall give notice of each appointment to the Chief Clerk for publication.
- (8) The Speaker may, in the Speaker's discretion or as authorized by the House, create and appoint select committees, designating the chairman and vice chairman of the select committee. Select committees may request or receive legislation in the same manner as a standing committee and are subject to the rules of standing committees.
- **H30-20.** Chairman's duties. (1) The principal duties of the chairman of standing or select committees are to:
  - (a) preside over meetings of the committee and to put all questions;
- (b) maintain order and decide all questions of order subject to appeal to the committee:
  - (c) supervise and direct staff of the committee;
  - (d) have the committee secretary keep the official record of the minutes;
- (e) sign reports of the committee and submit them promptly to the Chief Clerk;
- (f) appoint subcommittees to perform on a formal or an informal basis as provided in subsection (2); and
  - (g) inform the Speaker of committee activity.
- (2) With the exception of the House Appropriations subcommittees, a subcommittee of a standing committee may be appointed by the chairman of the committee. A subcommittee must be composed of an equal number of members from each political party. The chairman of the standing committee shall appoint the chairman of the subcommittee.

- **H30-30. Quorum officers as members.** (1) A quorum of a committee is a majority of the members of the committee. A quorum of a committee must be present at a meeting to act officially. A quorum of a committee may transact business, and a majority of the quorum, even though it is a minority of the committee, is sufficient for committee action.
- (2) The Speaker, the majority leader, and the minority leader are ex officio, nonvoting members of all House committees. They may count toward establishing a quorum.
- **H30-40. Meetings.** (1) All meetings of committees must be open to the public at all times, subject always to the power and authority of the chairman to maintain safety, order, and decorum. The date, time, and place of committee meetings must be posted.
  - (2) A committee or subcommittee may be assembled for:
- (a) a public hearing at which testimony is to be heard and at which official action may be taken on bills, resolutions, or other matters;
- (b) a formal meeting at which the committees may discuss and take official action on bills, resolutions, or other matters without testimony; or
- (c) a work session at which the committee may discuss bills, resolutions, or other matters but take no formal action.
- (3) All committees meet at the call of the chairman or upon the request of a majority of the members of the committee directed to and with the approval of the Speaker.
- (4) All committees shall provide for and give public notice, reasonably calculated to give actual notice to interested persons, of the time, place, and subject matter of regular and special meetings. All committees are encouraged to provide at least 3 legislative days notice to members of committees and the general public. However, a meeting may be held upon notice appropriate to the circumstances.
- (5) A committee may not meet during the time the House is in session without leave of the Speaker. Any member attending such a meeting must be considered excused to attend business of the House subject to a call of the House.
- (6) All meetings of committees must be recorded and the minutes must be available to the public within a reasonable time after the meeting. The official record must contain at least the following information:
  - (a) the time and place of each meeting of the committee;
  - (b) committee members present, excused, or absent;
- (c) the names and addresses of persons appearing before the committee, whom each represents, and whether the person is a proponent, opponent, or other witness;
  - (d) all motions and their disposition;
  - (e) the results of all votes;
- (f) references to the recording log, sufficient to serve as an index to the original recording; and
  - (g) testimony and exhibits submitted in writing.
- ${\bf H30\text{-}50.}$  **Procedures.** (1) The chairman shall notify the sponsor of any bill pending before the committee of the time and place it will be considered.

- (2) A standing or select committee may not take up referred legislation unless the sponsor or one of the cosponsors is present or unless the sponsor has given written consent. The chairman shall attempt to not schedule Senate bills while the Senate is in session.
  - (3) The committee shall act on each bill in its possession:
  - (a) by reporting the bill out of the committee:
  - (i) with the recommendation that it be referred to another committee;
  - (ii) favorably as to passage; or
  - (iii) unfavorably; or
  - (b) by tabling the measure in committee.
- (4) The committee may not report a bill to the House without recommendation.
- (5) The committee may recommend that a bill on which it has made a favorable recommendation by unanimous vote be placed on the consent calendar. A tie vote in a standing committee on the question of a recommendation to the whole House on a matter before the committee, for example on a question of whether a bill is recommended as "do pass" or "do not pass", does not result in the matter passing out to the whole House for consideration without recommendation.
- (6) In reporting a measure out of committee, a committee shall include in its report:
  - (a) the measure in the form reported out;
  - (b) the recommendation of the committee;
  - (c) an identification of all substantive changes; and
  - (d) a fiscal note, if required.
- (7) If a measure is withdrawn from a committee and brought to the House floor for debate on second reading on that day without a committee recommendation, the bill does not include amendments formally adopted by the committee because committee amendments are merely recommendations to the House that are formally adopted when the committee report is accepted by the House.
- (8) A second to any motion offered in a committee is not required in order for the motion to be considered by the committee.
- (9) The vote of each member on all committee actions must be recorded. All motions may be adopted only on the affirmative vote of a majority of the members voting.
- (10) A motion to take a bill from the table may be adopted by the affirmative vote of a majority of the members present at any meeting of the committee.
- (11) An action formally taken by a committee may not be altered in the committee except by reconsideration and further formal action of the committee.
- (12) A committee may reconsider any action as long as the matter remains in the possession of the committee. A committee member need not have voted with the prevailing side in order to move reconsideration.
- (13) Any legislation requested by a committee requires three-fourths of all members of the committee to vote in favor of the question to allow the committee

to request the drafting or introduction of legislation. Votes requesting drafting and introduction of committee legislation may be taken jointly or separately.

- (14) The chairman shall decide points of order.
- (15) The privileges of committee members include the following:
- (a) to participate freely in committee discussions and debate;
- (b) to offer motions;
- (c) to assert points of order and privilege;
- (d) to question witnesses upon recognition by the chairman;
- (e) to offer any amendment to any bill; and
- (f) to vote, either by being present or by proxy, using a standard form or through the vice chairman or minority vice chairman.
- (16) Any meeting of a committee held through the use of telephone or other electronic communication must be conducted in accordance with Chapter 3 of the House Rules.
- (17) A committee may consolidate into one bill any two or more related bills referred to it whenever legislation may be simplified by the consolidation.
- (18) Committee procedure must be informal, but when any questions arise on committee procedure, the rules or practices of the House are applicable except as stated in the House Rules.
- **H30-60. Public testimony.** (1) Testimony from proponents, opponents, and informational witnesses must be allowed on every bill or resolution before a standing or select committee. All persons, other than the sponsor, offering testimony shall register on the committee witness list.
- (2) Any person wishing to offer testimony to a committee hearing a bill or resolution must be given a reasonable opportunity to do so, orally or in writing. Written testimony may not be required of any witness, but all witnesses must be encouraged to submit a statement in writing for the committee's official record.
- (3) The chairman may order the committee room cleared of visitors if there is disorderly conduct. During committee meetings, visitors may not speak unless called upon by the chairman. Restrictions on time available for testimony may be announced.
- (4) The number of people in a committee room may not exceed the maximum posted by the State Fire Marshal. The chairman shall maintain that limit.
- (5) In any committee meeting, the use of cameras, television, radio, or any form of telecommunication equipment is allowed, but the chairman may designate the areas of the hearing room from which the equipment must be operated. Cell phone use is allowed only at the discretion of the chairman.

#### **CHAPTER 4**

## Legislation

- **H40-10. Introduction deadlines.** If a representative accepts drafted legislation from the Legislative Services Division after the deadline for preintroduction, the representative may not introduce that legislation after 2 legislative days from the time the bill was accepted from the Legislative Services Division.
- H40-20. House resolutions. (1) A House resolution is used to adopt or amend House rules, make recommendations on the districting and

- apportionment plan (Montana Constitution, Art. V, Sec. 14), express the sentiment of the House, or assist House operations.
- (2) As to drafting, introduction, and referral, a House resolution is treated as a bill. A House resolution may be requested and introduced at any time. Final passage of a House resolution is determined by the Committee of the Whole report. A House resolution does not progress to third reading.
- (3) The Chief Clerk shall transmit a copy of each passed House resolution to the Senate and the Secretary of State.
- **H40-30.** Cosponsors. (1) Prior to submitting legislation to the Chief Clerk for introduction, the chief sponsor may add representatives and senators as cosponsors by having them sign the legislation.
- (2) After legislation is submitted for introduction but before the legislation returns from the first House committee, the chief sponsor may add or remove cosponsors by filing a cosponsor form with the Chief Clerk. This filing must be noted by the Chief Clerk for the record on Order of Business No. 11.
- **H40-40.** Introduction receipt. (1) During a session, proposed House legislation may be introduced in the House by submitting it, endorsed with the signature of a representative as chief sponsor, to the Chief Clerk for introduction. Except for the first 15 bill numbers that may be reserved for preintroduced legislation, in each session of the Legislature, the proposed legislation must be numbered consecutively by type in the order of receipt. Submission and numbering of properly endorsed legislation constitutes introduction.
- (2) Preintroduction of legislation prior to a session under provisions of the joint rules constitutes introduction in the House.
- (3) Acknowledgment by the Chief Clerk of receipt of legislation or other matters transmitted from the Senate for consideration by the House constitutes introduction of the Senate legislation in the House or receipt by the House for purposes of applying time limits contained in the House rules. All legislation may be referred to a committee prior to being read across the rostrum as provided in H40-50.
- (4) Acknowledgment by the Chief Clerk of receipt of messages from the Senate or other elected officials constitutes receipt by the House for purposes of any applicable time limit. Senate legislation or messages received from the Senate or elected officials are subject to all other rules.
- **H40-50. First reading.** Legislation properly introduced or received in the House must be announced across the rostrum and public notice provided. This announcement constitutes first reading, and no debate or motion is in order except that a representative may question adherence to rules. Acknowledgment by the Chief Clerk of receipt of legislation transmitted from the Senate commences the time limit for consideration of the legislation. All legislation received by the House may be referred to a committee prior to being read across the rostrum.
- **H40-60.** One reading per day. Except on the final legislative day, legislation may receive no more than one reading per legislative day. On the final legislative day, legislation may receive more than one reading.
- **H40-70. Referral.** (1) The Speaker shall refer to a House committee, joint select committee, or joint special committee all properly introduced House legislation and transmitted Senate legislation in conformity to the committee jurisdiction.

- (2) Legislation may not receive final passage and approval unless it has been referred to a House committee, joint select committee, or joint special committee.
- **H40-80.** Rereferral normal progression. (1) Except as provided in subsection (2), legislation that is in the possession of the House and that has not been finally disposed of may be rereferred to a House committee by House motion approved by not less than three-fifths of the members present and voting.
- (2) Legislation that is in the possession of the House and that has been reported from a committee with a do pass or be concurred in recommendation may be rereferred to a House committee by a majority vote.
- (3) The normal progress of legislation through the House consists of the following steps in the order listed: introduction; referral to a standing or select committee; a report from the committee; second reading; and third reading.
- **H40-90.** Legislation withdrawn from committee. Legislation may be withdrawn from a House committee by House motion approved by not less than three-fifths of the members present and voting.
- **H40-100.** Standing committee reports. (1) A House standing committee recommendation of "do pass" or "be concurred in" must be announced across the rostrum and, if there is no objection to form, is considered adopted.
- (2) A recommendation of "do not pass" or "be not concurred in" must be announced across the rostrum and, on the following legislative day, may be debated and adopted or rejected on Order of Business No. 2. A motion to reject an adverse committee report must be approved by not less than three-fifths of the members voting. Failure to adopt a motion to reject an adverse committee report constitutes adoption of the report.
- (3) If the House rejects an adverse committee report, the bill progresses to second reading, as scheduled by the Speaker, with any amendments recommended by the committee.
- **H40-110.** Consent calendar procedure. (1) Noncontroversial bills and simple and joint resolutions may be recommended for the consent calendar by a standing committee and processed according to the following provisions:
- (a) To be eligible for the consent calendar, the legislation must receive a unanimous vote by the members of the standing committee in attendance (do pass, do pass as amended). In addition, a motion must be made and passed unanimously to place the legislation on the consent calendar and this action reflected in the committee report. Appropriation or revenue bills may not be recommended for the consent calendar.
- (b) The legislation must then be sent to be processed and reproduced as a third reading version and specifically marked as a "consent calendar" item.
- (2) Other legislation may be placed on the consent calendar by agreement between the Speaker and the minority leader following a positive recommendation by a standing committee. The legislation must be sent to be processed as a second reading version but must be specifically announced and posted as a "consent calendar" item.
- (3) Legislation must be posted immediately (as soon as it is received appropriately printed) on the consent calendar and must remain there for 1 legislative day before consideration under Order of Business No. 11, special orders of the day. At that time, the presiding officer shall announce

consideration of the consent calendar and allow "reasonable time" for questions and answers upon request. No debate is allowed.

- (4) If any one representative submits a written objection to the placement of legislation on the consent calendar, the legislation must be removed from the consent calendar and added to the regular second reading board.
- (5) Consent calendar legislation will be considered on Order of Business No. 8, third reading of bills, following the regular third reading agenda, as separately noted on the agenda.
- (6) Legislation on the consent calendar must be considered individually with the roll call vote spread on the journal as the final vote in the House.
- (7) Legislation passed on the consent calendar must then be transmitted to the Senate. Legislation must be appropriately printed prior to transmittal.
- **H40-120.** Legislation requiring other than a majority vote. Legislation that requires other than a majority vote for final passage needs only a majority vote for any action that is taken prior to third reading and that normally requires a majority vote.
- **H40-130.** Amending House second and third reading agendas. (1) A majority of representatives present may rearrange or remove legislation from either the second or third reading agenda on that legislative day.
- (2) Legislation may be added to the second or third reading agenda on that legislative day on a motion approved by not less than three-fifths of the members present and voting.
- **H40-140. Second reading.** (1) Legislation returned from committee may be placed on second reading unless otherwise ordered by the House.
- (2) The House shall form itself into a Committee of the Whole to consider business on second reading. The Committee of the Whole may debate legislation, attach amendments, and recommend approval or disapproval of legislation.
- (3) Except on the final legislative day, at least 1 legislative day must elapse between the time legislation is reported from committee and the time it is considered on second reading.
- (4) If a motion to recommend that a bill "do pass" or "be concurred in" fails in the Committee of the Whole, the obverse, i.e., a recommendation that the bill "do not pass" or "be not concurred in", is considered to have passed. If a motion to recommend that a bill "do not pass" or "be not concurred in" fails in the Committee of the Whole, the obverse, i.e., a recommendation that the bill "do pass" or "be concurred in", is considered to have passed.
- (5) An amendment attached to legislation by the Committee of the Whole remains unless removed by further legislative action.
- (6) When the Committee of the Whole reports to the House, the House shall adopt or reject the Committee of the Whole report. If the House rejects the Committee of the Whole report, the legislation remains on second reading, as amended by the Committee of the Whole, unless the House orders otherwise.
- (7) A representative may move to segregate legislation from the Committee of the Whole report before the report is adopted. Segregated legislation, as amended by the Committee of the Whole, must be placed on second reading unless the House orders otherwise. Amendments adopted by the Committee of the Whole on segregated legislation remain adopted unless reconsidered or unless the legislation is rereferred to a committee.

- **H40-150.** Amendments in the Committee of the Whole. (1) All Committee of the Whole amendments must be checked by the House amendments coordinator for format, style, clarity, consistency, and other factors, in accordance with the most recent Bill Drafting Manual published by the Legislative Services Division, before the amendment may be accepted at the rostrum. The amendment form must include the date and time the amendment is submitted for that check.
- (2) An amendment submitted to the rostrum for consideration by the Committee of the Whole must be marked as checked by the amendments coordinator and signed by a representative. Unless the majority leader, the minority leader, and sponsor agree, amendments must be printed and placed on the members' desks prior to consideration.
- (3) An amendment may not be proposed until the sponsor has opened on a bill.
- (4) A copy of every amendment rejected by the Committee of the Whole must be kept as part of the official records.
  - (5) An amendment may not change the original purpose of the bill.
- ${\bf H40\text{-}160.\ Motions}$  in the Committee of the Whole. (1) When the House resolves itself into a Committee of the Whole, the only motions in order are to:
  - (a) amend;
  - (b) recommend passage or nonpassage;
  - (c) recommend concurrence or nonconcurrence;
  - (d) reconsider;
  - (e) pass consideration;
  - (f) call for cloture;
- (g) rise, rise and report, or rise and report progress and beg leave to sit again; and
  - (h) to change the order in which legislation is placed on the agenda.
- (2) Subsections (1)(d) through (1)(g) are nondebatable but may be amended. Once a motion under subsection (1)(b) or (1)(c) is made, a contrary motion is not in order.
- (3) If a quorum of representatives is not present during second reading, the Committee of the Whole may not conduct business on legislation and a motion for a call of the House without a quorum is in order.
- **H40-170.** Limits on debate in the Committee of the Whole. (1) Except as provided in H40-180, a representative may not speak more than once on the motion and may speak for no more than 5 minutes. The representative who makes the motion may speak a second time for 5 minutes in order to close.
- (2) After at least two proponents and two opponents have spoken on a question and 30 minutes have elapsed, a motion to call for cloture is in order. Approval by not less than two-thirds of the members present and voting is required to sustain a motion for cloture. Notwithstanding the passage of a motion to end debate, the sponsor of the motion on which debate was ended may close.
  - (3) By previous agreement of the majority leader and the minority leader:
- (a) a lead proponent and a lead opponent may be granted additional time to speak on a bill;

- (b) a bill or resolution may be allocated a predetermined amount of time for debate and number of speakers.
- H40-180. Special provisions for debate on the general appropriations bill. (1) The Appropriations Committee chairman, in presenting the bill, is not subject to the 5-minute speaking limitation.
- (2) Each appropriations subcommittee chairman shall fully present the chairman's portion of the bill. A subcommittee chairman is not subject to the 5-minute speaking limitation.
- (3) After the presentation by the subcommittee chairman, the respective section of the bill is open for debate, questions, and amendments. A proposed amendment to the general appropriations act may not be divided.
- (4) An amendment that affects more than one section of the bill must be offered when the first section affected is considered.
- (5) Following completion of the debate on each section, that section is closed and may not be reopened except by majority vote.
- (6) If a member moves to reopen a section for amendment, only the amendment of that member may be entertained. Another member wishing to amend the same section shall make a separate motion to reopen the section.
- (7) Debate on the motion to reopen a section is limited to the question of reopening the section. The amendment itself may not be debated at that time. This limitation does not prohibit the member from explaining the amendment to be considered.
- **H40-190.** Engrossing. (1) After legislation is passed on second reading, it must be engrossed within 48 hours under the direction of the Speaker. The Speaker may grant additional time for engrossing.
- (2) When the legislation that has passed second reading, as amended, has been correctly engrossed, it must be placed on third reading on the following legislative day. If the bill is not amended, the bill must be sent to printing and must be placed on third reading on the legislative day after receipt. On the final legislative day, the correctly engrossed legislation may be placed on third reading on the same legislative day. For the purposes of this rule, "engrossing" means placing amendments in a bill. (See Joint Rule 40-150.)
- **H40-200.** Third reading. (1) All bills, joint resolutions, and Senate amendments to House bills and joint resolutions passing second reading must be placed on third reading the day following the receipt of the engrossing or other appropriate printing report.
  - (2) Legislation on third reading may not be amended or debated.
- (3) The Speaker shall state the question on legislation on third reading. If a majority of the representatives voting does not approve the legislation, it fails to pass third reading.
- **H40-210. Senate legislation in the House.** Senate legislation properly transmitted to the House must be treated as House legislation.
- **H40-220.** Senate amendments to House legislation. (1) When the Senate has properly returned House legislation with Senate amendments, the House shall announce the amendments on Order of Business No. 4, and the Speaker shall place them on second reading for debate. The Speaker may rerefer House legislation with Senate amendments to a committee for a hearing if the Senate amendments constitute a significant change in the House

legislation. The second reading vote is limited to consideration of the Senate amendments.

- (2) If the House accepts Senate amendments, the House shall place the final form of the legislation on third reading to determine if the legislation, as amended, is passed or if the required vote is obtained.
- (3) If the House rejects the Senate amendments, the House may request the Senate to recede from its amendments or may direct appointment of a conference committee and request the Senate to appoint a like committee.
- (4) Conference committees must be composed of an equal number of members from each political party. The members of conference committees must be appointed by the Speaker and the minority leader after good faith consultation. The Speaker and the minority leader shall appoint the members of their respective parties.
- **H40-230.** Conference committee reports. (1) When a House conference committee files a report, the report must be announced under Order of Business No. 3. A tie vote in a conference committee on the question of a recommendation to the whole House on a matter referred for a conference results in the matter passing out to the whole House for consideration without recommendation.
- (2) The House may debate and adopt or reject the conference committee report on second reading on any legislative day. The House may reconsider its action in rejecting a conference committee report under rules for reconsideration, H50-160.
- (3) If both the House and the Senate adopt the same conference committee report on legislation requiring more than a majority vote for final passage, the House, following approval of the conference committee report on third reading, shall place the final form of the legislation on third reading to determine if the required vote is obtained.
- (4) If the House rejects a conference committee report, the committee continues to exist unless dissolved by the Speaker or by motion. The committee may file a subsequent report.
- (5) A House conference committee may confer regarding matters assigned to it with any Senate conference committee with like jurisdiction and submit recommendations for consideration of the House.
- **H40-240.** Enrolling. (1) When House legislation has passed both houses, it must be enrolled within 48 hours under the direction of the Speaker. The Speaker may grant additional time for enrolling.
- (2) The chief sponsor of the legislation shall examine the enrolled legislation and, if it has no enrolling errors, shall, within 1 legislative day, certify the legislation as correctly enrolled.
- (3) The correctly enrolled legislation must be delivered to the Speaker, who shall sign the legislation.
- (4) After the legislation has been reported correctly enrolled but before it is signed, any representative may examine the legislation. (See Joint Rule 40-160.)
- **H40-250.** Governor's amendments. (1) When the Governor returns a bill with recommended amendments, the House shall announce the amendments under Order of Business No. 5.
- (2) The House may debate and adopt or reject the Governor's recommended amendments on second reading on any legislative day.

- (3) If both the House and the Senate accept the Governor's recommended amendments on a bill that requires more than a majority vote for final passage, the House shall place the final form of the legislation on third reading to determine if the required vote is obtained.
- **H40-260.** Governor's veto. (1) When the Governor returns a bill with a veto, the House shall announce the veto under Order of Business No. 5.
- (2) On any legislative day, a representative may move to override the Governor's veto by a two-thirds vote under Order of Business No. 9.

#### CHAPTER 5

#### Floor Actions

- **H50-10.** Attendance. (1) A representative, unless excused, is required to be present at every sitting of the House.
- (2) A representative may request in writing to be excused for a specified cause by the representative's party leader. This excused absence is not a leave with cause from a call of the House.
- **H50-20. Quorum.** (1) A quorum of the House is fifty-one representatives (Montana Constitution, Art. V, Sec. 10).
- (2) Any representative may question the lack of a quorum at any time a vote is not being taken. The question is nondebatable, may not be amended, and is resolved by a roll call.
- (3) The House may not conduct business without a quorum, except that representatives present may convene, compel the attendance of absent representatives, or adjourn.
- **H50-30.** Call of the House without a quorum. (1) In the absence of a quorum, a majority of the representatives present may compel the attendance of absent representatives through a call of the House without a quorum. The motion for the call is nondebatable, may not be amended, and is in order at any time it has been established that a quorum is not present.
- (2) During a call of the House, all business is suspended. No motion is in order except a motion to adjourn or to remove the call.
- (3) When a quorum has been achieved under the call, the call is automatically lifted. The call may also be lifted by adjournment or by two-thirds of the representatives present and voting.
- **H50-40.** Call of the House with a quorum. (1) If a quorum is present but at least one representative is excused or absent, one-third of the representatives present and voting may order a call of the House with a quorum.
- (2) The motion for a call is nondebatable, may not be amended, and is in order at any time a vote is not being taken, except that a call of the House with a quorum is not allowed in the Committee of the Whole.
- (3) During a call of the House, all business is suspended. No motion is in order except a motion to adjourn or to remove the call.
- (4) When all representatives are present, except those on leave with cause, the call is automatically lifted. The call may also be lifted by adjournment or by two-thirds of the representatives present and voting.

- (4) During a call of the House, a representative on leave with cause may not cast an absentee vote.
- **H50-60. Opening and order of business.** The opening of each legislative day must include an invocation, the pledge of allegiance, and roll call. Following the opening, the order of business of the House is as follows:

  - (12) announcement of committee meetings.
- **H50-70. Motions.** (1) Any representative may propose a motion allowed by the rules for the order of business under which the motion is offered for the consideration of the House. Unless otherwise specified in rule or law, a majority of representatives voting is necessary and sufficient to decide a motion.
  - (2) Seconds to motions on the House floor are not required.
- (3) Absentee votes are not allowed on votes that are specified as "representatives present and voting".
- (4) The majority leader shall make routine procedural motions required to conduct the business of the House.
- **H50-80.** Limits on debate of debatable motions. (1) Except for the representative who places a debatable motion before the body, no representative may speak more than once on the question unless a unanimous House consents. The representative who places the motion may close.
- (2) No representative may speak for more than 10 minutes on the same question, except that a representative may have 5 minutes to close.
- **H50-90.** Nondebatable motions. (1) A representative has the right to understand any question before the House and, usually under the administration of the presiding officer, may ask questions to exercise this right.
  - (2) The following motions are nondebatable:

  - (k) to appeal a call to order.
- **H50-100. Questions.** A representative may, through the presiding officer, ask questions of another representative during a floor session. There is no limit on questions and answers, except as provided in H20-50.
- **H50-110.** Amending motions limitations. (1) A representative may move to amend the specific provisions of a motion without changing its substance.
  - (2) No more than one motion to amend a motion is in order at any one time.
- (3) A motion for a call of the House, for the previous question, to table, or to take from the table may not be amended.
- **H50-120.** Substitute motions. (1) When a question is before the House, no substitute motion may be made except the following, which have precedence in the order listed:

- **H50-140.** Dividing a question. Except as provided in H40-180(3), a representative may request to divide a question as a matter of right if it includes two or more propositions so distinct that they can be separated and if at least one substantive question remains after one substantive question is removed.
- **H50-150. Previous question.** (1) If a majority of representatives present and voting adopts a motion for the previous question, debate is closed on the question and it must be brought to a vote. The Speaker may not entertain a motion to end debate unless at least one proponent and one opponent have spoken on the question.
- (2) Notwithstanding the passage of a motion to end debate, the sponsor of the motion on which debate was ended may close.

The motion must be made on Order of Business No. 9, motions. All of the members present and voting are required to consent to the change in order for it to be effective.

- (2) The representative making the motion shall first specify the bill number, the question, and the original vote tally. A vote may not be changed if it would affect the outcome of legislation.
- (3) A vote change must be entered into the journal as a notation that the member's vote was changed. The original printed vote will not be reprinted to reflect the change.
- (4) An error caused by a malfunction of the voting system may be corrected without a vote.
- **H50-220. Absentee votes.** (1) An excused representative may file an absentee vote authorization form to vote during the excused absence on any vote for which absentee voting is allowed.
- (2) An excused representative shall sign an absentee vote authorization form that specifies the motion and the desired vote.
- (3) The absentee vote authorization form must be handed in at the rostrum by the party whip or designated representative before voting on the motion has commenced.
- (4) The absentee vote authorization may be revoked before the vote by the member who signed the authorization.
  - (5) Absentee voting is not allowed on third reading.
- **H50-230.** Recess. The House may stand at ease or recess under any order of business by order of the Speaker or a majority vote. The recess may be ended at the call of the chair or at a time specified.
- **H50-240.** Adjournment for a legislative day. (1) A representative may move that the House adjourn for that legislative day. The motion is nondebatable and may be made under any order of business except Order of Business No. 7.
- (2) A motion to adjourn for a legislative day must specify a date and time for the House to convene on the subsequent legislative day.
- **H50-250. Adjournment sine die.** A representative may move that the House adjourn for the session. The motion is nondebatable and may be made under any order of business except Order of Business No. 7.

## CHAPTER 6

#### Motions

- **H60-10. Proposal for consideration.** (1) Every question presented to the House or a committee must be submitted as a definite proposition.
- (2) A representative has the right to understand any question before the House and, under the authority of the presiding officer, may ask questions to exercise this right.
- **H60-20.** Nondebatable motions. The following motions, in addition to any other motion specifically designated, must be decided without debate:
  - (1) to adjourn;
  - (2) for a call of the House;
  - (3) to recess or rise;
  - (4) for parliamentary inquiry;
  - (5) to table or to take from the table;
  - (6) to call for the previous question or for cloture;

- (7) to amend a nondebatable motion;
- (8) to divide a question;
- (9) to suspend the rules; and
- (10) all incidental motions, such as motions relating to voting or of a general procedural nature.
- **H60-30. Motions allowed during debate.** (1) When a question is under debate, only the following motions are in order. The motions have precedence in the following order:
  - (a) to adjourn;
  - (b) for a call of the House;
  - (c) to recess or rise;
  - (d) for a question of privilege;
  - (e) to table or take from the table;
  - (f) to call for the previous question or cloture;
  - (g) to postpone consideration to a day certain;
  - (h) to refer or rerefer; and
  - (i) to propose amendments.
- (2) This section does not allow a motion that would not otherwise be allowed under a particular order of business.
  - (3) Only one substitute motion is in order at any time.
- **H60-40.** Motions to adjourn or recess. (1) A motion to adjourn or recess is always in order, except:
  - (a) when the House is voting on another motion;
  - (b) when the previous question has been ordered and before the final vote;
  - (c) when a member entitled to the floor has not yielded for that purpose; or
- (d) when business has not been transacted after the defeat of a motion to adjourn or recess.
- (2) The vote by which a motion to adjourn or recess is carried or fails is not subject to a motion to reconsider.
- **H60-50. Motion to table.** (1) A motion to table, if carried, has the effect of postponing action on the proposition to which it was applied until superseded by a motion to take from the table.
- (2) The vote by which a motion to table is carried or fails cannot be reconsidered.
- (3) A motion to table is not in order after the previous question has been ordered.
- **H60-60. Motion to postpone.** A motion to postpone to a day certain may be amended and is debatable within narrow limits. The merits of the proposition that is the subject of the motion to postpone may not be debated.
- **H60-70. Motion to refer.** When a motion is made to refer a subject to a standing committee or select committee, the question on the referral to a standing committee must be put first.
- **H60-80.** Terms of debate on motion to refer or rerefer. (1) A motion to refer or rerefer is debatable within narrow limits. The merits of the proposition that is the subject of the motion may not be debated.

- (2) A motion to refer or rerefer with instructions is fully debatable.
- **H60-100.** Moving the previous question after a motion to table. (1) If a motion to table is made directly to a main motion, a motion for the previous question is not in order.
- (2) If an amendment to a main motion is pending and a motion to table is made, the previous question may be called on the main motion, the pending amendment, and the motion to table the amendment.

#### **H60-110.** Standard motions. The following are standard motions:

- (1) moving House bills or resolutions on second reading, "Mister/Madam Chairman, I move that when this committee does rise and report after having under consideration House Bill \_\_\_\_, that it recommend the same (do pass)/(do pass as amended)/(do not pass)."
- (2) moving Senate bills and Senate amendments to House bills, "Mister/Madam Chairman, I move that when this committee does rise and report after having under consideration Senate Bill \_\_\_/Senate amendments to House Bill \_\_\_, that it recommend the same (be concurred in)/(be not concurred in)."
- (3) Committee of the Whole floor amendments, "Mister/Madam Chairman, I move that House Bill \_\_\_/Senate Bill \_\_\_ be amended and request that the amendment be posted and deemed read."

- (5) changing a vote, "Mister Speaker, I would like my vote changed on House Bill \_\_\_/Senate Bill \_\_\_ from (yes/no) to (yes/no). The question on the bill was ( ) with a vote tally of for and against."
- (6) question another representative, "Mister/Madam Speaker/Chairman, would Representative \_\_\_ yield to a question?"

#### **CHAPTER 7**

#### Rules

- **H70-10.** House rules. (1) The House may adopt, through a House resolution passed by a majority of its members, rules to govern its proceedings.
- (2) After adoption of the House rules, two-thirds of the representatives voting must vote in favor of the question to amend the rules.
- (3) The Speaker shall refer to the House Rules Committee all resolutions for House rules.
- (4) The House Rules Committee shall report all resolutions for House rules within 1 legislative day of referral.
- **H70-20.** Tenure of rules. Rules adopted by the House remain in effect until removed by House resolution or until a new House is elected and takes office.
- **H70-30. Suspension of rules.** The House may suspend a House rule on a motion approved by not less than two-thirds of the members voting.
- **H70-40.** Supplementary rules. Mason's Manual of Legislative Procedure (2000) governs House proceedings in all cases not covered by House rules.
- **H70-50. Interpreting rules.** The Speaker shall interpret all questions on House rules, subject to appeal by any 15 representatives to the House Rules Committee. Unless the delay would cause legislation to fail to meet a scheduled deadline, the House Rules Committee may consider and report on the appeal on

the next legislative day. The decision of the House Rules Committee may be appealed to the House by any representative.

**H70-60. Joint rules superseded.** A House rule, insofar as it relates to the internal proceedings of the House, supersedes a joint rule.

# JOINT RULES OF THE MONTANA SENATE AND HOUSE OF REPRESENTATIVES

#### **CHAPTER 10**

#### Administration

- 10-10. Time of meeting. Each house may order its time of meeting.
- **10-20.** Legislative day duration. (1) If either house is in session on a given day, that day constitutes a legislative day.
- (2) A legislative day for a house ends either 24 hours after that house convenes for the day or at the time the house convenes for the following legislative day, whichever is earlier.
- 10-30. Schedules. The presiding officer of each house shall coordinate its schedule to accommodate the workload of the other house.
- 10-40. Adjournment recess meeting place. A house may not, without the consent of the other, adjourn or recess for more than 3 days or to any

place other than that in which the two houses are sitting (Montana Constitution, Art. V, Sec. 10(5)).

- **10-50.** Access of press. Subject to the presiding officer's discretion on issues of decorum and order, an accredited press representative may not be prohibited from photographing, televising, or recording a legislative meeting or hearing.
- 10-60. Conflict of interest. A member who has a personal or private interest in any measure or bill proposed or pending before the Legislature shall disclose the fact to the house to which the member belongs. (section 2-2-112, MCA)
- 10-70. Telephone calls and internet access. (1) Long-distance telephone calls made by a member while the Legislature is in session or while the member is in travel status are considered official legislative business. These include but are not limited to calls made to constituencies, places of business, and family members. A member's access to the internet through a permissible server is a proper use of the state communication system if the use is for legislative business or is within the scope of permissible use of long-distance telephone calls.
- (2) Session staff, including aides and interns, may use telephones for long-distance calls only if specifically authorized to do so by their legislative sponsor or supervisor. Sponsoring members and supervisors are accountable for use of state telephones and internet access by their staff, including aides and interns, and may not authorize others to use state phones or state servers to access the internet.
- (3) Permanent staff of the Legislature shall comply with executive branch rules applying to the use of state telephones.
- **10-80. Joint employees.** The presiding officers of each house, acting together, shall:
  - (1) hire joint employees; and
- (2) review a dispute or complaint involving the competency or decorum of a joint employee, and dismiss, suspend, or retain the employee.
- 10-85. Harassment prohibited. (1) Legislators and legislative employees have the right to work free of harassment on account of race, color, sex, culture, social origin or condition, or religious ideas when performing services in furtherance of legislative responsibilities, whether the offender is an employer, employee, legislator, lobbyist, or member of the public.
- (2) A violation of this policy must be reported to the party leader in the appropriate house if the offended party is a legislator or to the presiding officer if the offended party is the party leader. The presiding officer may refer the matter to the rules committee of the applicable house, and the offender is subject to discipline or censure, as appropriate.
- (3) If the offended party is an employee of the house of representatives or the senate, the violation must be reported to the employee's supervisor or, if the offender is the supervisor for the house of representatives or the senate, the report should be made to the chief clerk of the house of representatives or to the secretary of the senate, as appropriate. If the offended party is a permanent legislative employee, the report should be made to the employee's supervisor or, if the offender is the supervisor, to the appropriate division director. If the offender is a division director, the report should be made to the presiding officer of the appropriate statutory committee.

- (4) If the offended party is a supervisor for the house of representatives or the senate, the violation must be reported to the chief clerk of the house of representatives or to the secretary of the senate, as appropriate. If the offended party is a supervisor of permanent legislative employees, the violation must be reported to the appropriate division director. If the offender is a division director, the report should be made to the presiding officer of the appropriate statutory committee.
- (5) The chief clerk or the secretary shall report the violation to the presiding officer. The presiding officer may refer the matter to the rules committee. If the offender is an employee or supervisor, the employee or supervisor is subject to discipline or discharge.
- **10-90.** Legislative interns. Qualifications for legislative interns are specified in Title 5, chapter 6, MCA.
- **10-100.** Legislative Services Division. (1) The staff of the Legislative Services Division shall serve both houses as required.

- (3) The Legislative Services Division shall train journal clerks for both houses.
- **10-120. Engrossing and enrolling staff duties.** (1) The Legislative Services Division shall provide all engrossing and enrolling staff.
  - (2) The duties of the engrossing and enrolling staff are:
- (a) to engross or enroll any bill or resolution delivered to them within 48 hours after it has been received, unless further time is granted in writing by the presiding officer of the house in which the bill originated; and
- (b) to correct clerical errors, absent the objection of the sponsor of a bill, resolution, or amendment and the Secretary of the Senate or the Chief Clerk of the House of Representatives in any bill or amendment originating in the house by which the Clerk or Secretary is employed. The following kinds of clerical errors may be corrected:
  - (i) errors in spelling;
  - (ii) errors in numbering sections;
- (iii) additions or deletions of underlining or lines through matter to be stricken;
  - (iv) material copied incorrectly from the Montana Code Annotated;
  - (v) errors in outlining or in internal references;
  - (vi) an error in a title caused by an amendment;
  - (vii) an error in a catchline caused by an amendment;
  - (viii) errors in references to the Montana Code Annotated; and
  - (ix) other nonconformities of an amendment with Bill Drafting Manual form.
- (3) The engrossing and enrolling staff shall give notice in writing of the clerical correction to the Secretary of the Senate or the Chief Clerk of the House, who shall give notice to the sponsor of the bill or amendment. The form must be filed in the office of the amendments coordinator. A party receiving notice may register an objection to the correction by filing the objection in writing with the

Secretary of the Senate or the Chief Clerk of the House by the end of the next legislative day following receipt of the notice. The Senate or House shall vote on whether or not to uphold the objection. If the objection is upheld, the Secretary of the Senate or the Chief Clerk of the House shall notify the Executive Director of the Legislative Services Division, and the engrossing staff shall change the bill to remove the correction or corrections to which the objection was made.

- (4) For the purposes of this rule, "engrossing" means placing amendments in a bill.
  - 10-130. Bills. (1) A bill must be sponsored by a member of the Legislature.
  - (2) A bill must be:
  - (a) printed on paper with numbered lines;
  - (b) numbered at the foot of each page (except page 1);
- (c) backed with a page of substantial material that includes spaces for notations for tracking the progress of the bill; and
  - (d) introduced. Introduction constitutes the first reading of the bill.
- (3) In a section amending an existing statute, matter to be stricken out must be indicated with a line through the words or part to be deleted, and new matter must be underlined.
- (4) Sections of the Montana Code Annotated repealed or amended in a bill must be stated in the title.
- (5) Introduced bills must be reproduced on white paper and distributed to members.
  - (6) An introduced bill may not be withdrawn.
- 10-140. Voting. (1) A bill may not become a law except by vote of the constitutionally required majority of all the members present and voting in each house (Montana Constitution, Art. V, Sec. 11(1)). On final passage, the vote must be taken by ayes and noes and the names of those voting entered on the journal (Montana Constitution, Art. V, Sec. 11(2)).
- (2) Any vote in one house on a bill proposing an amendment to The Constitution of the State of Montana under circumstances in which there exists the mathematical possibility of obtaining the necessary two-thirds vote of the Legislature will cause the bill to progress as though it had received the majority vote.
- (3) This rule does not prevent a committee from tabling a bill proposing an amendment to The Constitution of the State of Montana.
- **10-150.** Recording and publication of voting. (1) Every vote of each member on each substantive question in the Legislature, in any committee, or in Committee of the Whole must be recorded and made available to the public. On final passage of any bill or joint resolution, the vote must be taken by ayes and noes and the names entered on the journal.
- (2) (a) Roll call votes must be taken by ayes and noes and the names entered on the journal on adopting an adverse committee report and on those motions made in Committee of the Whole to:
  - (i) amend;
  - (ii) recommend passage or nonpassage;
  - (iii) recommend concurrence or nonconcurrence; or
  - (iv) indefinitely postpone.

- (b) The text of all proposed amendments in Committee of the Whole must be recorded.
- (3) A roll call vote must be taken on nonsubstantive questions on the request of two members who may, on any vote, request that the ayes and noes be spread upon the journal.
- (4) Roll call votes and other votes that are to be made public but are not specifically required to be spread upon the journal must be entered in the minutes of the appropriate committee or of the appropriate house (Montana Constitution, Art. V, Sec. 11(2)). A copy of the minutes must be filed with the Montana Historical Society. If electronically recorded minutes are kept for a committee, a written log conforming to section 2-3-212(2), MCA, must also be kept.

#### 10-160. Journal. Each house shall:

- (1) supply the Legislative Services Division with the contents of the daily journal to be stored on an automated system;
  - (2) examine its journal and order correction of any errors; and
  - (3) make a daily journal available to all members.
- 10-170. Journals authentication availability. (1) The journal of the Senate must be authenticated by the signature of the President and the journal of the House of Representatives must be authenticated by the signature of the Speaker.

## **CHAPTER 30**

## Committees

- **30-10. Joint committee chair.** Except as provided in Joint Rule 30-50 concerning the joint meetings of the Senate Finance and Claims Committee and the House Appropriations Committee, the chair of the Senate committee is the chair of all joint committees.
- **30-20. Voting in joint committees.** (1) Except for Rules Committees and conference committees, a member of a joint committee votes individually and not by the house to which the committee member belongs.
- (2) Because the Rules Committees and conference committees are joint meetings of separate committees, in those committees the committees from each house vote separately. A majority of each committee shall agree before any action may be taken, unless otherwise specified by individual house rules.
- **30-30.** Conference committees. (1) If either house requests a conference committee and appoints a committee for the purpose of discussing an amendment on which the two houses cannot agree, the other house shall appoint a committee for the same purpose. The time and place of all conference committee meetings must be agreed upon by their chairs and announced from the rostrum. This announcement is in order at any time. Failure to make this announcement does not affect the validity of the legislation being considered. A conference committee meeting must be conducted as an open meeting, and minutes of the meeting must be kept.
- (2) A conference committee, having conferred, shall report to the respective houses the result of its conference. A conference committee shall confine itself to consideration of the disputed amendment. The committee may recommend:

- (a) acceptance or rejection of each disputed amendment in its entirety; or
- (b) further amendment of the disputed amendment.
- (3) If either house requests a free conference committee and the other house concurs, appointments must be made in the same manner as provided in subsection (1). A free conference committee may discuss and propose amendments to a bill in its entirety and is not confined to a particular amendment. However, a free conference committee is limited to consideration of amendments that are within the scope of the title of the introduced bill.
- **30-40. Conference committee enrolling.** A conference committee report must give clerical instructions for a corrected reference bill and for enrolling by referring to the reference bill version.
- **30-50.** Committee consideration of appropriation bills. (1) All general appropriation bills must first be considered by a joint subcommittee composed of designated members of the Senate Finance and Claims Committee and the House Appropriations Committee, and then by each committee separately.
- (2) Joint meetings of the House Appropriations Committee and the Senate Finance and Claims Committee must be held upon call of the chair of the House Appropriations Committee, who is chair of the joint committee.
- (3) The committee chair of the Senate Finance and Claims Committee or of the House Appropriations Committee may be a voting member in the joint subcommittees if:
  - (a) either house has fewer members on the joint subcommittees;
- (b) the chair represents the house with fewer members on the subcommittees; and
- (c) the chair is present for the vote at the time that a question is called. A vote may not be held open to facilitate voting by a chair.
- **30-60.** Estimation of revenue. The Revenue and Transportation Interim Committee shall introduce a House joint resolution for the purpose of estimating revenue that may be available for appropriation by the Legislature. (5-5-227, MCA)
- **30-70. Appointment of interim committees.** As provided for in section 5-5-211(6), MCA, 50% of interim committees must be selected from the following legislative standing committees:

- **40-20. Appropriation bills.** (1) All appropriation bills must originate in the House of Representatives.
- (2) Appropriation bills for the operation of the Legislature must be introduced by the chair of the House Appropriations Committee.

- **40-40.** Bill requests and introduction limits and procedures. (1) Prior to a regular session, a person entitled to serve in that session, referred to as a "member", or a legislative committee is entitled to request bill drafting services from the Legislative Services Division, subject to the following limits:

- (b) After 5 p.m. on December 5, a member may request no more than seven bills or resolutions to be prepared by the Legislative Services Division. At least five of the seven bills or resolutions must be requested before the regular session convenes.
- (c) After December 5, a member, in the member's discretion, may grant to any other member any of the remaining bill or resolution requests the granting member has not used. A bill requested by an individual may not be transferred to another legislator but may be introduced by another legislator. The requestor must pick up the bill and sign a receipt indicating delivery of the bill and may either introduce the bill or give the bill to another legislator for introduction.
  - (d) These limitations on bill and resolution requests do not apply to:
  - (i) Code Commissioner bills;
  - (ii) a bill or resolution requested by a standing committee; and
- (iii) a bill or resolution requested by a member at the request of a newly elected state official if so designated.
- (2) (a) Except as provided in subsection (2)(b) or this subsection, the staff of the Legislative Services Division shall work on bill draft requests in the order received. After a member has requested the drafting of five bills, the sixth bill request and all subsequent bill requests of that member must receive a lower drafting priority than all other bills of members not in excess of five per member. The Speaker of the House, the minority leader of the House, the President of the Senate, and the minority leader of the Senate may each direct the staff of the Legislative Services Division to assign a higher priority to 10 draft requests. The staff of the Legislative Services Division shall assign a higher priority to any bill draft request when jointly directed by the President of the Senate, the minority leader of the Senate, the Speaker of the House, and the minority leader of the House.
- (b) Except for bill draft requests described in subsection (1)(d)(iii), if a draft bill has not been received by the Legislative Services Division by November 15 for a bill by request of an agency or entity, the draft loses its priority under this rule.
- (3) Bills and resolutions must be reviewed by the staff of the Legislative Services Division prior to introduction for proper format, style, and legal form.

The staff of the Legislative Services Division shall store bills on the automated bill drafting equipment and shall print and deliver them to the requesting members. The original bill back must be signed to indicate review by the Legislative Services Division. A bill may not be introduced unless it is so signed.

- (4) (a) During a session, a bill may be introduced by endorsing it with the name of a member and presenting it to the Chief Clerk of the House of Representatives or the Secretary of the Senate. Bills or joint resolutions may be sponsored jointly by Senate and House members. A jointly sponsored bill must be introduced in the house in which the member whose name appears first on the bill is a member. The chief joint sponsor's name must appear immediately to the right of the first sponsor's name, and the chief sponsor may not be changed. Except as provided in subsection (4)(b), in each session of the Legislature, bills, joint resolutions, and simple resolutions must be numbered consecutively in separate series in the order of their receipt.
  - (b) The first 15 House bills may be reserved for preintroduced bills.
- (5) (a) Any bill proposed by an interim or statutory legislative committee or introduced by request of an administrative or executive agency or department must be so indicated by placing after the names of the sponsors the phrase "By Request of the............ (Name of committee or agency)". The phrase may not be added to an introduced bill and may not be placed on a bill whose subject matter was requested by an agency or statutory or interim committee prior to the convening of the session. Unless requested by an individual member, a bill draft request submitted at the request of an agency must be submitted to, reviewed by, and requested by the appropriate interim or statutory committee. Except as provided in subsection (5)(b), an agency or committee bill request must be preintroduced or the request is canceled. Preintroduction must occur no later than 5 p.m. on December 15th prior to the convening of a regular legislative session. Preintroduction is accomplished when the Legislative Services Division receives a signed preintroduction form.
- (b) The preintroduction requirement does not apply to an office held by an elected official during the official's first year in that office or to bills requested by a joint select or joint special committee appointed prior to the convening of the legislative session to address a specific issue.
- (6) Bills may be preintroduced, numbered, and reproduced prior to a legislative session by the staff of the Legislative Services Division. Actual signatures of persons entitled to serve as members in the ensuing session may be obtained on a consent form from the Legislative Services Division and the sponsor's name printed on the bill. Additional sponsors may be added on motion of the chief sponsor at any time prior to a standing committee report on the bill. These names will be forwarded to the Legislative Services Division to be included on the face of the bill following standing committee approval.
- **40-50.** Schedules for drafting requests and bill introduction. (1) The following schedule must be followed for submission of drafting requests.

Request Deadline 5:00 P.M. Legislative Day

•	General Bills and Resolutions	10
,	Revenue Bills	17

- (2) Bills and resolutions must be introduced within 2 legislative days after delivery. Failure to comply with the introduction deadline results in the bill draft being canceled.
- **40-60. Joint resolutions.** (1) A joint resolution must be adopted by both houses and is not approved by the Governor. It may be used to:
  - (a) express desire, opinion, sympathy, or request of the Legislature;
- (b) recognize relations with other governments, sister states, political subdivisions, or similar governmental entities;
  - (c) request, but not require, a legislative entity to conduct an interim study;
  - (d) adopt, amend, or repeal the joint rules;
- (e) approve construction of a state building under section 18-2-102 or 20-25-302, MCA;
- (f) deal with disasters and emergencies under Title 10, specifically as provided in sections 10-3-302(3), 10-3-303(3), 10-3-303(4), and 10-3-505(5), MCA:
  - (g) submit a negotiated settlement under section 39-31-305(3), MCA;
  - (h) declare or terminate an energy emergency under section 90-4-310, MCA;
  - (i) ratify or propose amendments to the United States Constitution;
- (j) advise or request the repeal, amendment, or adoption of a rule in the Administrative Rules of Montana; or
- (k) approve the organization of a new community college district under section 20-15-209, MCA.
- (2) A joint resolution may not be used for purposes of congratulating or recognizing an individual or group achievement. Recognition of individual or group achievements is handled on special orders of the day.
- (3) Except as otherwise provided in these rules or The Constitution of the State of Montana, a joint resolution is treated in all respects as a bill.
- (4) A copy of every joint resolution must be transmitted after adoption to the Secretary of State by the Secretary of the Senate or the Chief Clerk of the House.
- **40-65.** Appropriation required for bills requesting interim studies. A bill including a request for an interim study may not be transmitted to the Governor unless the bill contains an appropriation sufficient to conduct the

- study. A fiscal note may be requested for a bill requesting an interim study if the appropriation does not appear to be sufficient.
- **40-70.** Bills with same purpose vetoes. (1) A bill may not be introduced or received in a house after that house, during that session, has finally rejected a bill designed to accomplish the same purpose, except with the approval of the Rules Committee of the house in which the bill is offered for introduction or reception.
  - (2) Failure to override a veto does not constitute final rejection.
- **40-80. Reproduction of full statute required.** A statute may not be amended or its provisions extended by reference to its title only, but the statute section that is amended or extended must be reproduced or published at length.
- **40-90.** Bills original purpose. A law may not be passed except by bill. A bill may not be so altered or amended on its passage through either house as to change its original purpose (Montana Constitution, Art. V, Sec. 11(1)).
- **40-100.** Fiscal notes. (1) As provided in Title 5, chapter 4, part 2, MCA, all bills reported out of a committee of the Legislature having a potential effect on the revenues, expenditures, or fiscal liability of the state, local governments, or public schools, except appropriation measures carrying specific dollar amounts, must include a fiscal note incorporating an estimate of the fiscal effect. The Legislative Services Division staff shall indicate at the top of each bill prepared for introduction that a fiscal note may be necessary under this rule. Fiscal notes must be requested by the presiding officer of either house, who, at the time of introduction or after adoption of substantive amendments to an introduced bill, shall determine the need for the note, based on the Legislative Services Division staff recommendation.
- (2) The Legislative Services Division shall make available an electronic copy of any bill for which it has been determined a fiscal note may be necessary to the Budget Director immediately after the bill has been prepared for introduction and delivered to the requesting member. The Budget Director may proceed with the preparation of a fiscal note in anticipation of a subsequent formal request. A bill with financial implications for a local government or school district must comply with subsection (4).
- (3) The Budget Director, in cooperation with the governmental entity or entities affected by the bill, is responsible for the preparation of the fiscal note. Except as provided in subsection (4), the Budget Director shall return the fiscal note within 6 days unless further time is granted by the presiding officer or committee making the request, based upon a written statement from the Budget Director that additional time is necessary to properly prepare the note.
- (4) (a) A bill that may require a local government or school district to perform an activity or provide a service or facility that requires the direct expenditure of additional funds without a specific means to finance the activity, service, or facility in violation of section 1-2-112 or 1-2-113, MCA, must be accompanied, at the time that the bill is presented for introduction, by an estimate of all direct and indirect fiscal impacts on the local government or school district. The estimate of the fiscal impacts must be prepared by the Budget Director in cooperation with a local government or school district affected by the bill.
- (b) The Budget Director has 10 days to prepare the estimate. Upon completion of the estimate, the Budget Director shall submit it to the presiding officer and the chief sponsor of the bill.
- (5) A completed fiscal note must be submitted by the Budget Director to the presiding officer who requested it. The presiding officer shall notify the bill's

chief sponsor of the completed fiscal note and request the chief sponsor's signature. The chief sponsor has 1 legislative day after delivery to review the fiscal note and to discuss the findings with the Budget Director, if necessary. After the legislative day has elapsed, all fiscal notes must be reproduced and placed on the members' desks, either with or without the chief sponsor's signature.

- (6) A fiscal note must, if possible, show in dollar amounts:
- (a) the estimated increase or decrease in revenues or expenditures;
- (b) costs that may be absorbed without additional funds; and
- (c) long-range financial implications.
- (7) The fiscal note may not include any comment or opinion relative to merits of the bill. However, technical or mechanical defects in the bill may be noted.
- (8) A fiscal note also may be requested, through the presiding officer, on a bill and on an amended bill by:
  - (a) a committee considering the bill;
- (b) a majority of the members of the house in which the bill is to be considered, at the time of second reading; or
  - (c) the chief sponsor.
- (9) The Budget Director shall make available on request to any member of the Legislature all background information used in developing a fiscal note.
- (10) If a bill requires a fiscal note, the bill may not be reported from a committee for second reading unless the bill is accompanied by the fiscal note or, if required, an updated fiscal note reflecting committee action.
- **40-110. Sponsor's fiscal note.** (1) If a sponsor elects to request the preparation of a sponsor's fiscal note pursuant to section 5-4-204, MCA, the sponsor shall make the election as provided and return the completed sponsor's fiscal note to the presiding officer within 4 days of the election.
- (2) The presiding officer may grant additional time to the sponsor for preparation of the sponsor's fiscal note.
- (3) Upon receipt of the completed sponsor's fiscal note, the presiding officer shall refer it to the committee hearing the bill. If the bill is printed, the note must be identified as a sponsor's fiscal note, reproduced, and placed on the members' desks.
- (4) The Legislative Services Division shall provide forms for preparation of sponsors' fiscal notes and shall print the completed sponsors' fiscal notes on a different color paper than the fiscal notes prepared by the Budget Director.
- **40-120. Substitute bills.** (1) A committee may recommend that every clause in a bill be changed and that entirely new material be substituted so long as the new material is relevant to the title and subject of the original bill. The substitute bill is considered an amendment and not a new bill.
- (2) The proper form of reporting a substitute bill by a committee is to propose amendments to strike out all of the material following the enacting clause, to substitute the new material, and to recommend any necessary changes in the title of the bill.
- (3) If a committee report is adopted that recommends a substitute for a bill originating in the other house, the substitute bill must be printed and reproduced.

- **40-130. Reading of bills.** Prior to passage, a bill, other than a bill requested by a joint select or joint special committee as provided in 40-40(5)(b), must be read three times in the house in which it is under consideration. It may be read either by title or by summary of title. Introduction constitutes the first reading of the bill.
- **40-140.** Second reading bill reproduction. (1) If the majority of a house adopts a recommendation for the passage of a bill originating in that house after the bill has been returned from a committee with amendments, the bill must be reproduced on yellow paper with all amendments incorporated into the copies.
- (2) If a bill has been returned from a committee without amendments, only the first sheet must be reproduced on yellow paper, and the remainder of the text may be incorporated by reference to the preceding version of the entire bill.
- (3) A bill requested by and heard by a joint select or joint special committee, as provided in 40-40(5)(b), may be referred directly to second reading. If the bill is passed by the house of origin, the bill must be transmitted to the other house, and if the bill was not amended, it may be placed on second reading without the need for referral to a committee.
- **40-150. Engrossing.** (1) When a bill has been reported favorably by Committee of the Whole of the house in which it originated and the report has been adopted, the bill must be engrossed if the bill is amended. Committee of the Whole amendments must be included in the engrossed bill. If the bill is not amended, the bill must be sent to printing. The bill must be placed on the calendar for third reading on the legislative day after receipt.
- (2) Copies of the engrossed bill to be distributed to members are reproduced on blue paper. If a bill is unamended by the Committee of the Whole and contains no clerical errors, it is not required to be reprinted. Only the first sheet must be reproduced on blue paper, with the remainder of the text incorporated by reference to the preceding version of the entire bill.
- (3) If a bill is amended by a standing committee in the second house, the amendments must be included in a tan-colored bill and distributed in the second house for second reading consideration. If the bill is amended in Committee of the Whole, the amendments must be included in a salmon-colored reference bill and distributed in the second house for third reading. If the bill passes on third reading, copies of the reference bill must be distributed in the original house. The original house may request from the second house a specified number of copies of the amendments to be printed.
- **40-160. Enrolling.** (1) When a bill has passed both houses, it must be enrolled. An original and two duplicate printed copies of the bill must be enrolled, free from all errors, with a margin of two inches at the top and one inch on each side. In sections amending existing statutes, new matter must be underlined and deleted matter must be shown as stricken.
- (2) When the enrolling is completed, the bill must be examined by the sponsor.
- (3) The correctly enrolled bill must be delivered to the presiding officer of the house in which the bill originated. The presiding officer shall sign the original and two copies of each bill not later than the next legislative day after it has been reported correctly enrolled, unless the bill is delivered on the last legislative day, in which case the presiding officer shall sign it that day. The fact of signing must be announced by the presiding officer and entered upon the journal no later than the next legislative day. At any time after the report of a bill correctly

enrolled and before the signing, if a member signifies a desire to examine the bill, the member must be permitted to do so. The bill then must be transmitted to the other house where the same procedure must be followed.

- (4) A bill that has passed both houses of the Legislature by the 90th day may be:
  - (a) enrolled;
  - (b) clerically corrected by the presiding officers, if necessary;
  - (c) signed by the presiding officers; and
- (d) delivered to the Governor or, in the case of a bill proposing a referendum, to the Secretary of State, not later than 5 working days after the 90th legislative day.
- (5) All journal entries authorized under this rule must be entered on the journal for the 90th day.
- (6) The original and two copies signed by the presiding officer of each house must be presented to the Governor or the Secretary of State, as applicable, in return for a receipt. A report then must be made to the house of the day of the presentation, which must be entered on the journal.
- (7) The original must be filed with the Secretary of State. Signed copies with chapter numbers assigned pursuant to section 5-11-204, MCA, must be filed with the Clerk of the Supreme Court and the Legislative Services Division.
- **40-170. Amendment by second house.** (1) Amendments to a bill by the second house may not be further amended by the house in which the bill originated, but must be either accepted or rejected. A bill amended by the second house when the effect of the combined amendments is to return the bill to the form that the bill passed the house in which the bill originated is not considered to have been amended and need not be returned to the house of origin for acceptance or rejection of the amendments. If the amendments are rejected, a conference committee may be requested by the house in which the bill originated. If the amendments are accepted and the bill is of a type requiring more than a majority vote for passage, the bill again must be placed on third reading in the house of origin.
- (2) The vote on third reading after concurrence in amendments is the vote of the house of origin that must be used to determine if the required number of votes has been cast.
- **40-180. Final action on a bill.** (1) When a bill being heard by the second house has received its third reading or has been rejected, the second house shall transmit it as soon as possible to the original house with notice of the second house's action.
- (2) A bill that reduces revenue and that contains a contingent voidness provision may not be transmitted to the Governor unless there is an identified corresponding reduction in an appropriation contained in the general appropriations act.
- **40-190.** Transmittal of bills between houses. (1) Each house shall transmit to the other with any bill all relevant papers.
- (2) When a House bill is transmitted to the Senate, the Secretary of the Senate shall give a dated receipt for the bill to the Chief Clerk of the House. When a Senate bill is transmitted to the House of Representatives, the Chief Clerk of the House shall give a dated receipt to the Secretary of the Senate.

- (3) Transmitted bills must be referred to committee and scheduled for hearing.
- **40-200.** Transmittal deadlines. (1) (a) A bill or amendment transmitted after the deadline established in this subsection (1) may be considered by the receiving house only upon approval of two-thirds of its members present and voting. If the receiving house does not so vote, the bill or amendment must be held pending in the house to which it was transmitted.
- (b) (i) A bill, except for an appropriation bill, a revenue bill, an interim study resolution, or amendments considered by joint committee, must be transmitted from one house to the other on or before the 45th legislative day.
- (ii) Amendments, except to appropriation bills, bills implementing the general appropriations bill, the revenue estimating resolution, interim study resolutions, and revenue bills, must be transmitted from one house to the other on or before the 73rd legislative day.
- (c) (i) Revenue bills must be transmitted to the other house on or before the 71st legislative day.
- (ii) Amendments to revenue bills, received from the other house, must be transmitted to the house of origin on or before the 82nd legislative day.
  - (iii) A revenue bill is one that either increases or decreases revenue.
- (d) (i) Appropriation bills and any bill implementing provisions of a general appropriation bill must be transmitted to the Senate on or before the 67th legislative day.
- (ii) Senate amendments to appropriation bills must be transmitted by the Senate to the House on or before the 80th legislative day.
- (2) (a) A joint resolution introduced for the purpose of estimating revenue available for appropriation by the Legislature must be transmitted to the Senate no later than the 60th legislative day.
- (b) Amendments to the revenue estimating resolution must be transmitted to the House no later than the 82nd legislative day.
- (3) Bills repealing or directing the amendment or adoption of administrative rules and joint resolutions advising or requesting the repeal, amendment, or adoption of administrative rules may be transmitted at any time during a session.
- (4) Interim study resolutions must be transmitted from one house to the other on or before the 85th legislative day.
- **40-210.** Governor's veto. (1) Except as provided in 40-65 and 40-180, each bill passed by the Legislature must be submitted to the Governor for the Governor's signature. This does not apply to:
  - (a) bills proposing amendments to The Constitution of the State of Montana;
  - (b) bills ratifying proposed amendments to the United States Constitution;
  - (c) resolutions; and
  - (d) referendum measures of the Legislature.
- (2) If the Governor does not sign or veto the bill within 10 days after its delivery, the bill becomes law.
- (3) The Governor shall return a vetoed bill to the Legislature with a statement of reasons for the veto.

- (4) If after receipt of a veto message, two-thirds of the members of each house present approve the bill, it becomes law.
- (5) If the Legislature is not in session when the Governor vetoes a bill, the Governor shall return the bill with reasons for the veto to the Legislature as provided by law. The Legislature may be polled on a bill that it approved by two-thirds of the members present or it may be reconvened to reconsider any bill so vetoed (Montana Constitution, Art. VI, Sec. 10).
- (6) The Governor may veto items in appropriation bills, and in these instances the procedure must be the same as upon veto of an entire bill (Montana Constitution, Art. VI, Sec. 10).
- **40-220.** Response to Governor's veto. (1) When the presiding officer receives a veto message, the presiding officer shall read it to the members over the rostrum. After the reading, a member may move that the Governor's veto be overridden.
- (2) A vote on the motion is determined by roll call. If two-thirds of the members present vote "aye", the veto is overridden. If two-thirds of the members present do not vote "aye", the veto is sustained.
- **40-230.** Governor's recommendations for amendment. (1) The Governor may return any bill to the Legislature with recommendations for amendment. The Governor's recommendations for amendment must be considered first by the house in which the bill originated.
- (2) If the Legislature passes the bill in accordance with the Governor's recommendations, it shall return the bill to the Governor for reconsideration. The Governor may not return a bill to the Legislature a second time for amendment.
- (3) If the Governor returns a bill to the originating house with recommendations for amendment, the house shall reconsider the bill under its rules relating to amendments offered in Committee of the Whole.
  - (4) The bill then is subject to the following procedures:
- (a) The originating house shall transmit to the second house, for consideration under its rules relating to amendments in Committee of the Whole, the bill and the originating house's approval or disapproval of the Governor's recommendations.
- (b) If both houses approve the Governor's recommendations, the bill must be returned to the Governor for reconsideration.
- (c) If both houses disapprove the Governor's recommendations, the bill must be returned to the Governor for reconsideration.
- (d) If one house disapproves the Governor's recommendations and the other house approves, then either house may request a conference committee, which may be a free conference committee.
- (i) If both houses adopt a conference committee report, the bill in accordance with the report must be returned to the Governor for reconsideration.
- (ii) If a conference committee fails to reach agreement or if its report is not adopted by both houses, the Governor's recommendations must be considered not approved and the bill must be returned to the Governor for further consideration.

#### **CHAPTER 60**

## SENATE JOINT RESOLUTION NO. 6

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING 24-HOUR COMMERCIAL SERVICE AT THE PORT OF ENTRY-TURNER.

WHEREAS, there is only one 24-hour commercial entry on the border between the State of Montana and the Canadian Province of Saskatchewan; and

WHEREAS, there is an escalating amount of commercial traffic serving the oil sands region in Canada and newly developed oil fields in the Bakken formation in Montana, as well as traffic serving other commercial opportunities in Saskatchewan, Alberta, and Manitoba; and

WHEREAS, increases in commercial traffic also include manufacturers and suppliers located in the midwestern, southern, and western United States hauling freight to Saskatchewan, Alberta, and Manitoba; and

WHEREAS, an organization promoting rural development in Saskatchewan and Montana has asked the province's government to encourage the use of Saskatchewan's Highway 37 from the Port of Entry-Turner/Port of Climax and Highway 4 north of Swift Current to Saskatoon as an alternate north-south transportation corridor from the United States; and

WHEREAS, Saskatchewan Highway 37 connects to Montana Secondary Highway 241 at the Port of Entry-Turner, which serves as an arterial connector to U.S. Highway 2 at Harlem, with U.S. Highway 2 connecting to Interstate 15 at Shelby, and Montana Secondary Highway 241 also leads to Montana Highway 66 at Fort Belknap, which connects to U.S. Highway 191 and eventually to Interstate 90 at Billings; and

WHEREAS, the practicality of developing this trade corridor is contingent on a 24-hour border crossing facility at the Port of Entry-Turner; and

WHEREAS, 24-hour service at the Port of Entry-Turner and the development of an alternate trade corridor between Montana and Saskatchewan would remove a trade and travel barrier for development of oil and gas, coal, bioenergy, wind, agriculture, tourism, and other industries that require efficient access to markets, thus encouraging new investment and thereby supporting the economic development vision for Montana by promoting investment in central and eastern Montana, including five of the state's Indian reservations; and

WHEREAS, Montana State University-Northern in Havre could see a significant influx of students from southwestern Saskatchewan; and

WHEREAS, a central and inexpensive upgraded commercial port at the Port of Entry-Turner would enhance security surveillance of the border both east and west of this location.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the House of Representatives and the Senate of the State of Montana urge Governor Schweitzer and Montana's Congressional Delegation, as well as the Governor's Office of Economic Development and the Montana Department of Transportation, to work with the U.S. Department of Homeland Security and the Federal Highway Administration to develop 24-hour commercial service at the Port of Entry-Turner and to fund the necessary expansion of infrastructure that would make that service possible.

BE IT FURTHER RESOLVED, that the Montana Secretary of State forward copies of this resolution to the President of the United States, the Prime Minister of Canada, the Governor of Montana, the Premier of Saskatchewan, Montana's Congressional Delegation, the Canadian Minister of Citizenship and Immigration, the Canadian Minister of Public Safety and Emergency Preparedness, the Director of the U.S. Department of Homeland Security, the Director of the U.S. Federal Highway Administration, the Saskatchewan Minister of International and Intergovernmental Relations, the Saskatchewan Minister of Enterprise and Innovation, the Director of the Montana Department of Transportation, the Director of the Montana Department of Commerce, the Chief Development Officer of the Governor's Office of Economic Development, the Speaker of the Legislative Assembly of Saskatchewan, the Saskatchewan Minister of Highways and Infrastructure, the Mayors of the Village of Climax, Town of Eastend, Town of Shaunavon, Village of Frontier, and Town of Gull Lake, and the Reeve of the Rural Municipality of Frontier.

## SENATE JOINT RESOLUTION NO. 15

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA EXPRESSING SUPPORT FOR THE DECISION BY THE UNITED STATES FISH AND

WILDLIFE SERVICE TO DELIST THE GRAY WOLF AND URGING THE MONTANA DEPARTMENT OF FISH, WILDLIFE, AND PARKS TO DEFEND THE DECISION TO DELIST THE GRAY WOLF AGAINST ANY LEGAL CHALLENGE.

WHEREAS, in 2002, the gray wolf population in Montana, Idaho, and Wyoming achieved the biological requirement of a minimum of 30 breeding pairs and at least 300 wolves in a metapopulation in the Northern Rocky Mountains, a threshold established by the United States Fish and Wildlife Service to conclude that the gray wolf is recovered and should be delisted; and

WHEREAS, the tri-state wolf population has remained on the rise with an estimated 107 breeding pairs and 1,513 wolves total at the end of 2007, including an estimated 39 breeding pairs and 422 wolves in Montana; and

WHEREAS, the Montana Department of Fish, Wildlife, and Parks has developed a wolf management plan that is broadly supported by people in the state and has been approved by the United States Fish and Wildlife Service as a plan that will maintain a secure, viable population of gray wolves in Montana after they are removed from the federal endangered species list; and

WHEREAS, the Montana Department of Fish, Wildlife, and Parks is committed to the recovery of the gray wolf and is prepared to assume full responsibility for the management of this native species; and

WHEREAS, state management of the gray wolf is the preferred alternative to federal management of resident wildlife; and

WHEREAS, the United States Fish and Wildlife Service first delisted the gray wolf, effective March 28, 2008, but its decision was prevented from taking effect when the United States District Court in Missoula enjoined the decision on July 18, 2008, and the United States Fish and Wildlife Service requested that the court vacate the final federal rule to delist the gray wolf and remand it back to the service, a request granted by the court on October 14, 2008, officially relisting the gray wolf as an endangered species; and

WHEREAS, the United States Fish and Wildlife Service has completed the reevaluation of its proposal to delist the gray wolf, has reevaluated the wolf management plans proposed by the states of Montana, Wyoming, and Idaho that would take effect upon delisting, has accepted public comment on those plans, has determined that, although Wyoming's plan is not sufficient to conserve Wyoming's portion of the recovered Northern Rockies wolf population, the plans of Montana and Idaho are sufficient to again delist the gray wolf in Montana and Idaho; and

WHEREAS, President Barack Obama put a hold on certain policy decisions made by the administration of former President George W. Bush, including the decision to delist the gray wolf, so that they could be reviewed; and

WHEREAS, on March 6, 2009, the administration of President Barack Obama affirmed the decision of the United States Fish and Wildlife Service to delist the gray wolf; and

WHEREAS, the decision by the United States Fish and Wildlife Service to again delist the gray wolf is expected to face legal challenges and be delayed in court.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the 61st Legislature:

- (1) energetically supports the transfer of management of the gray wolf to the state of Montana;
- (2) defends the efforts of the Montana Department of Fish, Wildlife, and Parks and the United States Fish and Wildlife Service to remove the gray wolf from the federal and state endangered species lists;
- (3) urges President Barack Obama and his administration to fully implement the decision of the United States Fish and Wildlife Service to delist the gray wolf because the population is recovered and Montana's plan and laws to manage wolves are federally approved and will maintain a recovered, delisted population;
- (4) if the decision to delist the gray wolf is challenged in court, urges the Montana Department of Fish, Wildlife, and Parks to vigorously defend its actions and information used to support the delisting of the gray wolf; and
- (5) should the decision to delist the gray wolf be overturned in court, urges the Montana Department of Fish, Wildlife, and Parks to find a viable proposal to delist the gray wolf as soon as possible.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the President of the United States, the Montana Congressional Delegation, the Majority Leader of the United States Senate, the Speaker of the United States House of Representatives, the Secretary of the United States Department of the Interior, and the Director of the United States Fish and Wildlife Service.

# SENATE JOINT RESOLUTION NO. 30

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING AN INTERIM STUDY TO EXAMINE THE PREMIUM COST DRIVERS IN MONTANA'S WORKERS' COMPENSATION SYSTEM AND LAWS RELATED TO THE MONTANA STATE FUND AND TO PROPOSE LEGISLATION FOR CONSIDERATION BY THE 62ND LEGISLATURE TO ADDRESS THE PREMIUM COST DRIVERS AND THE MONTANA STATE FUND.

WHEREAS, Montana has the second highest workers' compensation premium rates in the nation, according to the 2008 Oregon Workers' Compensation Premium Rate Ranking Summary; and

WHEREAS, Montana recorded 6.3 injuries for every 100 full-time equivalent workers in 2007 or 1.5 times the comparable national data of 4.2 injuries for every 100 full-time equivalent workers; and

WHEREAS, Montana's medical costs account for 69% of benefit dollars, according to the National Council for Compensation Insurance State Advisory Forum Report, 2008, and in 2004 Montana's medical benefits were more than 77% greater than the national average, ranking Montana second of 46 jurisdictions surveyed nationwide for the share of medical benefits in workers' compensation costs; and

WHEREAS, the time spent off work after an injury is 26% higher in Montana than the national average, according to the National Council for Compensation Insurance State Advisory Forum Report, 2008; and

WHEREAS, the Labor-Management Advisory Council on Workers' Compensation consisting of equal representation of the two primary workers' compensation stakeholders groups, namely management and labor, was formed in December 2006 under agency order by the Commissioner of Labor and Industry and was commissioned to identify and research the primary cost drivers in workers' compensation; and

WHEREAS, a February 2009 Legislative Audit Division report concluded that legal compliance risks faced by the Montana State Fund may be higher because of an internal and external lack of regulatory oversight mechanisms, which is of potential significance because of Montana State Fund's current market dominance of 67% of a market that is shared with private carriers providing workers' compensation insurance, excluding self-insured employers; and

WHEREAS, statutory direction for the Montana State Fund to operate as a self-sustaining business in a manner similar to that of a privately operated mutual insurance business has resulted in the Montana State Fund developing compensation and incentive plans and premium and other performance measures similar to those of private companies.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee, pursuant to section 5-5-217, MCA, or direct sufficient staff resources to conduct a review of Montana's workers' compensation premium cost drivers as compared to premium cost drivers in other Western states with similar industries. The review is to include:

- (a) duration and availability of and access to medical treatments;
- (b) use of utilization and treatment guidelines and their effectiveness in other jurisdictions; and

- (3) research and analysis on whether Montana should include presumptions regarding occupational diseases associated with specific occupations;
- (4) recommendations on the appropriate payment of attorney fees in cases involving medical benefits;
- (5) evaluation of and recommendations on exemptions in workers' compensation;

(6) structural issues in Montana, particularly as they relate to the three-tiered system involving self-insurers, private carriers, and the Montana State Fund.

BE IT FURTHER RESOLVED, that the study identify any additional areas that impact premium cost drivers and request the Labor-Management Advisory Council on Workers' Compensation to research these areas and the interaction between workers and employers that may affect the premium cost drivers.

BE IT FURTHER RESOLVED, that the study incorporate reports from the Labor-Management Advisory Council and stakeholders involved in workers' compensation insurance, including injured workers, attorneys or other representatives for injured workers, insurers, and employers, and that the material from the study be compiled into a report and draft legislation for consideration by the 62nd Legislature.

BE IT FURTHER RESOLVED, that the study examine the operation and structure of the Montana State Fund, the Montana State Fund's relationship with state government and other insurers, and state oversight of the Montana State Fund.

BE IT FURTHER RESOLVED, that if the study is assigned to staff, any findings or conclusions be presented to and reviewed by an appropriate committee designated by the Legislative Council.

BE IT FURTHER RESOLVED, that all aspects of the study, including presentation and review requirements, be concluded prior to September 15, 2010.

WHEREAS, Montana law prohibits individuals from driving under the influence of alcohol or drugs; and

WHEREAS, Montana law in this area has become a complex patchwork of statutes arising from federal mandates, initiatives by legislators or task forces, and case-specific circumstances; and

WHEREAS, law enforcement officers, prosecutors, public defenders, courts, addiction counselors, treatment professionals, probation officers, and driver control analysts struggle to interpret these statutes and apply the results to the wide range of circumstances that these offenders present; and

WHEREAS, first-time convictions of driving under the influence rose 19% from 2004 to 2008; and

WHEREAS, there was a 16% increase in repeat offenses from 2004 to 2008, including second or subsequent DUI and felony DUI; and

WHEREAS, implied consent refusals increased 24% from 2004 to 2008; and

WHEREAS, the Montana Highway Patrol reports that in 2007 there were 324 drivers involved in 249 fatal crashes, and 123 of those involved drivers under the influence; and

WHEREAS, the Montana Highway Patrol reports that in 2007 there were 9,541 drivers involved in injury crashes, and 1,161 of those involved drivers under the influence; and

WHEREAS, it is the duty of the Legislature to protect the safety of the public on public highways.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee or statutory committee, pursuant to 5-5-217, MCA, or direct sufficient staff resources to study the issue of driving under the influence of

alcohol or drugs generally and determine any legislation that might augment current law to reduce the incidence of this crime. The study should:

- (1) identify strengths and weaknesses in Montana's driving under the influence statutes, as well as possible alternative penalty and enforcement provisions or new technologies that might aid Montana's enforcement of driving under the influence laws and reduce the incidence of repeat offenses;
- (2) examine laws and enforcement practices in other states, including license suspensions, technology, and available resources;
- (3) examine Montana's current rates of incarceration due to driving under the influence convictions, current incarceration and treatment capacities, and possible alternatives; and

BE IT FURTHER RESOLVED, that if the study is assigned to staff, any findings or conclusions be presented to and reviewed by an appropriate committee designated by the Legislative Council.

BE IT FURTHER RESOLVED, that all aspects of the study, including presentation and review requirements, be concluded prior to September 15, 2010

  - (B) favorably as to passage; or
  - (C) unfavorably; or
  - (ii) by tabling the measure in committee.
- (b) At the written request of the sponsor, a committee may finally dispose of a bill without a hearing. Except as provided in S30-60(7), a bill may not be reported from a committee without a hearing.
- (4) The committee may not report a bill to the Senate without recommendation.
- (5) In reporting a measure out of committee, a committee shall include in its report:
  - (a) the measure in the form reported out;
  - (b) the recommendation of the committee;
  - (c) an identification of all proposed changes; and
  - (d) a fiscal note, if required.
- (6) If a measure is taken from a committee and brought to the Senate floor for debate on second reading on that day without a committee recommendation, the bill does not include amendments formally adopted by the committee because committee amendments are merely recommendations to the Senate that are formally adopted when the committee report is accepted by the Senate.
- (7) A second to any motion offered in a committee is not required in order for the motion to be considered by the committee.

- (8) The vote of each member on all committee actions must be recorded and reported in the committee minutes. All motions may be adopted only on the affirmative vote of a majority of the members voting.
- (9) A motion to take a bill from the table may be adopted by the affirmative vote of a majority of the members present at any meeting of the committee.
- (10) An action formally taken by a committee may not be altered in the committee except by reconsideration and further formal action of the committee.
- (11) A committee may reconsider any action as long as the matter remains in the possession of the committee. A bill is in the possession of the committee until a report on the bill is made to the committee of the whole. A committee member need not have voted with the prevailing side in order to move reconsideration.
  - (12) The chair shall decide points of order.
  - (13) The privileges of committee members include the following:
  - (a) to participate freely in committee discussions and debate;
  - (b) to offer motions;
  - (c) to assert points of order and privilege;
  - (d) to question witnesses upon recognition by the chair;
  - (e) to offer any amendment to any bill; and
  - (f) to vote, either by being present or by proxy, using a standard form.
- (14) Any meeting of a committee held through the use of telephone or other electronic communication must be conducted in accordance with Chapter 3 of the Senate Rules.
- (15) A committee may consolidate into one bill any two or more related bills referred to it whenever legislation may be simplified by the consolidation.
- (16) Committee procedure must be informal, but when any questions arise on committee procedure, the rules or practices of the Senate are applicable except as stated in the Senate Rules.
- **S30-80. Public testimony.** (1) Testimony from proponents, opponents, and informational witnesses must be allowed on every bill or resolution before a standing or select committee. All persons, other than the sponsor, offering testimony shall register on the committee witness list.
- (2) Any person wishing to offer testimony to a committee hearing a bill or resolution must be given a reasonable opportunity to do so, orally or in writing, subject to time constraints. Written testimony may not be required of any witness, but all witnesses must be encouraged to submit a statement in writing for the committee's official record.
- (3) The chair may order the committee room cleared of visitors if there is disorderly conduct. During committee meetings, visitors may not speak unless called upon by the chair. Restrictions on time available for testimony may be announced.
- (4) The number of people in a committee room may not exceed the maximum posted by the State Fire Marshall. The chair shall maintain that limit.
- (5) In any committee meeting, the use of cameras, television, radio, or any form of telecommunication equipment is allowed, but the chair may designate the areas of the hearing room from which the equipment must be operated. Cell phone use is at the discretion of the chair.

- S30-100. Pairs prohibited absentee or proxy voting. Pairs in standing committee are prohibited. Standing and select committees may by a majority vote of the committee authorize Senators to vote in absentia while engaged in other legislative business. Authorization for absentee or proxy voting must be reflected in the committee minutes.
- **S30-140.** Reconsideration in committee. A committee may at any time prior to submitting a report to the Secretary of the Senate reconsider its previous action on legislation.
- **S30-150.** Committee requested legislation. (1) (a) Except as provided in subsection (1)(b), at least three-fourths of all the members of a standing committee must have voted in favor of the question to allow the committee to request the drafting and introduction of legislation.
- (b) The Finance and Claims Committee may request the drafting and introduction of legislation by a majority vote of all of the members of the committee.
- (2) The chair of a committee shall introduce, or shall designate a member of the committee to introduce, legislation requested by the committee. The introduced bill must be referred to the requesting committee.
- **S30-160.** Ethics Committee. (1) The Ethics Committee shall meet only upon the call of the chair after the referral of an issue from the Rules Committee or to consider a request for a determination pursuant to subsection (4). The Rules Committee may be convened to consider the referral of a matter to the Ethics Committee upon the request of a Senator. The Rules Committee shall prepare a written statement of the specific question or issue to be addressed by the Ethics Committee. The issues referred to the Ethics Committee must be related to the actions of a Senator during a legislative session.
  - (2) The matters that may be referred to the Ethics Committee are:
  - (a) a violation of:
  - (i) 2-2-103;
  - (ii) 2-2-104;
  - (iii) 2-2-111;
  - (iv) 2-2-112:
- (b) the use or threatened use of a Senator's position for personal or personal business benefit or advantage; or
- (c) any other violation of law by a Senator while acting in the capacity of Senator.
- (3) If there is a recommendation from the Ethics Committee, the recommendation is made to the Senate.
- (4) As provided in 2-2-112, a Senator may seek a determination from the Ethics Committee concerning the possibility of a personal conflict of interest.

# CHAPTER 4

#### Legislation

- **S40-10. Types of legislation.** The only types of legislation that may be introduced in the Senate are those that have been drafted and approved by the Legislative Services Division and signed by a Senator as chief sponsor. The types of legislation allowed include:
  - (1) bills of any subject, except appropriations;

- (2) joint resolutions, which may be used for any purpose specified in Joint Rule 40-60; and
  - (3) simple resolutions, which may:
  - (a) adopt or amend Senate rules;
  - (b) provide for the internal affairs of the Senate;
  - (c) express confirmation of the Governor's appointments; or
- (d) make recommendations concerning the districting and apportionment plan as provided by Article V, section 14(4), of the Montana Constitution.
- **S40-20.** Introduction first reading. (1) Upon receiving a bill or resolution from a Senator, the Secretary of the Senate shall assign an appropriate sequential number, which constitutes introduction of the legislation. Legislation properly introduced or received in the Senate must be announced across the rostrum and public notice provided. This announcement constitutes first reading, and no debate or motion is in order except that a Senator may question adherence to rules. Acknowledgment by the Secretary of the Senate of receipt of legislation transmitted from the House commences the time limit for consideration of the legislation. All legislation received by the Senate may be referred to a committee prior to being read across the rostrum.
- (2) Bills and resolutions preintroduced as provided in Joint Rule 40-40 may be assigned to committee and printed prior to the legislative session. The Legislative Services Division is responsible for ensuring the preintroduction intent from each Senator and presenting the preintroduced legislation to the Secretary of the Senate.
- (3) Upon referral to committee, the Secretary of the Senate shall publicly post a listing of the bill or resolution by a summary of its title, together with a notation of the committee to which it has been assigned.
- (4) The sponsor may ask the Legislative Services Division to change or correct a short title used on the bill status system.
- **S40-30.** Additional sponsors. (1) Additional sponsors may be added on motion of the chief sponsor at any time prior to a standing committee report on the bill or resolution. Forms for adding sponsors will be supplied on request by the Secretary of the Senate.
- (2) Upon passage of the motion, the names of the additional sponsors will be printed in the journal and the form containing the signatures of the additional sponsors will be forwarded to the Legislative Services Division with the original bill for the inclusion of the names in subsequent printings of the bill or resolution.
- **S40-40. Reading limitations.** (1) Every bill must be read three times prior to passage, either by title or by summary of title as provided in these rules.
- (2) A bill or resolution may not have more than one reading on the same day except the last legislative day.
  - (3) An amendment may not be offered on third reading.
- **S40-60.** Scheduling for second reading. (1) All bills and resolutions that have been reported by a committee or withdrawn from a committee by motion, accepted by the Senate, and reproduced must be scheduled for consideration by Committee of the Whole.
- (2) Until the 50th legislative day, 1 day must elapse between receiving the legislation from printing and scheduling for second reading for consideration by

Committee of the Whole unless a printed version of an unamended bill is available.

(3) The majority leader shall arrange legislation on the agenda in the order in which the bills will be considered, unless otherwise ordered by the Senate or Committee of the Whole.

#### **CHAPTER 5**

#### **Floor Action**

- **S50-10.** Attendance mandatory voting quorum. (1) Unless excused, Senators must be present at every sitting of the Senate and shall vote on questions put before the Senate.
- (2) A majority of the Senate shall constitute a quorum to do business, but a smaller number may adjourn from day to day and compel the attendance of absent Senators, in the manner and under penalties as the Senate may prescribe (Montana Constitution, Art. V, sec. 10(2)).
- **S50-20. Orders of business.** After prayer, roll call, and report on the journal, the order of business of the Senate is as follows:
  - (1) communications and petitions;
  - (2) reports of standing committees;
  - (3) reports of select committees;
  - (4) messages from the Governor;
  - (5) messages from the House of Representatives;
  - (6) motions;
  - (7) first reading and commitment of bills;
  - (8) second reading of bills (Committee of the Whole);
  - (9) third reading of bills;
  - (10) unfinished business;
  - (11) special orders of the day; and
  - (12) announcement of committee meetings.

To revert to or pass to a new order of business requires only a majority vote. Unless otherwise specified in the motion to recess, the Senate shall revert to Order of Business No. 1 when reconvening after a recess.

- **S50-30.** Limitations on debate. A Senator may not speak more than twice on any one motion or question without unanimous consent of the Senate, unless the Senator has introduced or proposed the motion or question under debate, in which case the Senator may speak twice and also close the debate. However, a Senator who has spoken may not speak again on the same motion or question to the exclusion of a Senator who has not spoken.
- **S50-40.** Procedure upon offering a motion. (1) When a motion is offered it must be restated by the presiding officer. If requested by the presiding officer or a Senator, it must be reduced to writing, presented at the rostrum, and read aloud by the Secretary.
- (2) A motion may be withdrawn by the Senator offering it at any time before it is amended or voted upon.
- **S50-50. Precedence of motions.** (1) When a question is under debate only the following privileged and subsidiary motions may be made:
  - (a) to adjourn;

- (b) for a call of the Senate;
- (c) to recess;
- (d) question of privilege;
- (e) to lay on the table;
- (f) for the previous question;
- (g) to postpone to a certain day;
- (h) to refer or commit;
- (i) to amend; and
- (j) to postpone indefinitely.
- (2) The motions listed in subsection (1) have precedence in the order listed.
- (3) A question may be indefinitely postponed by a majority roll call of all Senators present and voting. When a bill or resolution is postponed indefinitely, it is finally rejected and may not be acted upon again except upon a motion of reconsideration.
- (4) A motion or proposition on a subject different from that under consideration may not be accepted unless a substitute motion is in order.

## **S50-60.** Nondebatable motions. The following motions are not debatable:

- (1) to adjourn;
- (2) for a call of the Senate;
- (3) to recess or rise;
- (4) for parliamentary inquiry;
- (5) for suspension of the rules;
- (6) to lay on the table;
- (7) for the previous question;
- (8) to limit, extend the limits of, or to close debate;
- (9) to amend an undebatable motion;
- (10) to divide a question;
- (11) to pass business in Committee of the Whole;
- (12) to take from the table;
- (13) a decision of the presiding officer, unless appealed or unless the presiding officer submits the question to the Senate for advice or decision; and
- (14) all incidental motions, such as motions relating to voting or other questions of a general procedural nature.
- **S50-70.** Amending motions. (1) Subject to subsection (2), no more than one amendment and no more than one substitute motion may be made to a motion. This rule permits the main motion and two modifying motions.
- (2) A motion for a call of the Senate, for the previous question, to table, or to take from the table may not be amended.
- **S50-80.** Previous question. (1) Except as provided in subsection (2), the effect of calling for the previous question, if adopted, is to close debate immediately, to prevent the offering of amendments or other subsidiary motions, and to bring to vote promptly the immediately pending main question and the adhering subsidiary motions, whether on appeal or otherwise.

- (2) When the previous question is ordered on any debatable question on which there has been no debate, the question may be debated for one-half hour, one-half of that time to be given to the proponents and one-half to the opponents. The sponsor of the main motion on which the previous question is adopted may close on the motion.
- (3) A call of the Senate is not in order after the previous question is ordered unless it appears upon an actual count by the presiding officer that a quorum is not present.
- **S50-90. Reconsideration.** (1) Any Senator may, on the day the vote was taken or on the next day the Senate is in session, move to reconsider the question. A motion to reconsider is a debatable motion, but the debate is limited to the motion. The debate on a motion to reconsider may not address the substance of the matter for which reconsideration is sought.
- (2) A motion to reconsider may not be withdrawn after the next legislative day without the unanimous consent of the Senate, and thereafter any Senator may call it up for consideration. A motion to reconsider must be disposed of when made unless a proper substitute motion is made and adopted.
- (3) A motion to recall a bill from the House of Representatives constitutes notice to reconsider and must be acted on as a motion to reconsider. A motion to reconsider or to recall a bill from the House of Representatives may be made only under Order of Business No. 6 and, under that order of business, takes precedence over all motions except motions to recess or adjourn.
- (4) When a motion to reconsider is laid on the table, a two-thirds majority is required to take it from the table. When a motion to reconsider fails, the question is finally and conclusively settled.
- (5) If a motion to reconsider third reading action is carried, there may not be further action until the succeeding legislative day.
- **S50-100.** Dividing a question. A Senator may request to divide a question if it includes two or more propositions so distinct in substance that if one thing is taken away a substantive question will remain.
- **S50-110.** Rules for questions requiring other than a majority vote. (1) When a question requires more than a majority vote for final passage, a majority vote is sufficient to decide any question relating to the question prior to third reading.
- (2) Any vote in the Senate on a bill proposing an amendment to the Montana Constitution under circumstances in which there exists the mathematical possibility of obtaining the necessary two-thirds vote of the Legislature will cause the bill to progress as though it had received the majority vote. This rule does not prevent a committee from indefinitely postponing or tabling a bill proposing an amendment to the Montana Constitution.
- (3) If a bill has been amended in the House of Representatives and the amendments are accepted by the Senate, the bill must again be placed on third reading in the Senate to determine if the required number of votes has been cast.
- **S50-120.** Committee reports to Senate. (1) Reports of standing committees must be read on Order of Business No. 2, and, subject to subsection (4), debate may not be had on any report.
- (2) On an adverse committee report, the sponsor may respond to the chair of the committee making the report.

- (3) Any Senator seeking a reconsideration of the Senate's action on the adoption of a committee report shall do so on Order of Business No. 6 by motion to reconsider. Any Senator may make the reconsideration motion and need not have voted on the prevailing side. This rule applies notwithstanding any joint rule to the contrary. The reconsideration motion must be made within 1 legislative day of the adoption of the committee report and is not in order if the bill has been considered in Committee of the Whole.
- (4) (a) Subject to subsection (4)(b), the Rules Committee and conference committees may report at any time, except during a call of the Senate, when a vote is being taken, or during Committee of the Whole.
- (b) The Rules Committee may report during Committee of the Whole on matters referred to the Committee by the Committee of the Whole.
- **S50-130.** Conference committee reports. (1) When a conference committee report is filed with the Secretary of the Senate, the report must be read under Order of Business No. 3, select committees, and placed on the calendar the succeeding legislative day for consideration on second reading. If recommended favorably by the Committee of the Whole, it may be considered on third reading the same legislative day.
- (2) If both the Senate and the House of Representatives adopt the same conference committee report on legislation requiring more than a majority vote for final passage, the Senate, following approval of the conference committee report on third reading, shall place the final form of the legislation on third reading to determine if the required vote is obtained.
- (3) If the Senate rejects a conference committee report, the committee continues to exist unless dissolved by the President or by motion. The committee may file a subsequent report.
- (4) A Senate conference committee may confer regarding matters assigned to it with any House conference committee with like jurisdiction and submit recommendations for consideration of the Senate.
- **S50-140.** Second reading. (1) The Senate may resolve itself into a Committee of the Whole for consideration of business on second reading, by approval of a motion for that purpose.
- (2) After a Committee of the Whole has been formed, the President shall appoint a chair to preside.
- (3) All legislation considered in the Committee of the Whole must be read by a summary of its title. The sponsor shall make an opening statement, proposed amendments must be considered, and then the bill must be considered in its entirety.
- (4) Prior to adoption of the Committee of the Whole report, a Senator may move to segregate legislation. If the motion prevails, the legislation remains on second reading.
- (5) When a Committee of the Whole report on legislation is rejected, the legislation remains on second reading.
- **S50-150.** Committee of the Whole amendments. (1) All Committee of the Whole amendments must be prepared, stipulating the date and time of preparation and staff approval, and delivered to the Secretary of the Senate for reading before the amendment is voted on.
- (2) Each amendment, rejected or adopted, must be printed in the journal, along with the name of the sponsor and the vote on each.

**S50-160.** Motions in Committee of the Whole. (1) All proper motions on second reading are debatable.

- (2) The only motions in order during Committee of the Whole are to:
- (a) amend
- (b) recommend passage or nonpassage;
- (c) recommend concurrence or nonconcurrence;
- (d) indefinitely postpone;
- (e) pass consideration;
- (f) rise;
- (g) rise and report;
- (h) rise and report progress and ask leave to sit again; or
- (i) change the order in which legislation is placed on the agenda.

**S50-170.** Committee of the Whole — generally. (1) The Committee of the Whole may not appoint subcommittees.

- (2) The Committee of the Whole may not punish its members for misconduct, but may report disorder to the Senate.
- **S50-180.** Voting on second reading. (1) On Order of Business No. 8, in addition to other methods, a recorded vote may be made in the following manner: the chair may call for a voice vote to accept or reject a question. If the vote is other than unanimous, the chair may ask that the lesser number on the question indicate their vote by standing. The Secretary will then record the vote of those standing. The chair may then rule that unless excused those not standing and present have voted on the prevailing side of the question and that their vote be recorded as voting on the prevailing side. If there was a unanimous voice vote, all those present will be recorded as having voted for the question.
  - (2) A motion on second reading must be disposed of by a positive vote.
- **S50-190.** Third reading procedure. (1) Unless rereferred to a committee by a majority vote after the adoption of the committee of the whole report but before moving to another order of business, all legislation passing second reading must be placed on third reading the day following the receipt of the engrossing or other appropriate printing report.
- (2) On Order of Business No. 9 the Secretary shall read the title and the President shall state the question as follows: "Senate bill number (or other appropriate identification)..... having been read three several times, the question is, shall the bill (or other appropriate identification) pass the Senate?"
- (3) If an electronic voting system is used, the President shall state "Those in favor vote yes and those opposed vote no" and the Secretary will sound the signal and open the board for voting. After a reasonable pause the presiding officer asks "Has every member voted?" (reasonable pause), "Does any member wish to change his or her vote?" (reasonable pause), "The Secretary will record the vote."
- **S50-200.** Senate voting changing a vote. (1) A roll call vote must be taken on the request of two Senators, if the request occurs before the vote is taken.
- (2) On a roll call vote the names of the Senators must be called alphabetically, unless an electronic voting system is used. A Senator may not vote after the decision is announced from the chair. A Senator may not explain a vote until after the decision is announced from the chair.

- (3) A Senator may move to change the Senator's vote, on any recorded vote, within 1 legislative day of the vote. The Senator making the motion shall first specify the bill number, the date of the vote, and the original vote tally. A vote may not be changed if it would affect the outcome of legislation. The motion is nondebatable. If none of the Senators present object, the change must be entered into the journal.
- (4) If any Senator objects to the request in subsection (3), the Senator making the request may move to suspend the rules to allow the Senator to change the Senator's vote.
- (5) An error caused by a malfunction of the voting system may be corrected without a vote within 10 minutes of the malfunction.
- **S50-210.** Pairs. (1) Two Senators may pair on a question that will be determined by a majority vote. On a question requiring a two-thirds vote for adoption, three Senators may pair, with two Senators for the question and one Senator against. Pairing is permitted only when one of the paired Senators is excused when the vote is taken.
- (2) An agreement to pair must be in writing and dated and signed by the Senators agreeing to be bound and must specify the duration of the pair. When an agreement to pair is filed with the Secretary of the Senate, it binds the Senators signing until the expiration of time for which it was signed, unless the paired Senators sooner appear and ask that the agreement be canceled.
  - (3) Pairs in Committee of the Whole are prohibited.
- **S50-220.** Call of the Senate. (1) In the absence of a quorum, a majority of Senators present may compel the attendance of absent Senators by ordering a call of the Senate.
  - (2) If a quorum is present, five Senators may order a call of the Senate.
- (3) On a call of the Senate, a Senator who refuses to attend may be arrested by the Sergeant-at-Arms or any other person, as the majority of the Senators present direct. When the attendance of an absent Senator is secured and the Senate refuses to excuse the Senator's absence, the Senator may not be paid any expense payments while absent and is liable for the expenses incurred in procuring the Senator's attendance.
- (4) During a call of the Senate, all business must be suspended. After a call has been ordered, no motion is in order except a motion to adjourn or remove the call. The call may be removed by a two-thirds vote of the members present.
- **S50-230.** House amendments to Senate legislation. (1) When the House has properly returned Senate legislation with House amendments, the Senate shall announce the amendments on Order of Business No. 5 and the President shall place them on second reading for debate. The President may rerefer Senate legislation with House amendments to a committee for a hearing if the House amendments constitute a significant change in the Senate legislation. The second reading vote is limited to consideration of the House amendments.
- (2) If the Senate accepts House amendments, the Senate shall place the final form of the legislation on third reading to determine if the legislation, as amended, is passed or if the required vote is obtained.
- (3) If the Senate rejects the House amendments, the Senate may request the House to recede from its amendments or may direct appointment of a conference committee and request the House to appoint a like committee.

- **S50-240.** Governor's amendments. (1) When the Governor returns a bill with recommended amendments, the Senate shall announce the amendments under Order of Business No. 4.
- (2) The Senate may debate and adopt or reject the Governor's recommended amendments on second reading on any legislative day.
- (3) If both the Senate and the House of Representatives accept the Governor's recommended amendments on a bill that requires more than a majority vote for final passage, the Senate shall place the final form of the legislation on third reading to determine if the required vote is obtained.
- **S50-250.** Governor's veto. (1) When the Governor returns a bill with a veto, the Senate shall announce the veto under Order of Business No. 4.
- (2) On any legislative day, a Senator may move to override the Governor's veto by a two-thirds vote under Order of Business No. 6.

#### **CHAPTER 6**

#### Rules

- **S60-10. Senate rules.** (1) A motion to amend or adopt a rule of the Senate must be referred to the Rules Committee without debate. A rule of the Senate may be amended or adopted only with the concurrence of a majority of the Senate and after 1 day's notice.
  - (2) A rule may be suspended temporarily by a two-thirds vote.
- **S60-20.** Mason's Manual of Legislative Procedure. Mason's Manual of Legislative Procedure (2000) governs the proceedings of the Senate in all cases not covered by these rules.

#### **CHAPTER 7**

#### Nominations from the Governor

- **S70-10. Nominations.** (1) The Governor shall nominate and, by and with the consent of the Senate, appoint all officers whose offices are established by the Montana Constitution or which may be created by law and for whom appointment or election is not otherwise provided.
- (2) If during a recess of the Senate a vacancy occurs in any office subject to Senate confirmation, the Governor shall appoint some fit person to discharge the duties of the office until the next meeting of the Senate, when the Governor shall nominate a person to fill the office.
- **S70-20.** Introduction and first reading of nominations. (1) Nominations received from the Governor must be:
  - (a) received by the President;
  - (b) delivered to the Secretary of the Senate;
  - (c) read under Order of Business No. 4, messages from the Governor; and
- (d) referred to committee. The President of the Senate may refer any individual nomination contained in a list received from the Governor to any standing committee.
- (2) The procedure in subsection (1) constitutes introduction and first reading of the nominations.
- (3) The Secretary shall distribute a copy of the list of nominations to each Senator.

- **S70-30. Committee process.** (1) (a) The committee shall research each nominee and may request biographical information from the Governor for each nominee if none has been provided.
- (b) The committee chair shall submit a bill draft request on behalf of the committee for a simple resolution to include the nominees specified by the committee chair. These bill draft requests will not count against any bill draft request limit imposed on members. When the resolution has been prepared and introduced, the committee shall hold a hearing on the resolution after appropriate public notice has been made.
- (2) Following the hearings, the committee shall issue preliminary standing committee reports to be distributed to each Senator, stating the committee's recommendations concerning the nominees.
- (3) (a) If a Senator wishes to have an individual nominee, or group of nominees, considered by the Senate separately from the group of nominees recommended by the committee, the Senator may request of the chair of the committee that the nominee or nominees be considered by a separate resolution.
- (b) A Senator shall request separate consideration of a nominee within 3 days of receipt of the preliminary standing committee report. The committee chair shall honor this request.
- (4) After waiting 3 days from the day of distribution of the preliminary standing committee report, the committee chair shall issue a final standing committee report and deliver the report to the Secretary of the Senate.
- (a) If a nominee is to be separated from the resolution, the final standing committee report must include an amendment deleting that nominee.
- (b) When a nominee has been separated at the request of a Senator, the committee chair shall submit a bill draft request on behalf of the committee for a simple resolution to include only the nominee so separated. When the resolution has been prepared and introduced, the committee shall take executive action on the resolution. When a hearing on the separated nomination was held prior to the committee's preliminary standing committee report, an additional hearing is not required to be held before the committee takes action on the separate resolution. After the committee's executive action, the committee chair shall issue a standing committee report.
- (5) If a resolution contains only one nominee, the committee shall dispense with the preliminary standing committee report and shall issue a final standing committee report to be distributed to each Senator stating the committee's recommendation concerning the nominee.
- (6) The Secretary will read the reports under Order of Business No. 2, reports of standing committees.
- (7) After the report has been read, the resolution must be placed on Order of Business No. 11 the next legislative day for consideration by the Senate. Motions to approve or disapprove of the resolution are in order and may be debated.

## A LAW PROPOSED BY INITIATIVE PETITION

I-155 establishes the Healthy Montana Kids plan to expand and coordinate health coverage for uninsured children under the Children's Health Insurance Program (CHIP), the Montana Medicaid Program, and employer-sponsored health insurance. The State Health Department may: raise income eligibility

levels for children under CHIP and Medicaid; simplify transitions between CHIP and Medicaid coverage; provide assistance for children in employer-sponsored insurance; and work with health care providers, schools, organizations, and agencies to encourage enrollment of uninsured children. Funding for I-155 will come from a share of the insurance premium tax and federal matching funds.

I-155 costs an estimated \$22 million of state funds, paid from the treasury with a share of current revenues from the insurance premium tax. Actual expenditures will depend on other factors, including the amount of federal matching dollars and enrollment.
